Patell,1994 Multi volume history of American literature *Crimea and the Black Sea* Carlos Cordova,2015-12-01 The Crimean Peninsula has a rich and complex environmental history The Black Sea in particular has had a major impact on nearly all aspects of Crimea s natural and cultural history Carlos Cordova explains the making of Crimea s natural environment from its geology and relief to its climate and soils He explores the rich flora and fauna of the peninsula including the biogeographical isolation of Crimea the transformation of the landscape brought about by Mediterranean farmers as well as Khrushchev s Virgin Lands Campaign which saw virtually all the steppe turned into cropland The development of the south coast as a tourist destination and the pollution brought about by agricultural and industrial development are also discussed This pioneering study represents the first modern work in the English language on the environmental history of a little known but environmentally significant region **The Transmutation of Love and Avant-Garde Poetics** Jeanne Heuving,2016-05-19 The Transmutation of Love and Avant Garde Poetics is a probing examination of how the writing of sexual love undergoes a radical revision by avant garde poets in the twentieth and twenty first centuries Today the exploration of love by poets long a fixture of Western poetic tradition is thought to be in decline with love itself understood to be a mere ideological overlay for the more real entities of physical sex and desire In The Transmutation of Love and Avant Garde Poetics Jeanne Heuving claims that a key achievement of poetry by Ezra Pound H D Robert Duncan Kathleen Fraser Nathaniel Mackey and others lies significantly in their engagement with the synergistic relations between being in love and writing love These poets she argues have traded the clichéd lover of yore for impersonal or posthuman poetic speakers that sustain the gloire and mystery of love poetry of prior centuries As Robert Duncan writes There is a love in which we are outcast and vagabond from what we are that we call falling in love Heuving claims that this writing of love is defining for avant garde poetics identifying how such important discoveries as Pound s and H D s Imagism Pound s Cantos and Duncan s open field poetics are derived through their changed writing of love She draws attention to how the prevailing concept of language as material is inadequate to the ways these poets also engage language as a medium as a conduit enabling them to address love afresh in a time defined through preoccupations with sexuality They engage love as immanent and change it through a writing that acts on itself The Transmutation of Love and Avant Garde Poetics ascribes the waning of love poetry to its problematic form a genre in which empowered poetic speakers constitute their speech through the objectification of comparatively disempowered subjects or beloveds Refusing this pervasive practice the poets she highlights reject the delimiting one sided tradition of masculine lovers and passive feminine beloveds instead they create a more nuanced dynamic poetics of ecstatic exploration what

Heaving calls projective love and libidinized field poetics a formally innovative poetry in which one perception leads directly to the next and all aspects of a poem are generative of meaning *Easter Island* John Loret, John T. Tanacredi, 2012-12-06 Easter Island a World Heritage Site is still after over 50 years since Thor Heyerdahl's work on the island a fascinating area to explore and learn about a culture that has only remnants remaining while documenting a marine ecology still mostly unknown Easter Island Scientific Exploration into the World's Environmental Problems in Microcosm presents the research results from three years of interdisciplinary expeditions to Easter Island The primary objectives were to investigate the effects of human population growth on the ecology of the island and to discover whether any dramatic climatic changes such as a prolonged El Niño could have disrupted the island's fragile ecosystem The interdisciplinary scientific team were mainly researching the paleontology archaeology climatology and geophysics of the island This book now brings together the results of the three expeditions identifies new areas of research and hopefully will continue to inspire aspiring scientists to revisit this amazing island to explore and demystify this timeless enigma of human history **Earth System History** Steven M.
