Handbook offers 35 vibrant and original essays of new interpretations of the artistic and political challenges of representing life. It is the first book to treat the subject topically and thematically in wide scope with essays that draw upon recent scholarship in literary and cultural studies to offer an authoritative and in depth reassessment of major and minor figures and the contexts that shaped their work. Contributors here tease out the workings of a particular concept through a variety of authors and their cultural contexts. A set of essays explores realism's genesis and its connection to previous and subsequent movements. Others examine the inclusiveness of representation, the circulation of texts and the aesthetic representation of science, time, space and the subjects of medicine, the New Woman and the middle class. Still others trace the connection to other arts: poetry, drama, illustration, photography, painting and film and to pedagogic issues in the teaching of realism. As a whole, this volume forges exciting new paths in the study of realism and writers' unending labor to represent life accurately.

The Significant Hamlin Garland Donald Pizer, 2014-10-15. *The Significant Hamlin Garland* collects the best of Donald Pizer's essays dealing with Garland's early work and activities in an effort to re-establish the importance of this formative stage in his career. The essays in the first part of the book are devoted to Garland's radical economic and artistic beliefs and activities, while those in the second half concentrate on his most permanent work of the period: *Main Travelled Roads*, his novel *Rose of Dutcher's Coolly* and his autobiography *A Son of the Middle Border*. *The State of Wisconsin Blue Book*, 1977.

Hamlin Garland Jean Holloway, 2014-12-12. Hamlin Garland's *Main Travelled Roads* is recognized as one of the early landmarks of American literary realism. But Garland's shift in mid-career from the harsh verisimilitude of *Prairie Folks* and *Prairie Songs* to a romanticizing of the Far West and from ardent espousal of the principles of veritism to violent denunciations of naturalism is a paradox which has long puzzled literary historians. In tracing the evolution of Garland's work, the various reactions of his stories under the influence of editorial comment and of contemporary critical reaction, Jean Holloway suggests that the Garland apostasy was an illusion produced by his very intellectual immobility amidst the swirling currents of American thought. His extensive correspondence with Gilder of the *Century*, Alden of Harper's *Monthly*, McClure of McClure's and Bok of the *Ladies Home Journal* is adduced in support of the thesis that the writer's choices of subject and of treatment were psychologically forced rather than conditioned primarily by literary theory. As a subject for biography, however, Garland has an appeal far beyond the scope of his literary influence. The friendships of this gregarious peripatetic with the famous began with Howells, Twain, Whitman and Stephen Crane; stretched down the years to include such younger men as Bret Harte and Carl Van Doren and crossed the seas to embrace such British literary lions as Barrie, Shaw and Kipling. Garland's fervent espousal of causes, the Single Tax Movement, psychic experimentation, Indian rights, brought him into close contact with other prominent men: Henry George, Theodore Roosevelt and William Jennings Bryan. These public figures form the incidental characters in Garland's spate of autobiographical works. Yet it is the central figure of his own story which has become permanently identified with the Middle Border, that region between the land of the hunter and the harvester which

Augustus Thomas defined as wherever Hamlin Garland is In A Son of the Middle Border Garland nostalgically recreated his boyhood on the frontier and regardless of the detractions of literary critics preserved for posterity an important segment of American social history American Naturalistic and Realistic Novelists Edd C. Applegate, 2001-11-30 Realistic writers seek to render accurate representations of the world and their novels contain authentic details and descriptions of their characters and settings Like Realistic authors Naturalistic ones similarly try to portray the world accurately but they tend to depict the darker side of life Realism was born in Europe in the nineteenth century and soon became popular in the United States while Naturalism became prominent at the beginning of the twentieth century Both traditions have continued in one form or another to the present day and Realistic and Naturalistic novelists include some of America's most significant authors such as Sherwood Anderson Saul Bellow Ambrose Bierce Willa Cather Theodore Dreiser Ralph Ellison and Jack London This reference includes biographical and critical entries for more than 120 American Naturalistic and Realistic novelists An introductory essay discusses the history of the Realistic and Naturalistic traditions points to the difficulty of defining them and surveys the many authors who have been associated with the two movements The entries that follow are arranged alphabetically to facilitate use Each includes basic biographical information and a narrative overview of the writer's educational background professional career and published works The writer's works are briefly discussed in relation to the Realistic and Naturalistic traditions Entries include primary and secondary bibliographies and the volume closes with a list of works for further reading
