Rosen Method Bodywork:

Rosen Method Bodywork Marion Rosen, Susan Brenner, 2003-04-21 In this long awaited description of the body centered therapy developed by Marion Rosen the reader begins to understand how emotional and physical ailments can be addressed through the gentle touch of the Rosen practitioner Rosen explains how the practitioner identifies tensions in the body that point to the source of a problem and how that awareness guides the healing process With the help of psychotherapist Susan Brenner the director of Rosen Center East and one of Marion's first students she describes the origins of her method how people reveal their emotions in body postures barriers they set up to love self expression and intimacy and how Rosen work enables a client to move beyond these barriers Treatments for asthma migraine headaches heart problems weak immune systems and psychosomatic illnesses are chronicled Essays by doctors psychologists and Rosen practitioners describe how this method of touch words and acceptance guides their work and complete this remarkable tribute to a visionary woman

Restorative Embodiment and Resilience Alan Fogel, Ph.D.,2021-09-28 An expanded take on traditional Embodied Self Awareness therapy ideal for practitioners in all areas of body focused work including yoga meditation and somatic psychotherapy Embodied Self Awareness ESA is a somatic approach to treat trauma and other mental health concerns by helping people connect directly to thoughts sensations and emotions as they arise within the body Here psychologist Alan Fogel introduces Restorative ESA an

expansion of traditional ESA that incorporates three new and unique ESA states Restorative Modulated and Dysregulated Using a research backed approach Fogel explains their underlying neuroscience with concrete examples to illustrate how these states impact our personal and professional lives Fogel shows that wellness is more than the ability to moderate one's inner state by regulating and tolerating emotions By shifting from states of doing to allowing from activation to receptivity and from thinking to felt experience we can access the expansive power of the restorative state and heal the body mind and spirit
