Rousseau Nature And History:

Rousseau, Nature, and History Asher Horowitz, 1987 **Jean-Jacques Rousseau: Human nature and history** John T. Scott, 2006 Bringing together critical assessments of the broad range of Rousseau's thought with a particular emphasis on his political theory this systematic collection is an essential resource for both student and scholar **A Commentary on Rousseau** Richard Timothy Simpson, 1977 Natural Right and History Leo Strauss, 2013-12-27 In this classic work Leo Strauss examines the problem of natural right and argues that there is a firm foundation in reality for the distinction between right and wrong in ethics and politics On the centenary of Strauss's birth and the fiftieth anniversary of the Walgreen Lectures which spawned the work Natural Right and History remains as controversial and essential as ever Strauss makes a significant contribution towards an understanding of the intellectual crisis in which we find ourselves and brings to his task an admirable scholarship and a brilliant incisive mind John H Hallowell American Political Science Review Leo Strauss 1899-1973 was the Robert Maynard Hutchins Distinguished Service Professor Emeritus in Political Science at the University of Chicago Rousseau's God John T. Scott, 2023-04-18 Rousseau's God offers a comprehensive interpretation of Rousseau's theological and religious writings both in themselves and in relation to his philosophy of the natural goodness of man John T. Scott argues that there is a complicated relationship between Rousseau's philosophy on the one hand and his theological and religious thought This relationship revolves around two oppositions first between the attributes and psychological needs of natural man and social or moral man second between the criteria of truth and utility for evaluating theological and religious doctrines In short because the justification of nature through the natural goodness of man does not suffice for developed humans Rousseau offers theological and religious doctrines which are less true than useful psychologically morally or politically History and Nature in the Enlightenment Nathaniel Wolloch, 2016-04-22 The mastery of nature was viewed by eighteenth century historians as an important measure of the progress of civilization Modern scholarship has hitherto taken insufficient notice of this important idea This book discusses the topic in connection with the mainstream religious political and philosophical elements of Enlightenment culture It considers works by Edward Gibbon Voltaire Herder Vico Raynal Hume Adam Smith William Robertson and a wide range of lesser and better known figures It also discusses many classical medieval and early modern sources which influenced Enlightenment historiography as well as eighteenth century attitudes toward nature in general The Decline of Nature Gilbert F. LaFreniere, 2012-07 History of International Relations Theory Torbjorn L. Knutsen, Torbjørn L. Knutsen, 1997-06-15 Introduces ideas on international relations expressed by thinkers from High Middle Ages to the present day **History of Political Theory: An Introduction** George Klosko, 2013-02-08 History of Political Theory An Introduction not only explores the great works of Western political theory but demonstrates their continuing relevance Volume II traces the origin and development of liberal political theory and so the foundations for contemporary views The work provides a readable scholarly introduction to the great figures in Western

political theory from Hobbes to Marx Major theorists examined include Hobbes Locke Hume Montesquieu Rousseau Burke Mill and Marx not only major figures in the liberal tradition but liberal political theory's most important critics Theorists are examined in their historical contexts with extensive quotations allowing them to speak for themselves Central concepts employed in their works are carefully examined with special attention to both how they fit together to form coherent theories and how they bear on issues of contemporary concern Major concepts examined include freedom rights political obligation and revolution Emphasizing depth rather than breadth this work is an ideal introduction tool for instructors who have been searching for a text that combines careful exposition of important political theorists and clear critical analysis

Rousseau's Theory of Freedom Matthew Simpson, 2006-03-08 Jean Jacques Rousseau has a claim to be ranked above even Karl Marx as the political philosopher who has most influenced everyday life His much read philosophy of education alone would qualify him for a high place but his political theory is even more important decisions affecting millions of people were made based on the reading of certain lines of the Social Contract Yet while politicians and scholars have studied this book for 250 years almost no agreement exists on how to interpret its central concept freedom Rousseau's theory of freedom has led him to be called everything from the greatest prophet of individual liberty to the designer of the first totalitarian state This book offers a new unifying interpretation of the theory of freedom in the Social Contract Simpson gives a careful analysis of Rousseau's theory of the social pact and then examines the kinds of freedom that it brings about showing how Rousseau's individualist and collectivist aspects fit into a larger and logically coherent theory of human liberty Simpson's book not only helps us to understand one of the pre eminent political minds of the 18th century but also brings us into closer conversation with those he influenced who have done so much to shape our world And in light of the interest in contemporary contractualist philosophers like Rawls Scanlon and Gauthier readers will find it worthwhile to return to the thinker who offers one of the most radical profound and insightful theories of the social contract ever devised [A History of the Heart](#) Ole Martin Høystad, 2009-05-01 A fascinating investigation into the heart the locus of grief joy and power through human culture history myth and science **The Rousseauian Mind** Eve Grace, Christopher Kelly, 2019-01-17 Jean Jacques Rousseau 1712-1778 is a major figure in Western Philosophy and is one of the most widely read and studied political philosophers of all time His writings range from abstract works such as On the Social Contract to literary masterpieces such as The Reveries of the Solitary Walker as well as immensely popular novels and operas The Rousseauian Mind provides a comprehensive survey of his work not only placing it in its historical context but also exploring its contemporary significance Comprising over forty chapters by a team of international contributors the Handbook covers The predecessors and contemporaries to Rousseau's work The major texts of the system Autobiographical texts including Confessions Reveries of the Solitary Walker and Dialogues Rousseau's political science The successors to Rousseau's work Rousseau applied today Essential reading for students and researchers in philosophy Rousseau's work is central to the study of political philosophy

the Enlightenment French studies the history of philosophy and political theory

The Illusion of History Illusion of History Andrew R. Russ, 2013 European radical political thought represented by Jean Jacques Rousseau Karl Marx and Michel Foucault has deeply impacted the Western intellectual tradition and political life These thinkers sought to transform Western societies by critiquing institutions that they felt led to oppression of groups They saw societies and institutions as part of a history that constantly develops and has no objective timeless purpose or principles They understood the history of things people do and of events that happen in a primarily evolutionary way As a result these radical political thinkers have often been thought to have a strong historical consciousness Andrew Russ argues in this book that a closer look at their philosophical underpinnings finds that Rousseau Marx and Foucault are much less historical in their methodology than is widely believed Instead they share a more timeless view one indebted to principles ordinarily seen as timeless or transcendent Russ finds that these thinkers are actually quite dependent on the philosopher who concluded the Enlightenment Immanuel Kant Russ's study shows how Kant's view of human freedom and subjectivity as timeless actually informs the work of the radical political position

ABOUT THE AUTHOR Andrew R Russ is lecturer in European studies at the University of Adelaide

A History of Modern French Literature Christopher Prendergast, 2025-06-17 An accessible and authoritative new history of French literature written by a highly distinguished transatlantic group of scholars This book provides an engaging accessible and exciting new history of French literature from the Renaissance through the twentieth century from Rabelais and Marguerite de Navarre to Samuel Beckett and Assia Djebar Christopher Prendergast one of today's most distinguished authorities on French literature has gathered a transatlantic group of more than thirty leading scholars who provide original essays on carefully selected writers works and topics that open a window onto key chapters of French literary history The book begins in the sixteenth century with the formation of a modern national literary consciousness and ends in the late twentieth century with the idea of the national coming increasingly into question as inherited meanings of French and Frenchness expand beyond the geographical limits of mainland France Provides an exciting new account of French literary history from the Renaissance to the end of the twentieth century Features more than thirty original essays on key writers works and topics written by a distinguished transatlantic group of scholars Includes an introduction and index The contributors include Etienne Beaulieu Christopher Braider Peter Brooks Mary Ann Caws David Coward Nicholas Cronk Edwin M Duval Mary Gallagher Raymond Geuss Timothy Hampton Nicholas Harrison Katherine Ibbett Michael Lucey Susan Maslan Eric M choulou Hassan Melehy Larry F Norman Nicholas Paige Roger Pearson Christopher Prendergast Jean Michel Rabat Timothy J Reiss Sarah Rocheville Pierre Saint Amand Clive Scott Catriona Seth Judith Sribnai Joanna Stalnaker Aleksandar Stevi Kate E Tunstall Steven Ungar and Wes Williams

The French Idea of History Carolina Armenteros, 2011-07-07 A fierce absolutist a furious theocrat the champion of the hardest narrowest and most inflexible dogmatism part learned doctor part inquisitor part executioner Thus did mile Faguet describe Joseph Marie de Maistre 1753

1821 in his 1899 history of nineteenth century thought This view of the influential thinker as a reactionary has with little variation held sway ever since In *The French Idea of History* Carolina Armenteros recovers a very different figure one with a far more subtle understanding of and response to the events of his day Maistre emerges from this deeply learned book as the crucial bridge between the Enlightenment and the historicized thought of the nineteenth century Armenteros demonstrates that Maistre inaugurated a specifically French way of thinking about past present and future that held sway not only among conservative political theorists but also among intellectuals generally considered to belong to the left particularly the Utopian Socialists The historical rupture represented by the French Revolution compelled contemporaries to reflect on the nature and meaning of history Some who remained religious during those years felt history with particular intensity awakening suddenly to the fear that God might have abandoned humankind This profound spiritual anxiety emerged in Maistre s work under his pen everything knowledge society religion government the human body had to be historicized and temporalized in order to be known The imperative was to end history by uncovering its essence Socialists positivists and traditionalists drew on Maistre s historical ideas to construct the collective good and design the future The dream that history held the key to human renewal and the obliteration of violence faded after the 1848 revolutions but it permanently changed French social political moral and religious thought

Reason and Self-Enactment in History and Politics F.M. Barnard, 2006-03-03 *Reason and Self-Enactment in History and Politics* also offers a reappraisal of basic political principles and constructs Barnard argues for bridging differences among a plurality of truths and forming practical judgments through cultivation of a sense of situational appropriateness

An Intellectual History of Liberalism Pierre Manent, 2019-12-31 Highlighting the social tensions that confront the liberal tradition Pierre Manent draws a portrait of what we citizens of modern liberal democracies have become For Manent a discussion of liberalism encompasses the foundations of modern society its secularism its individualism and its conception of rights The frequent incapacity of the morally neutral democratic state to further social causes he argues derives from the liberal stance that political life does not serve a higher purpose Through quick moving highly synthetic essays he explores the development of liberal thinking in terms of a single theme the decline of theological politics The author traces the liberal stance to Machiavelli who in seeking to divorce everyday life from the pervasive influence of the Catholic church separated politics from all notions of a cosmological order What followed as Manent demonstrates in his analyses of Locke Hobbes Rousseau Guizot and Constant was the evolving concept of an individual with no goals outside the confines of the self and a state with no purpose but to prevent individuals from dominating one another Weighing both the positive and negative effects of such a political arrangement Manent raises important questions about the fundamental political issues of the day among them the possibility of individual rights being reconciled with the necessary demands of political organization and the desirability of a government system neutral about religion but not about public morals

History of the Idea of Progress Robert A. Nisbet, ***An Intellectual History of Cannibalism*** Ctlin

Avramescu,2011-08-28 Annotation Based on the research he undertook in rare book collections housed in Scotland the United States Finland Iceland Holland Germany and Austria the author presents a systematic history of cannibalism as reflected in the mirror of philosophy *Edinburgh Critical History of Nineteenth-Century Philosophy* Alison Stone,2011-06-06 This volume begins with the rise of German Idealism and Romanticism traces the developments of naturalism positivism and materialism and of later century attempts to combine idealist and naturalist modes of thought Written by a team of leading international scholars this crucial period of philosophy is examined from the novel perspective of themes and lines of thought which cut across authors disciplines and national boundaries This fresh approach will open up new ways for specialists and students to conceptualise the history of 19th century thought within philosophy politics religious studies and literature
