GUIDED HISTORICAL TOUR As Scott LaBarge points out Plato's dialogues can be viewed as an extended treatment of the concept of moral expertise so it is fitting to begin the volume with an examination of Socrates and Moral Expertise Given Socrates' protestations the Oracle at Delphi notwithstanding that he knows nothing LaBarge observes that it would be interesting to determine both what a Socratic theory of moral expertise might be and whether Socrates qualified as such an expert Plato's model of moral expertise is what LaBarge calls demonstrable expertise which is concerned mainly with the ability to attain a goal and to explain how one did it The problem with this account is that when one tries to solve the various problems in the model for example allowing that moral expertise is not an all or nothing skill then one is immediately faced with the credentials problem As LaBarge puts it

Thinking Through Utilitarianism Andrew T. Forcehimes, Luke Semrau, 2019-11-15 Thinking Through Utilitarianism A Guide to Contemporary Arguments offers something new among texts elucidating the ethical theory known as Utilitarianism Intended primarily for students ready to dig deeper into moral philosophy it examines in a dialectical and reader friendly manner a set of normative principles and a set of evaluative principles leading to what is perhaps the most defensible version of Utilitarianism With the aim of laying its weaknesses bare each principle is serially introduced challenged and then defended The result is a battery of stress tests that shows with great clarity not only what is attractive about the theory but also where its problems lie It will fascinate any student ready for a serious investigation into what we ought to do and what is of value
