Representing the South Pacific Rod Edmond, 1997-11-20 This book examines how the South Pacific was represented by explorers missionaries travellers writers and artists between 1767 and 1914 by drawing on history literature art history and anthropology Edmond engages with colonial texts and postcolonial theory criticising both for their failure to acknowledge the historical specificity of colonial discourses and cultural encounters and for continuing to see indigenous cultures in essentially passive or reactive terms The book offers a detailed and grounded reading back of these colonial discourses into the metropolitan centres which gave rise to them while resisting the idea that all representations of other cultures are merely self representations Among its themes are the persistent myth making around the figure of Cook the western obsession with Polynesian sexuality tattooing cannibalism and leprosy and the Pacific as a theatre for adventure and as a setting for Europe's displaced fears of its own cultural extinction

Beauty and the Beast ,2020-10-12 1994 marked the centenary of the deaths of Walter Pater Christina Rossetti and Robert Louis Stevenson and Beauty and the Beast is largely devoted to an exploration of aspects of their lives and their writings and the role they played in the development of British literature Both individually and as a group these writers offer interesting opportunities to investigate a distinctive ambivalence in the literature of the last three decades of the nineteenth century Thus we may observe how Pater as the founder of Aestheticism in British literature addressed the Victorian dilemma how to live in Marius the Epicurean how Rossetti s poetry expresses both spiritual and erotic tendencies while Stevenson s The Strange Case of Dr Jekyll and Mr Hyde is perhaps the epitome of the fin de si cle tension between good and evil beauty and beast Yet the scope of this book also includes an examination of the relationships between these three authors and their contemporaries and of their setting on the British Isles as well as on the Continent Thus George Moore makes his appearance next to Anton Chekhov Arthur Schnitzler Oscar Wilde Alain Fournier and Louis Couperus The various discussions of these French German Russian Italian Irish and Dutch connections in this book reflect the international setting of the European fin de si cle as a background against which the theme of Beauty and the Beast is discussed Contributors are Wim Tigges C C Barfoot Jan Marsh Valeria Tinkler Villani Amanda Gilroy Peter van de Kamp Billie Andrew Inman Laurel Brake Peter Costello Ans Kabel Douglas S Mack Tim Youngs Neil Cornwell Sjef Houppermans Jacques B H Alblas John Stokes Susan de Sola Rodstein

Robert Burns and Pastoral Nigel Leask,2010-07-02 Robert Burns and Pastoral is a full scale reassessment of the writings of Robert Burns 1759 1796 arguably the most original poet writing in the British Isles between Pope and Blake and the creator of the first modern vernacular style in British poetry Although still celebrated as Scotland s national poet Burns has long been marginalised in English literary studies worldwide due to a mistaken view that his poetry is linguistically incomprehensible and of interest to Scottish readers only Nigel Leask challenges this view by interpreting Burns s poetry as an innovative and critical engagement with the experience of rural modernity namely to the revolutionary transformation of Scottish agriculture and society in the decades between 1760 and 1800 thereby resituating it within the mainstream of the Scottish and European enlightenments Detailed study of the literary social and historical contexts of Burns s poetry explodes the myth of the Heaven taught ploughman revealing his poetic artfulness and critical acumen as a social observer as well as his significance as a Romantic precursor Leask discusses Burns s radical decision to write Scots pastoral rather than English georgic poetry in the tradition of Allan Ramsay and Robert Fergusson focusing on themes of Scottish and British identity agricultural improvement poetic self fashioning language politics religion patronage poverty antiquarianism and the animal world The book offers fresh interpretations of all Burns s

major poems and some of the songs the first to do so since Thomas Crawford's landmark study of 1960. It concludes with a new assessment of his importance for British Romanticism and to a Four Nations understanding of Scottish literature and culture.
