Rubens A Master In The Making:

Rubens David Jaffé, Elizabeth McGrath, Amanda Bradley, Minna A. Moore Ede, National Gallery (Great Britain), 2005 A fascinating exploration of the early work of the great Flemish master Rubens **Rubens** Sir Peter Paul Rubens, 2005

Rubens Anne T. Woollett, Davide Gasparotto, Jeffrey Spier, 2021-11-02 The first study devoted to classical art's vital creative impact on the work of the Flemish painter Peter Paul Rubens For the great Peter Paul Rubens 1577-1640 the classical past afforded lifelong creative stimulus and the camaraderie of humanist friends A formidable scholar Rubens ingeniously transmitted the physical ideals of ancient sculptors visualized the spectacle of imperial occasions rendered the intricacies of mythological tales and delineated the character of gods and heroes in his drawings paintings and designs for tapestries His passion for antiquity profoundly informed every aspect of his art and life Including 170 color illustrations this volume addresses the creative impact of Rubens's remarkable knowledge of the art and literature of antiquity through the consideration of key themes The book's lively interpretive essays explore the formal and thematic relationships between ancient sources and Baroque expressions the significance of neo-Stoic philosophy the compositional and iconographic inspiration provided by exquisite carved gems Rubens's study of Roman marble sculpture and his inventive translation of ancient sources into new subjects made vivid by his dynamic painting style This volume is published to accompany an exhibition on view at the J. Paul Getty Museum at the Getty Villa from November 10, 2021 to January 24, 2022 *Re-Reading Leonardo* Claire Farago, 2017-07-05 For nearly three centuries Leonardo da Vinci's work was known primarily through the abridged version of his *Treatise on Painting* first published in Paris in 1651 and soon translated into all the major European languages Here for the first time is a study that examines the historical reception of this vastly influential text This collection charts the varied interpretations of Leonardo's ideas in French Italian Spanish English German Dutch Flemish Greek and Polish speaking environments where the *Trattato* was an important resource for the academic instruction of artists one of the key sources drawn upon by art theorists and widely read by a diverse network of artists architects biographers natural philosophers translators astronomers publishers engineers theologians aristocrats lawyers politicians entrepreneurs and collectors The cross-cultural approach employed here demonstrates that Leonardo's *Treatise on Painting* is an ideal case study through which to chart the institutionalization of art in Europe and beyond for 400 years The volume includes original essays by scholars studying a wide variety of national and institutional settings The coherence of the volume is established by the shared subject matter and interpretative aim to understand how Leonardo's ideas were used With its focus on the active reception of an important text overlooked in studies of the artist's solitary genius the collection takes Leonardo studies to a new level of historical inquiry Leonardo da Vinci's most significant contribution to Western art was his interpretation of painting as a science grounded in geometry and direct observation of nature One of the most important questions to emerge from this study is what enabled the same text to produce so many different styles of painting "Rubens, Velázquez, and the

King of Spain " Larry Silver,2017-07-05 This study provides a new analysis of the pictorial ensemble of the Torre de la Parada the hunting lodge of King Philip IV of Spain Created in the late 1630s by a group of artists led by Peter Paul Rubens this cycle of mythological imagery and hunting scenes was completed by Diego Vel uez Despite the lack of a written program surviving works provide eloquent testimony of several basic themes that embody Neostoic ideals of self restraint and prudent governance While Rubens set the moral tone through his serio comic Ovidian narratives Vel uez added an important grace note with his portraits of ancient philosophers and royals and fools of the court This study is the first to consider in depth their joint artistic contributions and shared ambition Through analysis of individual works the authors situate these pictorial inventions within broader intellectual currents in both Spanish Flanders and Spain especially in the advice literature and drama presented to the Spanish king Moreover they point to the lasting resonance of Torre de la Parada for Vel uez especially within his late masterworks Las Meninas and Las Hilanderas Ultimately this study illuminates the dialogical nature of this ensemble in which Rubens and Vel uez offer a set of complementary views on subjects ranging from the nature of classical gods to the role of art as a mirror of the prince
