**Beyond the Evangelical Gender Roles Gridlock** Paul J. Palma, 2024-11-30 Present day Evangelicalism represents a microcosm of broader tensions over male and female gender roles with some denominations carefully delimiting women leadership roles especially the female pastor and many others supporting them The letters attributed to Paul the Apostle contain several divisive passages on the meaning of manhood and womanhood Dated and dubious readings of these have led some Christians and non Christians alike to conclude that Paul wrote with misogynistic intent Others quote them to justify Christian patriarchalism Beyond the Evangelical Gender Roles Gridlock Reimagining Paul s Views on Women Marriage and Ministry reassesses what Paul said about women reinterpreting his claims on marriage and ministry leadership in light of his first century worldview This book proposes a nuanced theological egalitarian approach with significant implications for renewing twenty first century congregations homes and society **The Christian Political Theology of Dr. John Henry Okullu** Jemima Atieno Oluoch, 2006

Byrne, 1921 **The Mushroom in Christian Art** John A. Rush, 2018-11-06 In The Mushroom in Christian Art author John A. Rush uses an artistic motif to define the nature of Christian art establish the identity of Jesus and expose the motive for his murder Covering Christian art from 200 CE common era to the present the author reveals that Jesus the Teacher of Righteousness mentioned in the Dead Sea Scrolls is a personification of the Holy Mushroom Amanita muscaria The mushroom Rush argues symbolizes numerous mind altering substances psychoactive mushrooms cannabis henbane and mandrake used by the early more experimentally minded Christian sects Drawing on primary historical sources Rush traces

the history and face of Jesus as being constructed and codified only after 325 CE The author relates Jesus's life to a mushroom typology discovering its presence disguised in early Christian art In the process he reveals the ritual nature of the original Christian cults rites and rituals including mushroom use The book authoritatively uncovers Jesus's message of peace love and spiritual growth and proposes his murder as a conspiracy by powerful reactionary forces who would replace that message with the oppressive religious political system that endures to this day Rush's use of the mushroom motif as a springboard for challenging mainstream views of Western religious history is both provocative and persuasive The package includes a link to 252 striking color images depicting Christian art with key motifs indicated by the author **Christianity**

Eifring, 2013-10-24 Meditative practices have flourished in widely different parts of Eurasia yet historical research on such practices is limited Research to date has focused on contexts rather than actual practices and within individual traditions For the first time in one volume the meditative practices of the three traditions of Judaism Christianity and Islam are examined They are viewed in a global perspective considering both generic and historical connections to practices in other traditions particularly in India and East Asia Their cultural and historical peculiarities are examined comparing them both to each other and to Asian forms of meditation The book builds on a notion of meditation as self-administered techniques for inner transformation a definition which focuses on transformative practice rather than notions of meditative states and mystical experiences It proposes ways of studying meditative practice historically and concludes with an essay on the modern scientific interest in meditation **From the Well to the Sea** Hideo Hatakeda, 2010-08 From the Well to the Sea is the true

**Life in Golden Age Spain** Patrick J. O'Banion, 2015-06-13 The Sacrament of Penance and Religious Life in Golden Age Spain explores the practice of sacramental confession in Spain between roughly 1500 and 1700 One of the most significant points of contact between the laity and ecclesiastical hierarchy confession lay at the heart of attempts to bring religious reformation to bear upon the lives of early modern Spaniards Rigid episcopal legislation royal decrees and a barrage of prescriptive literature lead many scholars to construct the sacrament fundamentally as an instrument of social control foisted upon powerless laypeople Drawing upon a wide range of early printed and archival materials this book considers confession as both a top down and a bottom up phenomenon Rather than relying solely upon prescriptive and didactic literature it considers evidence that describes how the people of early modern Spain experienced confession offering a rich portrayal of a critical and remarkably popular component of early modern religiosity *The Union of Christian Forces in America* Robert Archibald Ashworth, 1915 **The Universal Cyclopaedia**, 1900 *The Mystic Rose* F. L. Kenzel, 1905 **The Christian Observer**, 1821 *The Living Church*, 1913 **Contextualizing the Faith** A. Scott Moreau, 2018-11-06 This major statement by a leading missiologist represents a lifetime of wrestling with a topic every cross cultural leader must address how to adapt the universal gospel to particular settings This comprehensive yet accessible textbook organizes contextualization which includes everything the church is and does into seven dimensions Filled with examples case studies and diagrams and conversant with contemporary arguments and debates it offers the author's unique take on the challenge of adapting the faith in local cultures *Psychology, Religion, and Spirituality* James M. Nelson, 2009-02-17 Over a century ago psychologists who were fascinated with religion began to study and write about it Theologians and religious practitioners have responded to this literature producing a fascinating dialogue that deals with our fundamental understandings about the human person and our place in the world This book provides an introduction to the important conversations that have developed out of these interchanges The dialogue between psychology and religion is difficult to study for a number of reasons First it requires knowledge of both psychology and religion People with a background in psychology often lack a solid understanding of the religious traditions they wish to study and theologians may not be up to date on the latest developments in psychology Second it requires conceptual tools to organize the material and understand the basic problems involved in any attempt to connect the science of psychology with religion These concepts can be found in many places for instance in the writings of philosophers of science but they are complex and often hard to follow for those without a proper theological and philosophical background Finally authors who write on the topic come to the study of psychology and religion from a variety of academic and personal backgrounds This makes for wonderful diversity in conversations but it makes understanding and mastery of the material quite difficult
