The Military History of the Russian Empire from Peter the Great until Nicholas II John W. Steinberg, 2024-01-11 This book examines the rise and the fall of the Russian Empire through the lens of its military history While much of the literature on this history tends to focus on epochs The Russian Military and the Creation of Empire uses a variety of archival sources to capture this aspect of modern Russia from Peter the Great right up to the present day John W Steinberg analyzes the social dynamic between Russian society and its military over time Through a focus on civil military relations he demonstrates that both the Tsarist and Soviet regimes were built on and ultimately dependent upon the support of the military Case studies of significant battles are also used throughout the volume to reveal insights into the roles missions and capabilities of the Russian military since 1689 The Russian Military and the Creation of Empire is a vital study for all students of modern Russia and the history of modern warfare

Human Nature and the Causes of War John David Orme, 2018-04-07 What are the causes of war Wars are generally begun by a revisionist state seeking to take territory The psychological root of revisionism is the yearning for glory honor and power Human nature is the primary cause of war but political regimes can temper or intensify these passions This book examines the effects of six types of regime on foreign policy monarchy republic and sultanistic charismatic and military and totalitarian dictatorship Dictatorships encourage and unleash human ambition and are thus the governments most likely to begin ill considered wars Classical realism modified to incorporate the impact of regimes and beliefs provides a more convincing explanation of war than neo realism

The Birth of a Great Power System, 1740-1815 Hamish Scott, 2014-07-22 The Birth of a Great Power System 1740 1815 examines a key development in modern European history the origins and emergence of a competitive state system H M Scott demonstrates how the well known and dramatic events of these decades the emergence of Russia and Prussia the three partitions of Poland the continuing retreat of the Ottoman Empire the unprecedented territorial expansion of Revolutionary and Napoleonic France halted by the final defeat of

Napoleon were part of a wider process that created the modern great power system dominated by Europe's five leading states. Enhanced by maps and a chronology of principal events, this comprehensive and accessible textbook is fully up to date in its coverage of recent scholarship. Unlike many other treatments of this period, Scott extends his beyond the French Revolution of 1789 in order to demonstrate how events both before and after this great upheaval merged to produce the central political development in modern European history. This book addresses the crucial phase in the emergence of the modern international system which, with the subsequent addition of the USA, Japan and Russia, has prevailed until the present day.

Longman Companion to Imperial Russia, 1689-1917 David Longley, 2014-07-30. This is the first book of its kind to draw together information on the major events in Russian history from 1695 to 1917, covering the eventful period from the accession of Peter the Great to the fall of Nicholas II. Russian Overseas Commerce with Great Britain During the Reign of Catherine II Herbert H. Kaplan, 1995. Finally, Kaplan persuasively argues that Britain's military supremacy crucially depended on its receiving an uninterrupted supply of Russian manufactured and natural resources.

The Making of Russian Absolutism 1613-1801 Paul Dukes, 2014-01-14. Revised and expanded, the second edition of this fascinating study surveys the first two centuries of Romanov rule from the foundation of the dynasty by Michael Romanov in 1613 to the accession of Alexander I in 1801. The central theme of the book is the growth of absolutism in Russia throughout these years, and it traces in detail how the Russian variety of what was a contemporary European phenomenon came fully into being.

Russia in the Age of the Enlightenment Roger Bartlett, Janet M. Hartley, 1990-08-01.

The Military and Society in Russia, 1450-1917 Eric Lohr, Marshall Poe, 2002-11-01. This book explores the interaction of the Russian military and society in the early modern and modern period. In contrast to straightforward military histories, the volume is concerned with the myriad political, economic and cultural currents that shaped the Russian armed forces from their beginnings in Muscovite times to the end of World War I. The book begins with an attempt by the editors to provide a large frame in which to place the various contributions. What follows are three topical sections, including 22 detailed, often archival-based, monographic articles. The first section concerns The Military and Society in Muscovy; the second section focuses on The Military and Society in Imperial Russia; the third part analyzes Patriotism, Nationality, Religion and the Military.

The Dutch East India Company's Tea Trade with China, 1757-1781 Yong LIU, 2006-12-01. This case study of the tea trade of the Dutch East India Company with China deals with the most profitable phase of the Dutch Company's China trade, focusing on the question why and how the tea trade was taken out of the hands of the High Government in Batavia and put under the supervision of the newly established China Committee in 1757. Various factors which contributed to the phenomenal rise of this trade and its sudden decline are dealt with in detail, filling in lacunae left open by previous research, and this monograph contributes to a more comprehensive understanding of the VOC.
