Russian Romantic Criticism An Anthology Contributions To The Study Of World Literature:

Russian Romantic Criticism Lauren G. Leighton, 1987 This scholarly work contains the best and most representative critical essays by leading Russian Romantic writers from the period 1815 to 1835 with the information needed to make them meaningful The editor has provided names dates events literary and critical subjects and heretofore unknown facts about the Romantic movement in Russia and the influence of European thought on the development of Russian culture **Writing at**

Russia's Border Katya Hokanson, 2008-01-01 It is often assumed that cultural identity is determined in a country's metropolitan centres Given Russia's long tenure as a geographically and socially diverse empire however there is a certain distillation of peripheral experiences and ideas that contributes just as much to theories of national culture as do urban centred perspectives Writing at Russia's Border argues that Russian literature needs to be reexamined in light of the fact that many of its most important nineteenth century texts are peripheral not in significance but in provenance Katya Hokanson makes the case that the fluid and ever changing cultural and linguistic boundaries of Russia's border regions profoundly influenced the nation's literature posing challenges to stereotypical or territorially based conceptions of Russia's imperial military and cultural identity A highly canonical text such as Pushkin's Eugene Onegin 1831 which is set in European Russia is no less dependent on the perspectives of those living at the edges of the Russian Empire than is Tolstoy's The Cossacks 1863 which is explicitly set on Russia's border and has become central to the Russian canon Hokanson cites the influence of these and other peripheral texts as proof that Russia's national identity was dependent upon the experiences of people living in the border areas of an expanding empire Produced at a cultural moment of contrast and exchange the literature of the periphery represented a negotiation of different views of Russian identity an ingredient that was ultimately essential even to literature produced in the major cities Writing at Russia's Border upends popular ideas of national cultural production and is a fascinating study of the social implications of nineteenth century Russian literature **The Cumulative**

Book Index, 1988 A world list of books in the English language *The Voice of the Narrator in Children's Literature* Charlott Otten, Gary D. Schmidt, 1989-06-26 As Otten and Schmidt note in their preface voice is a broad metaphor Thus the 41 essays in this collection provide varied approaches examining point of view focus selection of details tone and even illustrations as part of the narrative identity Eight genres including picture books fantasy realism and biography receive separate study in generally brief articles by writers and more substantial analyses by critics In her contribution Jill Paton Walsh describes contemporary criticism as an impenetrable thicket of technical terms In most cases the critics here avoid jargon They speak clearly offering practical criticism accessible to anyone seriously concerned about narrative technique in children's literature Choice Although children's literature is now a recognized branch of English and American literature much of the criticism of it has focused on teaching methodology history and basic exposition Since children's books are no less a part of the literary tradition than adult books there is room for new approaches to children's literature While the

importance of the voice of the narrator is emerging in criticism of adult fiction poetry and nonfiction little has been written about this subject in children s literature Examining the voice of the narrator can identify hitherto unexplored and unrecognized aspects of children s literature The essays in this collection were contributed by noted authors and critics Their inquiry is divided into eight genres the illustrated book folk literature and myth fantasy realism poetry historical fiction biography and informational books and each genre is discussed in terms of the authorial voice and the critical voice Each of the essays works toward an understanding of how the voice of the narrator functions in a given work or in the larger corpus of an author s work The result is not only a greater understanding of how specific authors shape their material and how authors use voice for particular effects but also how the narrator differs functionally from one genre to the next This unique essay collection is particularly suited for use in children s literature courses Because the contributors are some of the most significant authors and critics in children s literature in English it should also be part of any academic library s holdings in the criticism of children s literature in particular and literary criticism in general

Friedrich Von Schiller and the Drama of Human Existence
Alexej Ugrinsky, Hofstra University, 1988-06-24 This volume demonstrates that many scholars and stage directors firmly believe Schiller is very much a writer for the twentieth century The essays provide a scholarly perspective on Schiller s relevance as a role model for twentieth century writers and offer in depth discussions of his idealism his political views and his neoclassicism against the backdrop of the unbalanced and politically turbulent epoch in which he lived Specific works are

examined in light of their particular focus and relevance in drama and history Part II offers new insights into Schiller's aesthetics his lyrical subjectivity his significance for German authors and his relation to such German thinkers as Kant Jung and Schlegel

The Writer Written Jean-Pierre Durix, 1987-09-09 Few people are so widely read within Commonwealth literature or are so knowledgeable about so many different cultures as Jean Pierre Durix The first part of the book deals with general theoretical themes e.g. the writer as teacher while the second contains studies of single novels by such writers as Patrick White C.K. Stead and Salman Rushdie here Durix is at his best Choice Exploring the relationship between the writer and his craft between the artist and society between the creator and his conception of creation this fascinating study takes up various key positions represented by major writers from Africa Australia Canada the Caribbean India New Zealand and the South Pacific and examines the practice of literature which is frequently concerned with a search for problematic roots and authenticity in its relation with didacticism social concern language and myth The distinctively comparative approach brings together a series of close textual studies and examines four examples of metafiction from which emerge a number of

specific features characteristic of literatures born out of Colonialism and its aftermath Seen in this perspective literary scholarship provides an irreplaceable point of view from which to assess the role of the imagination in multi cultural societies

The Stendhal Bicentennial Papers Hofstra University, 1987-09-09 This valuable compilation of articles offers original historical biographical and literary perspectives on the works of Stendhal Eleven essays plunge the reader into Stendhal's mythological universe providing new insights into the network of symbols images and obsessional themes that run through his works This multi faceted collection examines Stendhal as the problematic subject for a biography as autobiographer in his own right as journalist novelist and innovator in the realm of fictional devices and as the great representative of that literature of ideas first acclaimed by Balzac Topics addressed include the writer's own enigmatic persona his autobiographical writings his encounter with George Sand and his journalistic career in Italy as well as the structure imposed on his novels by an Oedipal conflict he himself perceives in pre Freudian terms his experiments with multiple narrative point of view and a feminist perspective on his use of the epistolary form as a device to enhance the plot

The Cast of Consciousness Beverly Taylor, Robert A. Bain, 1987-12-04 The contributors to this volume represent acknowledged experts in the field as well as a number of promising young scholars They provide a thorough examination of how Romantic authors grappled with the problem of describing the connections between consciousness unconsciousness and language in their endeavor to capture this interplay in their art As this collection bears witness the Romantics sought to discard old ideas about language and literature and to mold new forms in their search to recover in both literature and life the sense of human possibility The essays while strikingly diverse in topic and approach explore this broad issue and come to a surprisingly similar conclusion for Romantic writers genuine consciousness whatever it might imply about self awareness not only made it possible for an individual to affiliate with something outside himself but even made such bonding necessary

Child of the Earth Frode Hermundsgard, 1989-05-15 Hermundsgard's knowledge of Vesaas is undeniable and he has read widely carefully and thoughtfully in other sources for this book He provides a working definition of primitivism not just a literary style but a philosophy of life explains how this is expressed in Vesaas's writing and demonstrates how the primitivism of Vesaas fits into the context of Scandinavian primitivism in general He succeeds in presenting this complex thesis in a clear style that encourages the reader to turn to Vesaas's own works not only to verify that thesis but for personal enrichment Extensive bibliographic notes plus a good primary and secondary bibliography of sources in Norwegian Swedish Danish German and English Choice A distinguished modern Norwegian novelist dramatist short story writer and poet Tarjei Vesaas occupies a unique position in Norwegian and Scandinavian letters Considered highly individual in his use of lyrical and symbolic language Vesaas was profoundly concerned with spiritual themes and the interplay of the great forces of the nature This study examines Vesaas development as a writer with an eye to his role in the evolution of modernist primitivism in Scandinavian modernist literature Hermundsgard begins with a discussion of primitivism and the ways in which primitivist

literary philosophical and artistic trends from the United States England and Europe have influenced Scandinavian writers Focusing his attention primarily on four of Vesaas best known novels Hermundsgard offers a sensitive analysis of the work and assesses the writer s contribution to the primitivist tradition The discussion deals with Vesaas literary legacy in the broader context of Scandinavian primitivist literature Besides providing new perspectives on a writer who merits a wider English language audience *Child of the Earth* advances some speculations on the emergence of primitivist movements throughout the world Relevant for classes or studies in twentieth century Scandinavian and Norwegian literature the modern novel and world literature

George Orwell Courtney T. Wemyss,Alexej Ugrinsky,1987-12-04 This collection of essays addresses a number of facets of George Orwell examining both Orwell the man of letters and Orwell the political man In his preface Courtney Wemyss asserts that Orwell may not receive the recognition he is due because at present he is appreciated for the wrong reasons The author of other fine novels such as *Burmese Days* and *Coming up for Air* Orwell should also be recognized for his literary criticism book reviews and documentaries which depict the England of his times in the manner of Samuel Pepys The Less recognized and equally important facets of George Orwell s works and impact on English culture presented in this collection will prove informative to Orwell specialists and to scholars of twentieth century English literature and politics
