Russian Foreign Policy Since 1990:

Russian Foreign Policy Since 1990 Peter Shearman, 2018-02-12 A book which brings together leading experts on Russia's foreign relations providing the most comprehensive coverage of contemporary Russian foreign policy currently available in a single volume Detailed case studies of relations with specific countries and regions are complemented by chapters that examine the process of decision making conflict between domestic institutional actors the role of groups such as the military and Russia's search for a new identity

Russian Foreign Policy in the 21st Century R. Kanet, 2010-10-29 After the collapse of the Soviet Union expectations were high that a new world order was emerging in which Russia and the other former Soviet republics would join the Western community of nations That has not occurred This volume explains the reasons for this failure and assesses likely future developments in that relationship

Russian Foreign Policy in the Post-Soviet Era B. Lo, 2002-08-12 In the first comprehensive treatment of its kind Bobo Lo examines the course of Russian foreign policy in the decade following the Soviet collapse Adopting a conceptual approach he identifies the principal ideological and institutional factors that have influenced the thinking of decisionmaking behind the policies Bobo Lo challenges many of the conventional assumptions that have dominated much of the preceding literature on Russian foreign policy

Russian Foreign Policy and International Relations Theory Christer Pursiainen, 2017-07-05 An original and challenging examination of how to transform post Sovietological study of Soviet and Russian foreign policy into a more integrated part of the Social Sciences and International Relations Theory This book represents the first detailed and sustained synthesis international relations theory and Soviet Russian foreign and security policy in academic literature

The Sources of Russian Foreign Policy Assertiveness Angela Borozna, 2022-01-31 This book explores the sources of Russia's foreign policy conduct since the end of the Cold War It is aimed at those interested in Russian foreign policy international security and diplomacy The book embraces an eclectic approach by applying insights from several strands of IR theory exploring both international and domestic sources The author argues that Russian foreign policy is influenced by the country's strategic culture which exhibits some persistent elements inherited from Russia's imperial past and from Soviet times The challenges to Russia's security interests from Western policies led to an increase in Russian foreign policy assertiveness As a result Russia is becoming more committed to Eurasian integration and nurturing relations with China This book further argues that Russia's relations with the post Soviet states have been and will remain a priority of its foreign relations and therefore Russia is likely to continue challenging any Western interference in these states The author maintains that geoeconomics and the protection of overseas economic interests are becoming more prominent in Russia's foreign policy calculus The role of domestic factors in the country's foreign policy such as authoritarianism regime vulnerability and the role of political factions is also examined

Russian Foreign Policy in the Twenty-First Century and the Shadow of the Past Robert Legvold, 2007-03-27 Because the turbulent trajectory of Russia's foreign policy since the collapse of the

Soviet Union echoes previous moments of social and political transformation history offers a special vantage point from which to judge the current course of events In this book a mix of leading historians and political scientists examines the foreign policy of contemporary Russia over four centuries of history The authors explain the impact of empire and its loss the interweaving of domestic and foreign impulses long standing approaches to national security and the effect of globalization over time Contributors focus on the underlying patterns that have marked Russian foreign policy and that persist today These patterns are driven by the country's political makeup geographical circumstances economic strivings unsettled position in the larger international setting and above all its tortured effort to resolve issues of national identity The argument here is not that the Russia of Putin and his successors must remain trapped by these historical patterns but that history allows for an assessment of how much or how little has changed in Russia's approach to the outside world and creates a foundation for identifying what must change if Russia is to evolve A truly unique collection this volume utilizes history to shed crucial light on Russia's complex occasionally inscrutable relationship with the world In so doing it raises the broader issue of the relationship of history to the study of contemporary foreign policy and how these two enterprises might be better joined

The Foreign Policy of the Russian Federation Alexander V. Kozhemiakin, Roger E. Kanet, 2016-07-27 Providing a current assessment of the major developments in Russian foreign policy since the collapse of the Soviet Union at the end of 1991 the book begins with an examination of the emerging trends in Russian policy and the impact of domestic political and economic factors on Russian policy Succeeding chapters outline the development of Russian policy in the major geographic regions of the world the new states of the near abroad Central Europe and the Balkans the West Asia the Middle East and the developing countries

History of International Relations and Russian Foreign Policy in the 20th Century (Volume II) Boris F. Martyn, Anatoly V. Torkunov, William C. Wohlforth, 2020-01-08 This second volume focusing on 1945-1991 unpacks the reasons for the Cold War and takes the reader through its ebbs flows and unexpected end How did the allies of World War II become enemies The authors argue that the Cold War controversy could have been avoided or at least mitigated had the sides been guided by healthy pragmatism instead of ideology and megalomania Contradictory relations between the superpowers regional wars and conflicts and the scramble to escape a nuclear Holocaust all of this reads sometimes as a good detective story Perestroika and Glasnost useful as they might be came too late to radically improve the poisonous atmosphere of enmity in East West relations The end of the Cold War did not mean the end of rivalry Good will in this case did not guarantee good outcomes As civilizational cultural personal and religious contradictions begin to replace economic and social divides we need to be fully aware of our past if we are to do our best to resolve these issues

Explaining Change in Russian Foreign Policy C. Thorun, 2008-11-27 An assessment of the explanatory utility of different approaches to account for post Soviet Russia's foreign policy towards the West arguing that only by focusing both on external constraints and changes in the Russian leadership's foreign policy thinking can we explain major facets of Russia's conduct from 1992-2007

Power, Energy, and the New Russian Imperialism Anita Orban, 2008-09-30 Russia is the world's foremost energy superpower rivaling Saudi Arabia as the world's largest oil producer and accounting for a quarter of the world's exports of natural gas Russia's energy reserves account for half of the world's probable oil reserves and a third of the world's proven natural gas reserves Whereas military might and nuclear weapons formed the core of Soviet cold war power since 1991 the Russian state has viewed its monopolistic control of Russia's energy resources as the core of its power now and for the future Since 2005 the international news has been filled with Russia's repeated demonstrations of its readiness to use price transit fees and supply of gas and oil exports as punitive policy instruments against recalcitrant states that were formerly part of the Soviet Union striking in turn the Ukraine Georgia Azerbaijan Armenia Belarus and Lithuania Orban reveals for the first time in *Power Energy and the New Russian Imperialism* Russia's readiness to wield the same energy weapon against her neighbors on the west all of them former Soviet satellite states but now EU and NATO member nations the three Baltic nations and the five East European nations of Poland Slovakia Hungary the Czech Republic and Slovenia Orban shows how the Kremlin since 1991 has systematically used Russian energy companies as players in a concerted neo mercantilist energy based foreign policy designed to further Russia's neo imperial ambitions among America's key allies in Central East Europe Her unprecedented analysis is key to predicting Russia's strategic response to American negotiations with Poland and the Czech Republic to host the US missile shield She also reveals the economic and diplomatic modus operandi by which Russia will increasingly apply its energy clout to shape and coerce the foreign policies of the West European members of the EU as Russia's contribution to EU gas consumption increases from a quarter today to three quarters by 2020 Orban proves that Russia's neo mercantilist energy strategy in East Europe is not at all dependent on the person of Putin but began under Yeltsin and continues under Medvedev the former chairman of Gazprom

Russian Policy Towards China and Japan Natasha Kuhrt, 2007-12-24 Drawing on the most up to date sources this book provides an in depth examination of Russia's relations with China and Japan the two Asia Pacific superpowers in waiting For Russia there has always been more than one Asia after the collapse of the Soviet Union there were those in the Russian elite who saw Asia as implying the economic dynamism of the Asia Pacific with Japan as the main player However there were others who saw the chance for Russia to reassert its claim to be a great power based on Russia's geopolitical and geoeconomic position as a Eurasian power For these China was the power to engage with together China and Russia could control both Heartland and Rim both Eurasia and Asia Pacific whereas accepting Japan's conception of Asia implied regional fragmentation and shared sovereignty This book argues that this strand of thinking mainly confined to nationalists in the El tsin years has now under Putin become the dominant discourse among Russian policymakers Despite opportunities for convergence presented by energy resources even for trilateral cooperation traditional anxiety regarding loss of control over key resource areas in the Russian Far East is now used to inform regional policy leading to a new resource nationalism In light of Russia's new assertiveness in global affairs and its increasing use of the so called energy weapon in foreign policy this book will appeal not only to specialists on Russian politics and foreign policy but also to international relations scholars
