The Russian Version of the Second World War Graham Lyons, 1976 **The Soviet Partisan Movement, 1941-1944** Leonid D. Grenkevich, 2013-01-11 Partisans and terrorists have dominated military history during the second half of the 20th century Leonid Grenkevich offers an account of the shadowy partisan struggle that accompanied the Soviet Union's Great Patriotic War 1941-1945 **Russia's War** Richard Overy, 1998-08-01 A penetrating and compassionate book on the most gigantic military struggle in world history The New York Times Book Review An extraordinary tale Overy's engrossing book provides extensive details of the slaughter brutality bitterness and destruction on the massive front from the White Sea to the flank of Asia Chicago Tribune The Russian war effort to defeat invading Axis powers an effort that assembled the largest military force in recorded history and that cost the lives of more than 25 million Soviet soldiers and civilians was the decisive factor for securing an Allied victory Now with access to the wealth of film archives and interview material from Russia used to produce the ten hour television documentary Russia's War Richard Overy tackles the many persuasive questions surrounding this conflict Was Stalin a military genius Was the defense of Mother Russia a product of something greater than numbers of tanks and planes of something deep within the Russian soul **Russian and Soviet Education 1731-1989** John T. Zepper, William W. Brickman, 2014-02-04 Volume 9 in the series of Reference Books in International Education This bibliography is intended to provide a reference aid to mature Russian Soviet scholars to those beginning a life long study of this field and to students in Russian Soviet Studies and allied fields This title provides a resource to scholars students and professionals seeking to understand the role played by education in various societies or regions of the world *Russia* Edward Acton, 2014-09-19 This text has established itself as the best general introduction to Russian history providing a forceful and highly readable survey from earliest times to the post Soviet State At the heart of the book is the changing relationship between the State and Russian society at large The second edition has been substantially rewritten and updated and new material and fresh insights from recently accessible research have been incorporated into every chapter **Russia Under Putin** Andrew Natsios, 2025-07-08 This book fills a gap in the public's understanding of Putin's Russia by answering the question Is Russia under Putin a revisionist power that seeks to undermine or destroy the existing international order or is it a fragile state with profound dysfunctions The essays in this book argue that Russia is both These essays took a more ominous view of Russia under Putin's leadership at the time they were published a position criticized by some scholars and analysts who saw Putin as a pragmatist *Teaching Students About War* James Powles, 2021-05-30 The Soviet regime instituted a system of primary and secondary schooling and operated virtually all the schools in Russia The author has taken the two main textbooks used in the senior forms of Russian secondary schools and here presents in direct translation the story of the War as seen through Russian eyes Anyone remotely familiar with history as taught on the western side of the Iron Curtain will read with bemused fascination of the real origins of the Second World War of the true meaning of

the Russo German Non Aggression Pact of why the Russians stopped before Warsaw and so on and so on But why indeed should one version be any more true than the other This fascinating book not only presents the other side of the coin but poses the much deeper question of the true meaning of the evidently much abused word history **A History Of Russia Volume 2** Walter G. Moss,2004-10-01 Moss has significantly revised his text and bibliography in this second edition to reflect new research findings and controversies on numerous subjects He has also brought the history up to date by revising the post Soviet material which now covers events from the end of 1991 up to the present day This new edition retains the features of the successful first edition that have made it a popular choice in universities and colleges throughout the US Canada and around the world The Politics of War Commemoration in the UK and Russia Nataliya Danilova,2016-01-13 This book analyses contemporary war commemoration in Britain and Russia Focusing on the political aspects of remembrance it explores the instrumentalisation of memory for managing civil military relations and garnering public support for conflicts It explains the nexus between remembrance militarisation and nationalism in modern societies **The Dictators: Hitler's Germany, Stalin's Russia** Richard Overy,2006-01-17 A book of great importance it surpasses all others in breadth and depth Commentary If the past century will be remembered for its tragic pairing of civilized achievement and organized destruction at the heart of darkness may be found Hitler Stalin and the systems of domination they forged Their lethal regimes murdered millions and fought a massive deadly war Yet their dictatorships took shape within formal constitutional structures and drew the support of the German and Russian people In the first major historical work to analyze the two dictatorships together in depth Richard Overy gives us an absorbing study of Hitler and Stalin ranging from their private and public selves their ascents to power and consolidation of absolute rule to their waging of massive war and creation of far flung empires of camps and prisons The Nazi extermination camps and the vast Soviet Gulag represent the two dictatorships in their most inhuman form Overy shows us the human and historical roots of these evils *The Politics of Becoming European* Maria Mälksoo,2009-10-26 This book examines the relations between security identity and collective memory focusing on the dynamics of identity formation among the elites of Estonia Latvia Lithuania and Poland in relation to security and foreign policy in the post Cold War era *Infantry* ,1981 **Kiev 1941** David Stahel,2011-11-03 In just four weeks in the summer of 1941 the German Wehrmacht wrought unprecedented destruction on four Soviet armies conquering central Ukraine and killing or capturing three quarters of a million men This was the Battle of Kiev one of the largest and most decisive battles of World War II and for Hitler and Stalin a battle of crucial importance In this book David Stahel charts the battle s dramatic course and aftermath uncovering the irreplaceable losses suffered by Germany s panzer groups despite their battlefield gains and the implications of these losses for the German war effort He illuminates the inner workings of the German army as well as the experiences of ordinary soldiers showing that with the Russian winter looming and Soviet resistance still unbroken victory came at huge cost and confirmed the turning point in Germany s war in the East Special
