the E34 range There were lesser known elements of the story too when BMW used the E34 range for some fascinating experiments with hybrid power systems a convertible and a dual fuel system [NSU Ro80 - The Complete Story](#) Martin Buckley,2023-02-14 Launched in 1967 the NSU Ro80 had modern aerodynamic styling a technologically advanced Wankel rotary engine and was voted Car of the Year in 1968 However after the initial positive reception the car developed a reputation for unreliability with problems arising as early as 15 000 miles and many vehicles required a rebuilt engine before 30 000 miles Despite the company resolving these reliability issues in both existing and new vehicles and offering a generous warranty the damage to the car s reputation was done The NSU Ro80 is the most celebrated motoring lost cause of the second half of the twentieth century outranking the likes of the Edsel and the DeLorean because unlike those statements of misplaced optimism and ego it was a good car Not just good the NSU Ro80 is one of the great saloons Launched in September 1967 the Ro80 was an all new four door five seater from a West German company that post war had never made anything other than economy runabouts motorcycles and mopeds That alone should have been enough of a risk but this was also the world s first purpose built Wankel engined family saloon This compact refined and elegantly simple power unit was the first really new concept in the realm of internal combustion engines to achieve mass production for ninety years A car like the Ro80 could only really have come from Germany where there was a passion for research and a pride in engineering not found elsewhere in Europe With front wheel drive superb power steering and four wheel disc brakes the car had top handling and driver appeal Quite simply it was a masterpiece considered by many to be the finest vehicle of its type in the world But with one fatal flaw its engine With over 300 archive photographs drawings and diagrams this book tells the story of the NSU [VC10: Icon of the Skies](#) Lance Cole,2017-03-30 An excellent account of the political battles and the commercial skulduggery and its outstanding service as a transport and tanker with the RAF Firetrench The VC10 was the nation s biggest jet airliner of its age and regarded as the world s best looking airliner It was safe fast and designed to take off from short runways in Africa and Asia at the request of its main operator BOAC the airline that would later go on to become today s British Airways The VC10 and the larger Super VC10 were beloved by pilots and passengers alike and became icons of the 1960s They were hugely popular all over the world Yet the VC10 was eclipsed by Boeing s 707 which sold by the hundreds despite the fact that the 707 was less capable and could not initially operate from the runways of the Commonwealth and old British Empire routes as the VC10 undoubtedly could This book blends the story of VC10 development with a well researched tale of corporate and political power play It asks just what lay behind the sales failure of the VC10 Politics played an important part of course as did BOACs tactics and a whodunnit cast of politico corporate events and machinations at the highest level of society during the dying days of Empire in 1960s Britain Key players in the story from Tony Benn to famous test pilot Brian Trubshaw Concorde are cited and quoted By exploring this historical period in depth and highlighting all the various impediments that stood in the way of success for the VC10 Lance Cole adds an important layer to our understanding
