The Death of Sacred Texts Kristina Myrvold, 2016-03-09 The Death of Sacred Texts draws attention to a much neglected topic in the study of sacred texts the religious and ritual attitudes towards texts which have become old and damaged and can no longer be used for reading practices or in religious worship This book approaches religious texts and scriptures by focusing on their physical properties and the dynamic interactions of devices and habits that lie beneath and within a given text In the last decades a growing body of research studies has directed attention to the multiple uses and ways people encounter written texts and how they make them alive even as social actors in different times and cultures Considering religious people seem to have all the motives for giving their sacred texts a respectful symbolic treatment scholars have paid surprisingly little attention to the ritual procedures of disposing and renovating old texts This book fills this gap providing empirical data and theoretical analyses of historical and contemporary religious attitudes towards and practices of text disposals within seven world religions Judaism Islam Christianity Hinduism Buddhism Jainism and Sikhism Exploring the cultural and historical variations of rituals for religious scriptures and texts such as burials cremations and immersion into rivers and the underlying beliefs within the religious traditions this book investigates how these religious practices and stances respond to modernization and globalization processes when new technologies have made it possible to mass produce and publish religious texts on the Internet

Reading Spiritualities Dawn Llewellyn, 2016-04-01 The phenomenon of sacred text has undergone radical deconstruction in recent times reflecting how religion has broken out of its traditional definitions and practices and how current literary theories have influenced texts inside the religious domain and beyond Reading Spiritualities presents both commentary and vivid examples of this evolution engaging with a variety of reading practices that work with traditional texts and those that extend the notion of text itself The contributors draw on a range of textual sites such as an interview Caribbean literature drama and jazz women s writings emerging church blogs Neopagan websites the reading practices of Buddhist nuns empirical studies on the reading experiences of Gujarati Christian and post Christian women Chicana short stories the mosque cinema modern art and literature These examples open up understandings of where and how sacred texts are emerging and being reassessed within contemporary religious and spiritual contexts and make room for readings where the spiritual resides not only in the textual but in other unexpected places Reading Spiritualities includes contributions from Graham Holderness Ursula King Michael N Jagessar David Jasper Anthony G Reddie Mich le

The Word Among Us Terry L. Burden, 2022-07-19 The Word Among Us Theologies of the Hebrew Bible Old Testament is a topical approach to the study of the Judeo Christian Bible Each topic is a survey of the many theological themes we encounter in the Biblical narrative such as the theology of Biblical History Torah Moses Election Covenant Land Kingship Prophecy and many more Special topics include The Theology of the Fall of Israel Theology of Messianic Expectations and The Theology of Israel Of particular interest is The Theology of Story which introduces the story oriented literary discipline At the center of Biblical theology is the tragic fall of the Northern Kingdom of Israel in 722 B C E and the Southern Kingdom of Judah in 586 B C E From these periods many of the theological motifs such as covenant law and prophecy arise to address and to explain these tragedies in Israelite history The primary purpose of the present study is a better understanding of the theological function of these motifs or themes A theological function is the power of a Biblical narrative to constitute and to restore the Israelite people who were struggling to survive the late period of Biblical history A special feature of my study are the several promptings from Biblical topics of the many discussions that relate to the New Testament and Christian teachings My approach to the study of the Hebrew Bible Old Testament is unique among other introductions to the Hebrew Bible This book therefore is very important to both the Jewish and the Christian reader

Bees, Wasps, and Weasels Blaženka Scheuer, 2023-07-25 In this book Blaženka Scheuer explores the zoomorphic

content of Zibburta bee wasp and Karku ta weasel demeaning names given by R Na man of b Meg 14b to Deborah and Huldah two distinguished prophets of the Hebrew Bible Looking closely at relevant texts she explores ancient beliefs about bees wasps and weasels recounting a variety of key literary and visual motifs that highlight the different attributes of these animals Scheuer demonstrates the multiple ways in which zoomorphic images were used as interpretative keys both in the formation of Deborah and Huldah stories in the Hebrew Bible and in their subsequent versions In a constant process of interaction with their cultural contexts such zoomorphism represents an attempt to define the rabbinic beliefs about the role of women in Jewish tradition but also about the nature of God Scheuer argues that the symbolic association of bees and weasels with asexual conception and birth also made the zoomorphic slurs about Deborah and Huldah effective as an argument against the doctrine of virgin birth in early Christianity Emphasizing the foundational process of constant negotiation of traditions and textual interpretations Scheuer exposes the culturally rich and religiously competitive world in which the biblical texts were transmitted

Japanese Mythology Jun'ichi Isomae, Mukund Subramanian, 2016-04-08 Before the westernisation of Japan mythological events were treated as national history Two key documents have contributed to this history both written over 1300 years ago Kojiki the Tale of Old Age and Nihonshoki the Chronicle of Japanese History Both the Imperial Court and the general public searched for the origin of their identity in these documents which took on the central and sacred role of scripture Through the act of commentary and interpretation the sacred books connected interpreters to their historical origins authenticating where they came from the emergence of the Japanese archipelago and the uniqueness of the Japanese people Japanese Mythology explores the nation's attraction to this act of historical grounding and the varying identities that emerged during different historical periods The study reveals that rather than having any clear and unified substance Japanese mythology has always been the result of a nostalgic desire to retrieve historical origins
