Lewis,Olav Hammer,2010-11-19 There has been a significant but little noticed aspect of the interface between science and religion namely the widespread tendency of religions to appeal to science in support of their truth claims Though the appeal to science is most evident in more recent religions like Christian Science and Scientology no major faith tradition is exempt from this pattern Members of almost every religion desire to see their truths supported by the authority of science especially in the midst of the present historical period when all of the comforting old certainties seem problematic and threatened The present collection examines this pattern in a wide variety of different religions and spiritual movements and demonstrates the many different ways in which religions appeal to the authority of science The result is a wide ranging and uniquely compelling study of how religions adapt their message to one of the major challenges presented by the contemporary world **Introducing Religion** Robert S. the idea that a transcendent order numinous and mysterious supranatural and elusive divine and wholly other gives meaning and purpose to life The construction of rites and rituals enables humans to conceive and apprehend this transcendent order to symbolize it and interact with it to postulate its truths in the face of contradicting realities and to repair them when they have been breached or diminished This Handbook provides a compendium of the information essential for constructing a comprehensive and integrated account of ritual and worship in the ancient world Its focus on ritual and worship from the perspective of biblical studies as opposed to religious studies highlights that the world of ritual and worship was a topic of central concern for the people of the Ancient Near East including the world of the Bible Given the scarcity of the material in the Bible itself the authors in this collection use materials from the ancient Near East to provide a larger context for the practices of the biblical world giving due attention to historical anthropological and social scientific methods that inform the context of biblical worship The specifics of ritual and worship life the sacred spaces times and actors in worship are examined in detail with essays covering both the divine and human aspects of the sacred dimension The Oxford Handbook of Ritual and Worship in the Hebrew Bible considers several underlying concepts of ritual practice and closes with a theological outlook on worship and ritual from a variety of perspectives demonstrating a fruitful exchange between biblical studies ritual theory and social science research

Jewish Worship in Philo of Alexandria Jutta Leonhardt, Jutta Leonhardt-Balzer, 2001 As a knowledgeable contemporary of the later Second Temple Philo of Alexandria's approach to worship and his view of the essence of Jewish worship are of particular interest to the study of that period Jutta Leonhardt discusses his views on the Jewish festivals especially the Sabbath on prayer psalms hymns praise and thanksgiving and on Temple offerings sacrifices and purification rites These aspects are presented with their parallels in Jewish and pagan traditions and in Greek and Hellenistic philosophy Jewish worship in Philo has never been studied as a coherent whole before Only individual aspects of worship such as prayer of petition or thanksgiving or Philo has been used in studies on Second Temple Judaism as a quarry for general examples of acts of worship Philo accepted and participated in Jewish worship and even knew about details of various Jewish traditions of his time His writings however do not refer to them directly and cannot easily be used to reconstruct Jewish rituals of his time His main aim is to discuss the rites as collected in the Mosaic Torah since these are binding for all Jews These laws are frequently presented using the terminology of pagan cults and interpreted with recourse to Greek philosophy In this philosophical description of actual rites there are parallels to Plato's references to religion in the ideal state in the *Nomoi* Philo presents Judaism as the ultimate Hellenistic cult which combines the various aspects of the different pagan cults in a sublime and perfect form to represent mankind and the universe in the worship of the one God who created the world
