The entrance is framed by a heavy lintel and pilasters. The lighting is dramatic, with strong shadows and highlights that emphasize the texture and depth of the stone carvings.

Leonard J. Swidler, Paul Mojzes, 2000 Religion is the most fundamental comprehensive of all human activities it tries to make sense out of not simply one or another aspect of human life but of all aspects of human experience At the core of every civilization lies its religion which both reflects and shapes it Thus if we wish to understand human life in general and our specific culture and history we need to understand religion What is religion Religion is an explanation of the ultimate meaning of life and how to live accordingly based on a notion of the Transcendent Normally it contains the four C s Creed Code Cult Community structure CREED refers To The cognitive aspect of a religion it is everything that goes into the explanation of the ultimate meaning of life CODE OF BEHAVIOR or ethics includes all the rules and customs of action that somehow follow from one aspect or another of the Creed CULT means all the ritual activities that relate the follower to one aspect or another of the Transcendent either directly or indirectly prayer being an example of the former and certain formal behavior toward representatives of the Transcendent such as priests of the latter COMMUNITY STRUCTURE refers To The relationships among the followers this can vary widely from a very egalitarian relationship As among Quakers through a republican structure as Presbyterians have To a monarchical one As with some Hasidic Jews have with their Rebbe THE TRANSCENDENT As the roots of the word indicate means that which goes beyond the everyday The ordinary The surface experience of reality it can mean spirits gods a Personal God An Impersonal God Emptiness etc This volume looks at the ways we humans have developed to study religion However a new age in human consciousness is now dawning The Age of Global Dialogue a radically new consciousness which fundamentally shifts the ways we understand everything in life including religion This global dialogical way of understanding life does not lead to one global religion but it does lead toward a consciously acknowledged common set of ethical principles a Global Ethic The book looks at these two movements the Age of Global Dialogue and inchoative Global Ethic in order to help readers understand what is going on around them So they might make informed intelligent decisions about the meaning of life and how to live it Author note Leonard Swidler is Professor of Religion at Temple University Paul Mojzesis Academic Dean and Professor of Religious Studies at Rosemount College

Judaism Islam Buddhism Hinduism Taoism and Confucianism in one volume      The Pursuit of the Sacred John Chitakure,2016-03-03 Globalization has taken the world by storm and has facilitated the unprecedented migrations of the peoples of this world Whether we like it or not we will meet foreigners in our communities schools universities buses and other public places But when people migrate they take their religions with them If people of different religious traditions are to live side by side amicably interfaith dialogue becomes imperative But for people to be able to speak about their own religions with enlightenment and listen to other people s religious beliefs with respect they must have some basic knowledge of how faiths and believers operate because for some people religion is inseparably intertwined with their economics politics and everyday lives This book clearly and concisely introduces religious studies to the reader It makes a strong case for the quest and study of world religions and explores the challenges controversies and methodological issues in the study of religions It also explores other pertinent religious issues such as beliefs rituals myths sacredness morality the problem of evil and interreligious dialogue Although written from a classroom perspective this book can be useful to any reader who would like to acquire knowledge of religious issues      **Speaking of Religion . . .** Roy Hammerling,2022-03-21 Of late speaking about religion has become a problem Whether we are in our homes at worship on the street in college classrooms or anywhere that conversations happen speaking about religion often can turn into a heated exchange As our political and religious divisions widen so does our inability to cross over to meet others halfway with compassionate conviction and civil dialogue Speaking of Religion not only offers ways in which we might open ourselves to hearing and caring about others but also seeks to help us understand our own convictions more fully Such dialogue is not often easy but it is essential if we ever hope to find our way into a future where fear hatred and cruelty can be set aside As Plato is reputed to have said We can easily forgive a child who is afraid of the dark The real tragedy of life is when adults are afraid of the light Speaking of Religion seeks to look for light in a world that all too readily gets lost in the night of religious ignorance      **In the Lógos of Love** James Heft,Una M. Cadegan,2016 This volume brings together scholars of theology history law and media studies of religion who explore the Catholic intellectual tradition from the perspectives of these disciplines Each essay explores both the promise of Catholic intellectual life and its contemporary predicaments      **Open** Brad R. *God and the Little Grey Cells* Dan W. Clanton, Jr., 2024-05-16 Dan W Clanton Jr examines the presence and use of religion and Bible in Agatha Christie's Hercule Poirot novels and stories and their later interpretations Clanton begins by situating Christie in her literary historical and religious contexts by discussing Golden Age crime fiction and Christianity in England in the late 19th early 20th centuries He then explores the ways in which Bible is used in Christie's Poirot novels as well as how Christie constructs a religious identity for her little Belgian sleuth Clanton concludes by asking how non majority religious cultures are treated in the Poirot canon including a heterodox Christian movement Spiritualism Judaism and Islam Throughout Clanton acknowledges that many people do not encounter Poirot in his original literary contexts That is far more people have been exposed to Poirot via mediated renderings and interpretations of the stories and novels in various other genres including radio films and TV As such the book engages the reception of the stories in these various genres since the process of adapting the original narrative plots involves at times meaningful changes Capitalizing on the immense and enduring popularity of Poirot across multiple genres and the absence of research on the role of religion and Bible in those stories this book is a necessary contribution to the field of Christie studies and will be welcomed by her fans as well as

scholars of religion popular culture literature and media      **The Sacred and the Cinema** Sheila J. Nayar, 2012-03-29 For more than half a century now scholars have debated over what comprises a genuinely religious film one that evinces an authentic manifestation of the sacred Often these scholars do so by pitting the successful films against those which propagate an inauthentic spiritual experience with the biblical spectacular serving as their most notorious candidate This book argues that what makes a filmic manifestation of the sacred true or authentic may say more about a spectator or critic's particular way of knowing as influenced by alphabetic literacy than it does about the aesthetic or philosophical and sometimes even faith based dimensions of the sacred onscreen Engaging with everything from Hollywood religious spectacles Hindu mythologicals and an international array of films revered for their transcendental style *The Sacred and the Cinema* unveils the epistemic pressures at the heart of engaging with the sacred onscreen The book also provides a valuable summation of the history of the sacred as a field of study particularly as that field intersects with film      Ways of Living Religion Christina M. Gschwandtner, 2024-03-14 This study provides a philosophical analysis of different types of religious experience focusing on the lived experience of religion
