The Precision Diamond Bridge Bidding System Ken Casey, 2019-06-19 The Precision Diamond system provides a solution to the flaws in the Standard American bidding convention SAYC There are 6 notable features of my bidding system The 1st feature is the ability of the responder to show his 5 card major suit immediately using the Casey Jacoby Transfer The 2nd feature is that Precision Diamond permits the opener to show his points within a 2p range from 16 21 points using the Casey Shift and the Strong 2 opening The 3rd feature is the ability of the overcaller to show his 4 card major suit immediately by assigning 1NT to show 4s The 4th feature of Precision Diamond is the ability of the Keycard Asker in a slam contract to ascertain whether the opener has the trump queen using the Casey RKC method The 5th feature is the ability of the opener to show keycards including the trump queen at the 4 level in the case of a minor suit slam attempt using Minorwood The 6th feature is the ability of the opener to find a slam with a minor suit fit using the Casey Minor Rebid convention

Precision has been added **Bridge Game Guide** Ava Thompson,AI,2025-02-17 Bridge Game Guide is a comprehensive resource designed to elevate your contract bridge skills focusing on bidding systems gameplay strategies and adherence to World Bridge Federation WBF regulations It s structured as both a reference and a practical manual aiming to improve your understanding and execution of the game Did you know that mastering bidding systems is crucial for conveying hand strength and distribution enabling precise contract selection Also grasping WBF rules ensures fair play and adherence to competitive bridge standards The book uniquely emphasizes the practical application of theoretical knowledge bridging the gap between learning bidding conventions like Standard American and Two Over One Game Force and excelling in tournament performance Beginning with fundamental concepts such as scoring and terminology the guide progresses systematically through bidding systems declarer play defensive techniques and card reading skills It culminates with ethical considerations and tournament etiquette using practical hand examples and quizzes to reinforce learning The guide s approach is to blend established bridge theory with the wisdom of expert players using real life tournament scenarios to illustrate key concepts By combining theoretical knowledge with practical examples the book provides a deeper understanding of the logic and strategy that can be immediately applied at the bridge table *On Bidding* Alan Truscott,Phillip Alder,1990-05-15 From Simon Schuster On Bidding now revised and updated is Alan Truscott s Bridge Columnist for The New York Times Albert Morehead s classic work on the principles of Bridge Judgment Alan Truscott s On Bidding explains the principles of standard American bidding and discusses point count valuation openings responses conventions and overcalling strategy **Competitive Bidding in the 21st Century** Marshall Miles,2000 In this book Miles addresses the complex arena of competitive bidding methods for the more advanced player He discusses current thinking and recommends methods which will continue to be playable as bridge enters its second century This book will appeal to fairly serious players only There are two earlier books on this topic by the same author 5 and 10 years old respectively and therefore superseded by this new work *The Book of Card Games* Peter Arnold,1995 The object of this new book is to explain how to play the world s best card games as clearly as possible Technical terms have been kept to a minimum and defined as they arise and example deals have been used where appropriate Jacket **The Optimal Modified 2/1-Club System** Neil H. Timm Ph.D.,2022-03-23 My goal for The Modified Optimal 2 1 Club System is to show how to use the Optimal Point Count OPC method of hand evaluation developed by Patrick Darricades in his book Optimal Hand Evaluation 2019 to improve the dialogue between two players to achieve an optimal bridge contract The primary objective is to demonstrate how to apply the new system approach to contract bridge by illustrating a more accurate method of hand evaluation whether you play 2 1 Standard American SA Acol or Precision among others The Two over One 2 1 Game Force bidding system was an improvement over the SA System that has been in effect and played by bridge players for many years Many claim that the advantage of the 2 1 system allows the partnership to know that game is possible with only a single bid provided one has 13

points As we shall see for suit contracts it is only true if the opening 2 1 bidder has 15 points not 12 13 points since 25 26 points do not result in game whenever a singleton in one hand finds wasted honor points in partner's hand Yet most 2 1 conventions call for 13 High Card Points HCP Another flaw of the 2 1 approach is the fact that opening 1 level suit bids have a wide bidding range 12 21 To eliminate this flaw the principles of Pinpoint Precision with 1 18 points and new responses associated with a new and improved hand evaluation method A major flaw of most Strong Club opening bids is that they are based solely on HCPs with opening bids of 1 16 17 HCP To correct these flaws among others the search for a better hand evaluation method and a better bidding system has been unrelenting Hand evaluation methods have been popularized by Milton Work Charles Goren Marty Bergen and Petkoy Zar and others All falling short when applied to the commonly used dialogue bidding systems The Optimal Point Count OPC method of hand evaluation corrects the many flaws of prior hand evaluation methods when applied to any bidding system In this book many traditional standard bidding practices that do not help to show suit fit and distribution are to be avoided or re-defined Splinters and mini splinters which show the location of voids and singletons to help locate wasted honors the XYZ bidding convention cue bidding and new bids for the investigation of game and slam are among the cornerstone conventions reviewed in this book Newly defined 2 and 3 level bids to show hands with 6 7 card suits are defined to prevent the opponents from finding their optimal contract and to improve upon difficult bidding sequences using traditional bidding strategies The evaluation of one's Offense to Defense Ratio ODR why many well known bidding sequences must be avoided and an analysis of several old standard bridge laws rules are reviewed to show why they need not be used to improve one's judgement if one employs the OPC method
