The Flawed Architect Jussi

M. Hanhimaki, 2004-09-09 Henry Kissinger dominated American foreign relations like no other figure in recent history. He negotiated an end to American involvement in the Vietnam War, opened relations with Communist China, and orchestrated détente with the Soviet Union. Yet he is also the man behind the secret bombing of Cambodia and policies leading to the overthrow of Chile's President Salvador Allende. Which is more accurate: the picture of Kissinger the skilled diplomat or Kissinger the war criminal? In *The Flawed Architect*, the first major reassessment of Kissinger in over a decade, historian Jussi Hanhimaki paints a subtle, carefully composed portrait of America's most famous and infamous statesman. Drawing on extensive research from newly declassified files, the author follows Kissinger from his beginnings in the Nixon administration up to the current controversy fanned by Christopher Hitchens over whether Kissinger is a war criminal. Hanhimaki guides the reader through White House power struggles and debates behind the Cambodia and Laos invasions, the search for a strategy in Vietnam, the breakthrough with China, and the unfolding of Soviet-American détente. Here too are many other international crises of the period: the Indo-Pakistani War, the Yom Kippur War, the Angolan civil war, all set against the backdrop of Watergate. Along the way, Hanhimaki sheds light on Kissinger's personal flaws: he was obsessed with secrecy and bureaucratic infighting in an administration that self-destructed in its abuse of power, as well as his great strengths as a diplomat. We see Kissinger negotiating, threatening, and joking with virtually all of the key foreign leaders of the 1970s, from Mao to Brezhnev and Anwar Sadat to Golda Meir. This well-researched account brings to life the complex nature of American foreign policymaking during the Kissinger years. It will be the standard work on Kissinger for years to come. **Libya's Foreign Policy in North Africa** Mary-jane Deeb, 2019-03-13 Since 1969, when Colonel Muammar al-Qadhafi came to power through a military coup, Libya has been the focus of a great deal of attention. Its experiments with nation building have been viewed with curiosity and its foreign policy with dismay by Western analysts. Much has been written to explain Libya's international and domestic behavior, but despite this, much remains unknown. *Using Biographies in Your Classroom* Garth Sundem, 2008 This resource introduces biographies with fun and creative strategies and activities to teach literacy skills and more, including creating a time line, drawing a mural, writing a biography, and acting out a scene. This resource also includes a Teacher Resource CD with full-color reproducibles. *The National Imaginarium* Magdy Mounir El-Shammaa, 2021-06-22 A cultural, social, and economic history of Egyptian cinema of the twentieth century. Spanning a century of Egyptian filmmaking, this work weaves together culture, history, politics, and economics to form a narrative of how Egyptian national identity came to be constructed and reconstructed over time on film. It goes beyond the films themselves to explore the processes of filmmaking, the artists that made it possible, the institutional networks, structures, and rules that bound them together, the changing social and political environment in which the films were produced, and the role of the state. In peeling back the curtain to reveal the complexities behind the screen, Magdy El

Shammaa shows cinema as at once both a reflection and a producer of larger cultural imaginings of the nation The National Imaginarium provides an in depth description of the films discussed It explores the construction of a populist consciousness that permeated and transcended class structures at mid century in Egypt and how this subsequently came undone in the face of the bewildering social economic and political transformations that the country underwent in the decades that followed More than similar treatments of the topic this book draws on theoretical ideas from outside the immediate discipline of Film Studies including investigations into the materiality and colonial foundations of cosmopolitanism the stakes and aesthetics of realism policy shifts around women s rights transnational economic contexts and the broader history of the country and region including insightful snapshots of everyday life *Venture Into Cultures* Carla Diane Hayden,1992 Identifies resources for children and adults and presents ideas for programs about seven cultural groups *The Carter Years* Burton Ira Kaufman,2009 An A to Z reference guide to the people places policies and events significant during the presidency of Jimmy Carter **The Power Triangle** Hazem Kandil,2016-08-12 Revolution reform and resilience comprise the respective fortunes of modern Iran Turkey and Egypt Although the countries all experienced coups with remarkably similar ambitions each followed a very different trajectory Iran became an absolutist monarchy that was overthrown from below Turkey evolved into a limited democracy and Egypt turned into a police state In *The Power Triangle* Hazem Kandil attributes the different outcomes to the power struggle between the political military and security institutions Coups establish a division of labor with one group of officers running government another overseeing the military and a third handling security But their interests begin to vary as each group identifies with its own institution Politicians wish to rule indefinitely military officers prefer to return to barracks after implementing the needed reforms and security men scramble to maintain the privileges they acquired in the post coup emergency Driven by conflicting agendas these partners in domination struggle over regime control Using comparative historical sociology Kandil demonstrates how regimes are constantly shaped and reshaped through the recurrent clashes and shifting alliances between the team of rivals in this power triangle *The Power Triangle* s realist approach to regime change shows that a clear explanation of pivotal events in Iran Turkey and Egypt is impossible without a firm grasp of the power relations within each country s ruling bloc
