Sade My Neighbor:

Sade My Neighbor Pierre Klossowski, 1991-06-01 Enlightenment ideals of a society rooted in liberationist reason and morality were trampled in the wake of the savagery of the Second World War That era's union of cold technology and ancient hatreds gave rise to a dark alternative reason an ethic that was value free and indifferent with regard to virtue and vice freedom and slavery In a world where the unthinkable had become reality it is small wonder that theorists would turn to the writings of a man whose eighteenth century imagination preceded twentieth century history in its unbridled exploration of viciousness perversion and monstrosity the Marquis de Sade Klossowski was one of the first philosophers in postwar Europe to ask whether Sade's reason although aberrant and perverted to evil passions could be taken seriously Klossowski's seminal work inspired virtually all subsequent study of Sadean thought including that of de Beauvoir Deleuze Derrida Bataille Blanchot Paulhan and Lacan

Examining Aspects of Sexuality and the Self, 2020-05-06 This volume presents various points of view on historical sociological and linguistic approaches to sexuality and the self This eBook is comprised of thirteen chapters and is a result of proceedings from the 6th Global Conference on Persons and Sexualities *Lacan's Return to Antiquity* Oliver Harris, 2016-08-05 Chapters 1 2 and 5 of this book is freely available as a downloadable Open Access PDF under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license available at <http://www.taylorfrancis.com/books/e/9781138820388> Lacan's Return to Antiquity is the first book devoted to the role of classical antiquity in Lacan's work Oliver Harris poses a question familiar from studies of Freud what are Ancient Greece and Rome doing in a twentieth century theory of psychology In Lacan's case the issue has an additional edge for he employs antiquity to demonstrate what is radically new about psychoanalysis It is a tool with which to convey the revolutionary power of Freud's ideas by digging down to the philosophical questions beneath them It is through these questions that Lacan allies psychoanalysis with the pioneering intellectual developments of his time in anthropology philosophy art and literature Harris begins by considering the role of Plato and Socrates in Lacan's conflicted thoughts on teaching writing and the process of becoming an intellectual icon In doing so he provides a way into considering the uniquely challenging nature of the Lacanian texts themselves and the live performances behind them Two central chapters explore when and why myth is drawn upon in psychoanalysis its threat to the discipline's scientific aspirations and Lacan's embrace of its expressive potential The final chapters explore Lacan's defence of tragedy and his return to Ovidian themes These include the unwitting voyeurism of Actaeon and the fate of Narcissus a figure of tragic metamorphosis that Freud places at the heart of infantile development Lacan's Return to Antiquity brings to Lacan studies the close reading and cross disciplinary research that has proved fruitful in understanding Freud's invention of psychoanalysis It will appeal to psychoanalysts and advanced students studying in the field being of

particular value to those interested in the roots of Lacanian concepts the evolution of his thought and the cultural context of his work What emerges is a more nuanced self critical figure a corrective to the reputation for dogmatism and obscurity that Lacan has attracted In the process new light is thrown on enduring controversies from Lacan s pronouncements on feminine sexuality to the opaque drama of the seminars themselves

Sexuality Michel Foucault,2021-07-13 Michel Foucault s *The History of Sexuality* the first volume of which was published in 1976 exerts a vast influence across the humanities and social sciences However Foucault s interest in the history of sexuality began as early as the 1960s when he taught two courses on the subject These lectures offer crucial insight into the development of Foucault s thought yet have remained unpublished until recently This book presents Foucault s lectures on sexuality for the first time in English In the first series held at the University of Clermont Ferrand in 1964 Foucault asks how sexuality comes to be constituted as a scientific body of knowledge within Western culture and why it derived from the analysis of perversions morbidity homosexuality fetishism The subsequent course held at the experimental university at Vincennes in 1969 shows how Foucault s theories were reoriented by the events of May 1968 he refocuses on the regulatory nature of the discourse of sexuality and how it serves economic social and political ends Examining creators of political and literary utopias in the nineteenth and twentieth centuries from Sade to Fourier to Marcuse who attempted to integrate natural sexualities including transgressive forms into social and economic life Foucault elaborates a double critique of the naturalization and the liberation of sexuality Together the lectures span a range of interests from abnormality to heterotopias to ideology and they offer an unprecedented glimpse into the evolution of Foucault s transformative thinking on sexuality

Outsider Theory Jonathan Eburne,2018-09-18 A vital and timely reminder that modern life owes as much to outlandish thinking as to dominant ideologies What do the Nag Hammadi library Dan Brown s The Da Vinci Code speculative feminist historiography Marcus Garvey s finances and maps drawn by asylum patients have in common Jonathan P Eburne explores this question as never before in *Outsider Theory* a timely book about outlandish ideas Eburne brings readers on an adventure in intellectual history that stresses the urgency of taking seriously especially in an era of fake news ideas that might otherwise be discarded or regarded as errant unfashionable or even unreasonable Examining the role of such thinking in contemporary intellectual history Eburne challenges the categorical demarcation of good ideas from flawed wild or bad ones addressing the surprising extent to which speculative inquiry extends beyond the work of professional intellectuals to include that of nonprofessionals as well whether amateurs unfashionable observers or the clinically insane Considering the work of a variety of such figures from popular occult writers and gnostics to so called outsider artists and pseudoscientists Eburne argues that an understanding of its circulation and recirculation is indispensable to the history of ideas He devotes close attention to ideas and texts usually omitted from or marginalized within orthodox histories of literary modernism critical theory and continental philosophy yet which have long garnered the critical attention of specialists in religion science studies critical race theory and the history of the occult In doing so he not only sheds new light on a fascinating body of creative thought but also proposes new approaches for situating contemporary humanities scholarship within the history of ideas However important it might be to protect ourselves from bad ideas *Outsider Theory* shows how crucial it is for us to know how and why such ideas have left their impression on modern day thinking and continue to shape its evolution

Transgression and the Aesthetics of Evil Taran Kang,2021-12-15 Genius

and the Spirit of Transgression Symbols of the Morally Bad Evil and the Sublime Wicked Spectators Remains of a Self Cathrine Bjørnholt Michaelsen, 2021-06-29 From the twentieth century in the twenty first psychoanalysis and deconstruction have challenged and continue to challenge our conceptions of subjectivity and selfhood Psychoanalysis revealed that even in our innermost households we are never quite alone rather instances of otherness incessantly interfere in our most intimate relation to ourselves forcing us to adapt continuously Deconstruction inheriting both this psychoanalytic disclosure and Heidegger's destruction of the history of metaphysics went to the foundations of the Western constructions of the subject and the self only to find how a destabilizing otherness was always already haunting them What if anything remains of the self in the aftermath Early on in the wake of deconstruction a certain misconceived and simplified notion of the death of the subject was proclaimed and in recent years more or less successful attempts have been made at reviving the notions of the subject the self and agency In contrast to these attempts at revival this book offers a two pronged approach On the one hand it argues that neither psychoanalysis nor deconstruction propounds a simple annihilation of the subject or liquidation of the self on the other hand however neither do they pave the way for a return to the subject or resurrection of the self that would allow us once again to become confident about our presence to ourselves Instead this book suggests that if we set ourselves the task of taking up the heritage from psychoanalysis and deconstruction in a serious manner we are obliged to retrace the subject and the self as undergoing perpetual auto deconstruction

Dorsality David Wills, 2008 In this highly original book David Wills rethinks not only our nature before all technology but also what we understand to be technology Rather than considering the human being as something natural that then develops technology Wills argues we should instead imagine an originary imbrication of nature and machine that begins with a dorsal turn a turn that takes place behind our back outside our field of vision With subtle and insightful readings Wills pursues this sense of what lies behind our idea of the human by rescuing Heidegger's thinking from a reductionist dismissal of technology examining different angles on Levinas's face to face relation and tracing a politics of friendship and sexuality in Derrida and Sade He also analyzes versions of exile in Joyce's rewriting of Homer and Broch's rewriting of Virgil and discusses how Freud and Rimbaud exemplify the rhetoric of soil and blood that underlies every attempt to draw lines between nations and discriminate between peoples In closing Wills demonstrates the political force of rhetoric in a sophisticated analysis of Nietzsche's oft quoted declaration that God is dead Forward motion Wills ultimately reveals is an ideology through which we have favored the front what can be seen over the aspects of the human and technology that lie behind the back and in the spine what can be sensed otherwise and shows that this preference has had profound environmental political sexual and ethical consequences David Wills is professor of French and English at the University of Albany SUNY He is the author of *Prosthesis and Matchbook* Essays in Deconstruction as well as the translator of works by Jacques Derrida including *The Gift of Death*

Forbidden Knowledge Roger Shattuck, 1997 A riveting account of the ways in which man's darkest impulses conflict with common sense From the lessons learned in

Paradise Lost and the events which transpired in the tales of Dr Jekyll and Mr Hyde and Frankenstein to unlocking the secrets of the atom Shattuck's brilliant synthesis of history and literature is utterly relevant to our times and addictively readable

The Politics of Moralizing Jane Bennett, Michael J. Shapiro, 2013-09-13 The Politics of Moralizing issues a stern warning about the risks of speaking writing and thinking in a manner too confident about one's own judgments and asks Can a clear line be drawn between dogmatism and simple certainty and indignation Bennett and Shapiro enter the debate by questioning what has become a popular even pervasive cultural narrative told by both the left and the right the story of the West's moral decline degeneration or confusion Contributors explore the dynamics and dilemmas of moralizing by advocates of patriotism environmental protection and women's rights while arguing that the current discourse gives free license to self aggrandizement cruelty vengeance and punitiveness and a generalized resistance to or abjection of diversity

The Unwritten Enlightenment Nathan Gorelick, 2024-03-15 Unveiling the fantasies that drove the Enlightenment and created modern literature Nathan Gorelick's *The Unwritten Enlightenment Literature between Ideology and the Unconscious* traces the relations between literary criticism and psychoanalysis to their shared origins in the Enlightenment era's novels and novelistic discourse where the period's efforts to invent new notions of subjectivity and individualism are most apparent Gorelick shows how modern concepts of literature and the unconscious were generated in response to these efforts and by an ethical concern for what the language of the Enlightenment excludes represses or struggles to erase Troubling the idea of the Enlightenment on its own terms subverting its supposed authority from within Gorelick thus reveals the workings of unconscious fantasy at the foundations of our contemporary political realities The *Unwritten Enlightenment* makes clear that to criticize the Enlightenment's deficiencies ambiguities and legacies of violence without regard for the unconscious fantasies that drive them risks reproducing the very patterns of thought action and imagination that the Enlightenment novel already unsettles

Economy and Architecture Juliet Odgers, Mhairi McVicar, Stephen Kite, 2015-07-16 *Economy and Architecture* addresses a timely critical and much debated topic in both its historical and contemporary dimensions From the Apple Store in New York City to the street markets of the Pan American Highway from commercial Dubai to the public schools of Australia this book takes a critical look at contemporary architecture from across the globe whilst extending its range back in history as far as the Homeric epics of ancient Greece The book addresses the challenges of practicing architecture within the strictures of contemporary economies grounded on the fundamental definition of economy as the well managed household derived from the Greek *oikonomia* *oikos* house and *nemein* manage The diverse enquiries of the study are structured around the following key questions How do we define our economies How are the values of architecture negotiated among the various actors involved How do we manage the production of a good architecture within any particular system How does political economy frame and influence architecture The majority of examples are taken from current or recent architectural practice historical examples which include John Evelyn's villa Blenheim Palace John Ruskin's Venice and early twentieth

century Paris place the debates within an extended critical perspective **The Delirium of Praise** Eleanor Kaufman, 2003-05-01 The laudatory essay in which one author praises the work of another is frequently characterized as an unimportant even uncritical mode of writing But as Eleanor Kaufman argues in *The Delirium of Praise* this mode of exchange is serious and substantial enough to merit scholarly attention By not conforming to standard practices of critical discourse laudatory essays give new status to supposedly inferior forms of communication and states of being including chatter silence sickness imbalance and absence of work and emphasize affective states or emotions such as joy friendship and longing *The Delirium of Praise* examines a group of five twentieth century French intellectuals Georges Bataille Maurice Blanchot Michel Foucault Gilles Deleuze and Pierre Klossowski and their laudatory essays about each other Structured as a circular series of exchanges the book examines pairings of two thinkers with respect to a given theme The exchange between Bataille and Blanchot takes up the themes of chatter and silence with regard to the novelist Louis Ren des For ts the Blanchot Foucault exchange explores friendship and impersonality through the lens of Jacques Derrida the Foucault Deleuze exchange considers absence of work d soeuvrement and the obscure French philosopher Jacques Martin the Deleuze Klossowski exchange revolves around the question of the sick body and the person of Nietzsche and the final exchange between Klossowski and Bataille focuses on imbalanced economies and the writings of the Marquis de Sade Where the praise is most excessive approaching delirium Kaufman locates a powerful thought energy that pushes the laudatory essay to its limits In her conclusion she presents this unique mode of thought exchange as a form of intellectual hospitality Kaufman uncovers a suspension of subjectivity of personality even of place and time that is both articulated in the laudatory essays and enacted by them Her examination of this neglected mode as practiced by five important French thinkers offers a unique perspective on twentieth century intellectual history
