British Built Lucy Bullivant, 2005-09-22 For a while now the Young British Artists have been soaking up the international limelight thanks to a sensibility that is at once outrageous and

thoughtful Architecture of course always takes a while to catch up to the other arts but now finally Britain has emerged as one of the world's most fertile breeding grounds for international design talent Catalyzed by such leading international architecture schools as the Architectural Association and the Bartlett a new wave of architects from home and abroad is combining local and global styles in exciting new buildings and projects Post Imperial British designers are indeed synthesizing foreign cultures with Western conditions in an entirely original way Profiling Britain's most dynamic and intriguing practices British Built features projects by S333 Caruso St John Alison Brooks Foreign Office Architects FOA muf Allford Hall Monaghan Morris Gollifer Langston de Rijke Marsh Morgan dRMM Kathryn Findlay FAT Adjaye Associates Sergison Bates Klein Dytham Architects KDa and Deborah Saunt David Hills Architects British Built the sequel to our successful SuperDutch includes studio profiles and essays outlining the unique characteristics of the British architect working today and presenting an even younger generation of architects whose stars are only just appearing on the horizon including atopia softroom dECOi and Tonkin Liu among many others

Landscape Theory in Design Susan Herrington, 2016-12-08 Phenomenology Materiality Cybernetics Palimpsest Cyborgs Landscape Urbanism Typology Semiotics Deconstruction the minefield of theoretical ideas that students must navigate today can be utterly confusing and how do these theories translate to the design studio Landscape Theory in Design introduces theoretical ideas to students without the use of jargon or an assumption of extensive knowledge in other fields and in doing so links these ideas to the processes of design In five thematic chapters Susan Herrington explains the theoretic groundings of the theory of philosophy why it matters to design an example of the theory in a work of landscape architecture from the twentieth and twenty first centuries debates surrounding the theory particularly as they elaborate modern and postmodern thought and primary readings that can be read as companions to her text An extensive glossary of theoretical terms also adds a vital contribution to students comprehension of theories relevant to the design of landscapes and gardens Covering the design of over 40 landscape architects architects and designers in 111 distinct projects from 20 different countries Landscape Theory in Design is essential reading for any student of the landscape

Ecological by Design Kjetil Fallan, 2022-11-22 How ecological design emerged in Scandinavia during the 1960s and 1970s building on both Scandinavia's design culture and its environmental movement Scandinavia is famous for its design culture and for its pioneering efforts toward a sustainable future In Ecological by Design Kjetil Fallan shows how these two forces came together in the late 1960s and early 1970s when Scandinavian designers began to question the endless cycle in which designed objects are produced consumed discarded and replaced in quick succession The emergence of ecological design in Scandinavia at the height of the popular environmental movement Fallan suggests illuminates a little known reciprocity between environmentalism and design not only did design play a role in the rise of modern environmentalism but ecological thinking influenced the transformation in design culture in Scandinavia and beyond that began as the modernist faith in progress and prosperity waned Fallan describes the efforts of Scandinavian

designers to forge an environmental ethics in a commercial design culture sustained by consumption shows by recounting a quest for sustainability through Norwegian wood s that one of the main characteristics of ecological design is attention to both the local and the global and explores the emergence of a respectful and sustainable paradigm for international development Case studies trace key connections to continental Europe Britain the US Central America and East Africa Today ideas of sustainability permeate design discourse but the historical emergence of ecological design remains largely undiscussed With this trailblazing book Fallan fills that gap **Frommer's? around the world and he became the first person ever to have designed buildings on six continents He designed mostly in a neo Palladian style and invented a way of building wooden structures so as to look like carved stone wooden rustication He also designed some of America s most valuable furniture including inventing the coveted block front and introducing the bombe motif In America he lived in Newport Rhode Island and in New Haven Connecticut where he died at the beginning of the War of Independence Architecture, Culture, and Spirituality Thomas Barrie,Julio Bermudez,Phillip James
