The Rhetoric of Topics and Forms Gianna Zocco, 2021-01-18 The fourth volume of the collected papers of the ICLA congress The Many Languages of Comparative Literature includes articles that study thematic and formal elements of literary texts Although the question of prioritizing either the level of content or that of form has often provoked controversies most contributions here treat them as internally connected While theoretical considerations inform many of the readings the main interest of most articles can be described as rhetorical in the widest sense given that the ancient discipline of rhetoric did not only include the study of rhetorical figures and tropes such as metaphor irony or satire but also that of topoi which were originally viewed as the places where certain arguments could be found but later came to represent the arguments or intellectual themes themselves Another feature shared by most of the articles is the tendency of undeclared thematology which not only reflects the persistence of the charge of positivism but also shows that most scholars prefer to locate themselves within more specific often interdisciplinary fields of literary study In this sense this volume does not only prove the ongoing relevance of traditional fields such as rhetoric and thematology but provides contributions to currently flourishing research areas among them literary multilingualism literature and emotions and ecocriticism

Alfred Döblins "Berlin Alexanderplatz": Die Konstitution einer neuen Romanpoetik Julian Philipp Schlüter, 2015-08 Alfred Döblin unterfütterte sein dichterisches Werk stets mit Literatur und kunsttheoretischen Schriften die ein hohes Maß an Selbstreflexion aufwiesen und das ästhetische Fundament seines Schaffens bildeten Döblin reüssierte als einer der bedeutendsten Vertreter des Frühexpressionismus Er formte daraufhin aus der Auseinandersetzung mit dem Futurismus eigene programmatische Positionen indem er sich aus der Ablehnung des bürgerlichen Romans und aus der Lossagung vom Expressionismus heraus auf den Naturalismus besann Dadurch nahm er bereits wesentliche Elemente der Neuen Sachlichkeit vorweg Die vorliegende Arbeit zeigt dass sich Spuren dieses ästhetischen Entwicklungsverlaufs auch in seinem Roman Berlin Alexanderplatz ausmachen lassen Es wird der Entstehungsweg von Döblins romanpoetologischen Überlegungen nachgezeichnet und aufgezeigt wie diese in Berlin Alexanderplatz kulminieren Wie zuvor in seinen theoretischen Schriften so finden sich auch hier deutliche Bezüge zum Naturalismus Expressionismus Futurismus zu Dada und zur Neuen Sachlichkeit In Form einer textimmanenten Analyse wurden prägnante Textstellen herausgegriffen und in den jeweiligen stilistischen Zusammenhang der verschiedenen literarischen Bewegungen gestellt

The Modernist Screenplay Alexandra Ksenofontova, 2020-10-02 The Modernist Screenplay explores the film screenplay as a genre of modernist literature It connects the history of screenwriting for silent film to the history of literary modernism in France Germany and Russia At the same time the book considers how the screenplay responded to the modernist crisis of reason confronted mimetic representation and sought to overcome the modernist mistrust of language with the help of rhythm From the silent film projects of Bertolt Brecht to the screenwriting of Sergei Eisenstein and the poetic scripts of the surrealists The Modernist Screenplay offers a new angle on the relationship between film and literature Based on the example of modernist screenwriting the book proposes a pluralistic approach to screenplays an approach that sees film scripts both as texts embedded in film production and as literary works in their own right As a result the sheer variety of different and experimental ways to tell stories in screenplays comes to light The Modernist Screenplay explores how the earliest kind of experimental screenplays the modernist screenplays challenged normative ideas about the nature of filmmaking the nature of literary writing and the borders between the two

'Heimat' Friederike Eigler, Jens Kugele, 2012-10-01 The concept of Heimat with its seemingly pre or anti modern connotations of rootedness in a place of origin is central to a critical understanding of German history and culture Over the course of the past fifteen years scholars across a range of disciplines have found new ways to examine the changing notions of Heimat its multifaceted cultural literary and visual history its gendered connotations and its national and ideological appropriations This anthology is the first to examine cultural manifestations of Heimat by giving special consideration to issues of memory and space The contributions to this volume challenge static notions of place often associated with Heimat Instead they explore the social and cultural production of places of belonging as they emerge in literary and visual narratives ranging from 1800 to 2000 and beyond Although the

anthology includes historical perspectives on Heimat its overall objective is not to trace its cultural or literary history but to place this complex term into new conceptual contexts Drawing attention to manifestations of Heimat within German literary and cultural studies provides a rich ground for exploring the transformation of locality in trans national contexts
