Social Policy in Post-Industrial Singapore Kwen Fee Lian, Chee-Kiong Tong, 2008-03-31 Notwithstanding the lean years that followed 1986 and 1997 sustained economic growth since the late 1970s has propelled Singapore into the post industrial age and reproduced the demographic and social structure of advanced western societies The rapid shift to a knowledge intensive economy requiring highly skilled services has resulted in a two speed society consisting of a highly competitive but rewarding sector and a marginalized population that is increasingly at risk Being avowedly anti welfarist the state for ideological reasons has resisted pressures to introduce a comprehensive welfare regime for its risk population preferring to privilege its productive citizenry Is Singapore a counter factual to the convergence thesis by preferring to put in place a social policy driven by the belief of its leaders that the more successful a society is the more it is able to care for those who fall behind

Judiciary-led Reforms in Singapore Waleed Haider Malik, 2007-01-01 While each country's judiciary is unique in its individual needs capabilities and contexts the lessons learned from Singapore's success can help guide judicial reform initiatives regionally as well as globally No one would suggest that Singapore's strategy is a magic formula that if followed can erase the inefficiencies of all judiciaries But it would be wise to examine the strategies used and lessons learned from Singapore's experience as a potential guide towards successful and sustainable judicial reform Proceedings of the Board of Supervisors of Ulster County Ulster County (N.Y.).
