Long Road To Reform Restructuring Public Education In Quebec:

The Long Road to Reform Henry Milner, 1986 Although it has often been assumed that the Quiet Revolution represented the triumph of secularism over religion in Quebec important vestiges of ecclesiastical influence have remained among those which have proved to be particularly well entrenched are the structural foundations of the school system

The Reconquest Of Montreal Marc Levine, 2010-04-28 An examination of the nature of the linguistic transformation of Montreal and the role of public policy in promoting it

Religion and Schooling in Canada Robert K. Crocker, 2022-11-15 Christian organizations have always played a large role in Canadian education By 1949 five provinces had constitutionally protected denominational schools The federal government's responsibility for the education of Indigenous Peoples was effectively contracted out to the churches for more than a century resulting in a history of abuse that has only recently come to light From the 1950s to the 1970s several initiatives in different provinces set the stage for significant reforms to education Some of these tested the limits of denominational protections but could not shake the underlying constitutional structures Patriation of the Constitution and adoption of the Canadian Charter of Rights and Freedoms in 1982 codified fundamental changes in thinking about civil rights The Charter allowed existing denominational rights to be challenged on many fronts However all such challenges were rebuffed by the courts on the grounds that the Charter cannot be used to override other parts of the Constitution By the 1990s it became apparent that another route to reform was available through the amending formula Constitutional amendments were used to end denominational control of schools in Newfoundland and Quebec in 1997 and 1998 The circumstances around those constitutional amendments are discussed in detail as possible precedents for similar outcomes in Alberta Ontario and Saskatchewan This book contends that change will certainly come to these provinces and several paths to reform are explored This reform aims to remove the discrimination inherent in denominational institutions while preserving some form of religious involvement in certain schools

Besieged Garth Stevenson, 1999-06-17 In *Community Besieged* Garth Stevenson describes the unusual circumstances that allowed English speaking Quebecers to live in virtual isolation from their francophone neighbours for almost a century after Confederation. He describes their relations with Maurice Duplessis and the Union Nationale and their ambivalent response to the Quiet Revolution. New political issues: language policy, educational reform, sovereignty and the constitution undermined the old system of elite accommodation in Quebec, causing conflicts between anglophones and francophones and creating a new sense of anglophone identity that transcends religious differences. The changing relations of Quebec anglophones with the major political parties as well as the role of newer entities such as Alliance Quebec and the Equality Party are also examined. Stevenson concludes with a look at the future of anglophones in Quebec. Based in part on interviews with more than sixty English speaking Quebecers who have played prominent parts in Quebec's political life, *Community Besieged* is a comprehensive and up to date description of the political life of this unique minority at both the federal and provincial level.

Québec: État et Société, Tome 1, *Learning to School* Jennifer Wallner, 2014-05-27 Among countries in the industrialized world, Canada is the only one without a national department of education, national standards for education and national regulations for elementary or secondary schooling. For many observers, the system seems impractical and almost incoherent. But despite a total lack of federal oversight, the educational policies of all ten provinces are very similar today. Without intervention from Ottawa, the provinces have fashioned what amounts to a de facto pan Canadian system. *Learning to School* explains how and why the provinces have achieved this unexpected result. Beginning with the earliest provincial education policies and taking readers right up to contemporary policy debates, the book chronicles how, through learning and cooperation, the provinces gradually established a country wide system of public schooling. A rich and ambitious work of scholarship, it will appeal to readers seeking fresh insights on Canadian federalism, education policy and policy diffusion.

Black Racialization and Resistance at an Elite University Rosalind Hampton, 2020-05-12 The presence and experiences of Black people at elite universities have been largely underrepresented and erased from institutional histories. This book engages with a collection of these experiences that span half a century and reflect differences in class, gender and national identifications among Black scholars. By mapping Black people's experiences of studying and teaching at McGill University, this book reveals how the whiteness of the university both includes and exceeds the racial identities of students and professors. It highlights the specific functions of Blackness and of anti-Blackness within society in general and within the institution of higher education in particular, demonstrating how structures and practices of the university reproduce interlocking systems of oppression that uphold racial capitalism, reproduce colonial relations and promote settler nationalism. Critically engaging the work of Black learners, academics, organizers and activists within this dynamic political context, this book underscores the importance of Black Studies across North America. **Canadian Books in Print**, 2003 **Québec Studies**, 1988 *Canadiana*, 1986 **Politics** Paul W. Fox, Graham White, 1987 **The Compassionate Educator**

Allyson Jule, 2019-12-02 With the ever increasing diversity and social complexity in Canadian classrooms teachers need to understand and respond to current social issues from a place of compassion This insightful contributed volume brings together leading academics from across Canada to discuss the evolution of student populations in Canadian schools exploring the social issues that affect students lived realities Using a student centred methodology the authors examine a wide range of critical topics including mental health Indigenous education queer education racism youth radicalization disability religious responsiveness high poverty schools teacher parent communication English language learners and refugee student support Readers learn how to navigate difficult situations in the classroom with empathy and a thoughtful informed ethics of care and to consider the distinct experiences and sociocultural realities that inform students actions Encouraging critical reflection and a deeper understanding of diversity The Compassionate Educator serves as a vital resource for students in teacher education programs and for practicing educators across Canada **Canadian Education and Research Digest** , 1986
