## **Long Run To Tobruk:**

Long Run to Tobruk Gordon Landsborough, 1975-01-01      **Death of the Wehrmacht** Robert M. Citino, 2007-10-22 For Hitler and the German military 1942 was a key turning point of World War II as an overstretched but still lethal Wehrmacht replaced brilliant victories and huge territorial gains with stalemates and strategic retreats In this major reevaluation of that crucial year Robert Citino shows that the German army's emerging woes were rooted as much in its addiction to the war of movement attempts to smash the enemy in short and lively campaigns as they were in Hitler's deeply flawed management of the war From the overwhelming operational victories at Kerch and Kharkov in May to the catastrophic defeats at El Alamein and Stalingrad *Death of the Wehrmacht* offers an eye opening new view of that decisive year Building upon his widely respected critique in *The German Way of War* Citino shows how the campaigns of 1942 fit within the centuries old patterns of Prussian German warmaking and ultimately doomed Hitler's expansionist ambitions He examines every major campaign and battle in the Russian and North African theaters throughout the year to assess how a military geared to quick and decisive victories coped when the tide turned against it Citino also reconstructs the German generals view of the war and illuminates the multiple contingencies that might have produced more favorable results In addition he cites the fatal extreme aggressiveness of German commanders like Erwin Rommel and assesses how the German system of command and its commitment to the independence of subordinate commanders suffered under the thumb of Hitler and chief of staff General Franz Halder More than the turning point of a war 1942 marked the death of a very old and traditional pattern of warmaking with the classic German way of war unable to meet the challenges of the twentieth century Blending masterly research with a gripping narrative Citino's remarkable work provides a fresh and revealing look at how one of history's most powerful armies began to founder in its quest for world domination      *Besieged* Paul K. Davis, 2003 From ancient times to the present great sieges have had an enormous impact on the shaping of world history Now in this spectacular fully illustrated volume one hundred of the world's most monumental and mind boggling sieges are laid out in detail *Besieged* covers the most important sieges from around the world throughout history from Joshua's assault on Jericho in the fifteenth century B C to the Russian attack on the Chechen capital of Grozny at the end of the twentieth Each entry provides the name and date of the siege its exact location in terms of today's world the number of forces engaged when known the names of the commanders on each side and the overall importance of the siege in its historical context Thoroughly examining the actions of both the attackers and the defenders the book explores the motivations of both and strategically surveys the technical and tactical innovations and conditions both inside besieged positions and in the besiegers ranks The entries detail the historical setting the particular circumstances of the event itself and the long term results of the siege These riveting accounts are enhanced by illustrations over seventy maps and references for further reading A glossary and a comprehensive index complete the book Global in scope and with stirring accounts of familiar sieges as well as many lesser known conflicts *Besieged* is essential

*Alistair MacLean's War* Mark Simmons, 2022-06-02 It is no coincidence that many of Alistair MacLean s most successful novels were sea stories In 1941 he was called up after volunteering for the Royal Navy and served as Ordinary Seaman Able Seaman and Leading Torpedo Operator For the majority of his service he was on HMS Royalist a modified Dido class light cruiser seeing action in the Arctic and operations against the German battleship Tirpitz The ship then deployed to the Mediterranean taking part in Operation Dragoon the invasion of the South of France and later in

operations against German occupied Greek Islands in the Aegean After which MacLean and Royalist were deployed to the Indian Ocean and operations against the Japanese in Malaya Burma and Sumatra His wartime experiences coupled with exceptional literary skill resulted in the runaway success of his first novel HMS Ulysses 1955 followed by The Guns of Navarone 1957 and South by Java Head 1958 These three blockbusters cemented his position as one of the most successful and highly paid authors of the era While not a whole life biography Mark Simmon s book provides a fascinating insight into Maclean s war service and subsequent works which deserve enduring popularity **Junkers Ju 88 Kampfgeschwader in North Africa and the Mediterranean** John Weal,2012-09-20 A detailed history of the Luftwaffe s best twin engined bomber of World War 2 in North Africa and the Mediterranean This volume follows the Luftwaffe s Wunderbomber southwards to describe its deployment in North Africa and the Mediterranean theatre of war Early 1941 saw the first sporadic air raids on Malta followed by the campaign in the Balkans which resulted in the conquests of Yugoslavia Greece and Crete After supporting land operations in North Africa during the latter half of 1941 the Ju 88s resumed their assault on Malta Bringing the story to life are personal accounts of the more famous actions the bombing of shipping off the coast of Greece and the sinking of three Royal Navy destroyers south of Crete all illustrated with rare photographs and full colour profiles

Bombers over Sand and Snow Alun Granfield,2011-10-05 205 Group RAF provided the only mobile force of heavy night bombers in the Mediterranean theater in the Second World War It operated mainly from bases in Egypt Libya Tunisia and Italy with occasional excursions to Malta Greece and Iraq attacking tactical and strategic targets according to the demands of the wider war in the theater The force was relatively small when compared with the numbers of aircraft available to Bomber Command in the Western European theater and it carried on using the venerable Vickers Wellington long after this aircraft had been relegated to the training role in the United Kingdom Like their UK based counterparts the night bombers were intended to operate in a strategic role bombing targets away from the immediate battlefield However the demands of the war in the Middle East and Mediterranean soon diverted the bombers from their strategic role and saw them operating much closer to the front line in support of the hard pressed ground forces The bomber squadrons in North Africa usually operated from Advanced Landing Grounds scraped out of the bare desert with only a few tents for shelter In Italy they did have more or less permanent bases but they still lived in tents if they were lucky often surrounded by a sea of mud There were no pubs often no beer and the only contact with their families were the eagerly awaited letters from home Also the squadrons in England did not have Rommel continually knocking on their door Thus the operations of the night bombers in the Middle East and Mediterranean were often governed by the general progress of the war in the theater The ebb and flow of the land battles not only determined the activities of the night bombers but also determined their location This book tells their story **The War at Sea, 1939-1945: The defensive.- v.2.
