Lloyd Owen,1980 Here at last is the full story of perhaps the most renowned and effective of those sometimes odd but always inspired formations born out of the desert during the Second World War The author was in the Long Range Desert Group for most of its existence and commanded the unit from 1943 till its disbandment in 1945 He covers not only the justly famed activities of the group in the deserts of North Africa but also for the first time its later operations in the Aegean Italy and different parts of the Balkans Yugoslavia and Albania particularly where its adventures were appropriately colourful and often bizarre Throughout his account he describes and illustrates with hitherto unpublished photographs many of the personalities British New Zealanders and Rhodesians who contributed so much to the LRDG s character and success Inside front cover      **The Long Range Desert Group 1940-1945** David Lloyd-Owen,2009-05-29

Gavin Mortimer,2021-02-18 A fascinating study of the specialized vehicles kit and techniques of the Long Range Desert Group who pioneered long range desert warfare in World War II and worked closely with the embryonic SAS The Long Range

Desert Group was one of the most famous special units of World War II operating heavily modified vehicles deep behind enemy lines to gather intelligence and support the raids of David Stirling's new Special Air Service. When war broke out a pre-war explorer and army officer Ralph Bagnold convinced Middle East Command of the need for a reconnaissance force to penetrate into Italian-held desert. Bagnold tested four types of vehicles over rocks and through soft sand to find the best one for his new unit. He selected the Chevrolet WB 30 CWT as the signature vehicle of the Long Range Desert Group because it is fast, simple and easy to handle. With left-hand steering, horizontal grill and round fenders on the rear wheels, these trucks proved themselves popular and effective. The durability of the Chevrolets was demonstrated in January 1941 with an audacious raid on the Italian fort air strip at Murzuk, hundreds of miles behind enemy lines. This book explains the detail of all the vehicles of the LRDG as well as their modifications, driving techniques and special kit for surviving behind enemy lines in one of the most hostile environments on earth. *The Long Range Desert Group in World War II* Gavin Mortimer, 2017-04-20

A major illustrated history of the Long Range Desert Group from the foremost expert on British wartime special forces. Formed in June 1940 for the purpose of gathering intelligence behind enemy lines, the Long Range Desert Group (LRDG) played a secretive but vital role in North Africa during World War II. Highly trained in mechanized reconnaissance and specializing in desert operations, the unit provided support to the Special Air Service (SAS) in missions across the vast and treacherous terrain of the Western Desert. In this highly illustrated history of the LRDG, Gavin Mortimer reveals the origins and dramatic operations of Britain's first ever special forces unit. **Ghost Patrol** John Sadler, 2015-11-19

From the author of *D Day*, an amazing tale of how the world's very first special force was created specifically for North Africa during WWII. Books Monthly: The origins of most of the West's Special Forces can be traced back to the Long Range Desert Group, which operated across the limitless expanses of the Libyan Desert, an area the size of India, during the whole of the Desert War from 1940 to 1943. After the defeat of the Axis in North Africa, they adapted to serve in the Mediterranean, the Greek islands, Albania, Yugoslavia and Greece. In the process, they became the stuff of legend. The brainchild of Ralph Bagnold, a pre-war desert explorer featured in fictional terms in *The English Patient*, the LRDG used specially adapted vehicles and recruited only men of the right temperament and high levels of fitness and endurance. Their work was often dangerous, always taxing, exhausting and uncomfortable. They were a new breed of soldier, and the Axis never managed to field a similar unit. Once the desert war was won, they transferred their skills to the Mediterranean sector, retraining as mountain guerrillas serving in the ill-fated Dodecanese campaign, then in strife-torn Albania, Yugoslavia and Greece, fighting alongside the mercurial partisans. In addition, the LRDG worked alongside the fledgling SAS and established beyond all doubt the value of highly trained Special Forces, a legacy which resonates today. Genuinely gripping, a tale of eccentrics and their high adventures during very dangerous times. **Classic Military Vehicle** **Long Range Desert Group (LRDG) Preservation Society**, Features the Long Range Desert Group (LRDG) Preservation Society, which is dedicated to learning about the unit, the men and the

Hargreaves, 2013-10-28 British and American commanders first used modern special forces in support of conventional military operations during World War II Since then although special ops have featured prominently in popular culture and media coverage of wars the academic study of irregular warfare has remained as elusive as the practitioners of special operations themselves This book is the first comprehensive study of the development application and value of Anglo American commando and special forces units during the Second World War Special forces are intensively trained specially selected military units performing unconventional and often high risk missions In this book Andrew L Hargreaves not only describes tactics and operations but also outlines the distinctions between commandos and special forces traces their evolution during the war explains how the Anglo American alliance functioned in the creation and use of these units looks at their command and control arrangements evaluates their impact and assesses their cost effectiveness The first real impetus for the creation of British specialist formations came in the desperate summer of 1940 when having been pushed out of Europe following defeat in France and the Low Countries Britain began to turn to irregular forces in an effort to wrest back the strategic initiative from the enemy The development of special forces by the United States was also a direct consequence of defeat After Pearl Harbor Hargreaves shows the Americans found themselves in much the same position as Britain had been in 1940 shocked outnumbered and conventionally defeated they were unable to come to grips with the enemy on a large scale By the end of the war a variety of these units had overcome a multitude of evolutionary hurdles and made valuable contributions to practically every theater of operation In describing how Britain and the United States worked independently and cooperatively to invent and put into practice a fundamentally new way of waging war this book demonstrates the two nations flexibility adaptability and ability to innovate during World War II
