

A Leisure Activities Curricular Component for Severely Handicapped Youth: Why and How

Luanna M. Voeltz and James A. Apffel

The present paper presents a rationale for including a leisure time activities curriculum component in educational programming for severely handicapped children and youth. The importance of play and the constructive use of leisure time for both nonhandicapped and handicapped persons is stressed, and a review of the literature provides documentation of the multiple positive effects of a leisure repertoire upon the adaptive behavior and community adjustment of the severely handicapped. A brief description of a model demonstration project to develop an innovative leisure curriculum component is introduced, emphasizing the scope, content and purpose of such training. Finally, selection criteria which might be useful to guide future teacher and care-giver decisions in the leisure domain are presented, and the role of parents and community care-givers in cooperative planning for leisure education is emphasized.

The ability to play—to occupy oneself constructively and pleasurably during free time—appears to develop vicariously in most persons. Children seem to naturally engage in explorations of persons and materials in their environment, with the quality of those interactions increasing in complexity as the child matures. Yet, we undoubtedly underestimate the extent to which children learn and are taught to play. The various social systems to which children are exposed present numerous opportunities for leisure activities and socialization experiences associated with play. Parents clearly recognize the necessity of engaging the infant in play, and structured programs during the early childhood period carefully incorporate the time and opportunity for play and social interaction. To some extent, our historical hesitation to structure academic experiences for the very young child reflects a philosophical bias that learning in a systematic fashion must follow the kinds of exploratory interactions with the environment which are characterized as play.

This work was supported in part by Contract No. 300-78-0043 from the Office of Special Education and Rehabilitative Services, U.S. Department of Education. Information regarding Ho'ouane'e's curriculum component may be obtained by writing to Luanna Voeltz, Department of Special Education, 1776 University Avenue UA1-3, University of Hawaii, Honolulu, Hawaii 96822.

A Functional Curriculum for Teaching Students with Disabilities: Interpersonal, competitive job-finding, and leisure-time skills Michael Bender, Peter J. Valletutti, 1996 A Handbook of Leisure Studies C. Rojek, S. Shaw, A.

Veal, 2006-06-20 A unique international resource for Leisure Studies in one volume the history organization and central debates in the field of Leisure Studies are defined providing a one stop shop for students and an agenda for future debate and research academics *Habilitation Planning for Adults with Disabilities* Robert L. Schalock, William E.

Kiernan, 2012-12-06 *Habilitation Planning for Adults With Disabilities* presents a comprehensive approach to habilitation planning and service delivery for adults with disabilities This book investigates the increased demands and expectations by adults with disabilities regarding personalized service and quality of life including independence productivity and community integration and discusses historical and current treatment and trends This book is presented in five main sections definitions and background material lifestyles and living work and recreational environments habilitation strategies personal growth and quality of life for the affected adult and the present and future trends in habilitation planning Rehabilitation personnel in the areas of administration assessment training case management or evolution applied psychologists and professionals and students in special education rehabilitation counseling human service or health administration will be interested in this volume

Handbook of Behavior Modification with the Mentally Retarded Johnny L. Matson, 2013-11-22 The development of behavior modification principles and procedures and the ensuing research have had a dramatic impact on services for mentally retarded persons This book is the second edition of a volume that is designed to update readers on some of these many developments Although many of the chapter titles and authors from the first edition remain unchanged we have added additional chapters to reflect new areas of research The book is thus a critical review of this literature and as such provides essential and important notions about what we know and what can be done to expand our current knowledge The authors of the chapters are all recognized experts who have been active in publishing in the research areas they critique As a result they have a good understanding of what are the major issues in the field And because they are also active in service provision to persons with identified handicaps their material will be especially useful to practitioners and it is hoped to those professionals who are working in the field in establishing data based treatments One important change in the field has concerned the terminology used to We are aware that persons with mental retardation describe handicapped persons are no longer referred to as the mentally retarded and although no disrespect is intended for the sake of continuity the original title has been retained on the advice of the publisher *A Literature Review*, 1986 **Exceptional Children**

Ronald L. Taylor, Les Sternberg, 2012-12-06 *Exceptional Children Integrating Research and Teaching* provides a com

prehensive introduction to the constantly changing area of special education. The book is research based and its title reflects our opinion regarding the important link between research and classroom practice. There is one feature of *Exceptional Children Integrating Research and Teaching* that warrants attention and perhaps justification: it was written specifically to address the graduate student or sophisticated undergraduate student market. As such, the book is written at a higher level and with a greater concept density than typical introductory special education texts. We feel that this type of book is very much needed and will be received favorably by the special education community. There are also several unique features of *Exceptional Children Integrating Research and Teaching* that we feel will be quite valuable. First, we have emphasized the area of teaching practices and not simply included basic facts about definitions, characteristics, and causes. Although some introductory texts include information about teaching considerations, that area is not discussed as in depth as it is in our text. We feel that it is important that readers not only understand the educational needs of exceptional children but also can identify the best educational practices to meet those needs.

A Literature Review President's Commission on Americans Outdoors (U.S.), 1986. *Lifelong Leisure Skills and Lifestyles for Persons with Developmental Disabilities* Stuart J. Schleien, 1995. After discussing how to select appropriate leisure activities, this book gives an excellent curriculum for leisure education.

Social Behavior in Autism Eric Schopler, Gary B. Mesibov, 2013-11-11. An important component of Division TEACCH's mandate from the Department of Psychiatry of the University of North Carolina School of Medicine and the North Carolina State Legislature is to conduct research aimed toward improving the understanding of developmental disabilities such as autism and to train the professionals who will be needed to work with this challenging population. An important mechanism to help meet these goals is our annual conference on topics of special importance for the understanding and treatment of autism and related disorders. As with the preceding books in this series entitled *Current Issues in Autism*, this most recent volume is based on one of these conferences. The books are not, however, simply published proceedings of conference papers. Instead, certain conference participants were asked to develop chapters around their presentations, and other national and international experts whose work is beyond the scope of the conference but related to the conference theme were asked to contribute manuscripts as well. These volumes are intended to provide the most current knowledge and professional practice available to us at this time.

Leisure Education: A Cross-National View Atara Sivan, Robert A. Stebbins, 2016-04-08. Leisure education plays a central role in both the field of leisure studies and the pursuit of leisure itself. Everywhere in the modern world, the most effective use of free time for individuals comes with knowing about the many leisure activities available to them and the rewards and costs that accompany their interest in each. It is through leisure education in one form or another that they gain such knowledge. Yet as important as this educational process is, its study is only beginning to take off in non-Western societies where, however, it cannot be assumed to be the same as in the West. This book contains several comparisons of Western and non-Western practices in leisure education. Knowing these practices

contributes ultimately to a deep understanding of the nature of the huge variety of leisure activities enjoyed across the planet and of the reasons why people go in for the ones they do This book was based on a special issue published in the World Leisure Journal

Severe Behavior Problems Vincent Mark Durand,1990-11-01 Problem behaviors often compound the already difficult task of improving the lives of persons with severe disabilities This important volume representing the culmination of more than a decade of clinical research presents the first complete description of the procedures used in Functional Communication Training a positive approach for reducing severe behavior problems The procedures described in this book have been validated by numerous empirical studies for use with children adolescents and adults who display behaviors as diverse as aggression self injury tantrums and bizarre psychotic speech Functional Communication Training involves teaching students how to communicate those basic wants and needs that they have previously sought to have fulfilled via their problem behavior They are taught to replace their challenging behavior with learned communication skills This book provides the practitioner with step by step instructions for implementing this effective approach A variety of assessment strategies are reviewed and described to assist in determining appropriate interventions The Motivation Assessment Scale one device designed to assess the function of problem behavior is outlined in detail and is accompanied with guidelines for its administration and interpretation Communication training is then detailed and illustrated using speech sign language and augmentative systems as examples Numerous case examples throughout illuminate both the assessment and intervention strategies Providing clear direction for ameliorating complex behavior problems this book will be valued by psychologists behavior analysts special educators and speech and language therapists It can be used as a text for advanced undergraduate courses on behavior management in psychology and special education and also serves as supplementary reading for courses on behavior modification or mental retardation developmental disabilities

Systematic Instruction of Persons with Severe Handicaps Martha E. Snell,1987

Promoting Self-determination in Students with Developmental Disabilities Michael L. Wehmeyer,2007-04-14 Affordable and complete this book provides evidence based strategies to promote self determination and is the first volume to combine both theory and practice in this area Because self determination is a key issue for students with moderate and severe disabilities this is an ideal resource for middle and secondary special educators school psychologists and other school practitioners

Resource Materials Center for Deaf-blind, Severely Handicapped, and Early Childhood Special Education Programs ,1985

Integrating Moderately and Severely Handicapped Learners Michael P. Brady,Philip L. Gunter,1985

Teaching the Moderately and Severely Handicapped: A functional curriculum for communication and socialization Michael Bender,1985

Design of High School Programs for Severely Handicapped Students Barbara Wilcox,G. Thomas Bellamy,1982

Encompassing vocational leisure and independent living domains across home school and community environments Design of High School Programs for Severely Handicapped Students focuses on preparing students for functioning in future work and

living environments and providing effective transition to those environments Here in this book is a comprehensive framework for the provision of quality secondary education to adolescence with severe handicaps Proposed new dimensions and qualities upon which education for severely handicapped high school students must be based confront the shortcomings of regular secondary education and the troubles of special education and look to a future of productivity independence and participation in community life for these students Back cover
