Look Now Pay Later The Rise Of Network Broadcasting:

Look Now, Pay Later Laurence Bergreen, 1981 Hollywood TV Christopher Anderson, 2013-10-11 The 1950s was one of the most turbulent periods in the history of motion pictures and television During the decade as Hollywood's most powerful studios and independent producers shifted into TV production TV replaced film as America's principal postwar culture industry This pioneering study offers the first thorough exploration of the movie industry's shaping role in the development of television and its narrative forms Drawing on the archives of Warner Bros and David O Selznick Productions and on interviews with participants in both industries Christopher Anderson demonstrates how the episodic telefilm series a clear descendant of the feature film became and has remained the dominant narrative form in prime time TV This research suggests that the postwar motion picture industry was less an empire on the verge of ruin as common wisdom has it than one struggling under unsettling conditions to redefine its frontiers Beyond the obvious contribution to film and television studies these findings add an important chapter to the study of American popular culture of the postwar period **Encyclopedia of Radio 3-Volume Set** Christopher H. Sterling, 2004-03 Produced in association with the Museum of Broadcast Communications in Chicago the Encyclopedia of Radio includes more than 600 entries covering major countries and regions of the world as well as specific programs and people networks and organizations regulation and policies audience research and radio's technology This encyclopedic work will be the first broadly conceived reference source on a medium that is now nearly eighty years old with essays that provide essential information on the subject as well as comment on the significance of the particular person organization or topic being examined *Encyclopedia of Television* Horace Newcomb, 2014-02-03 The Encyclopedia of Television second edition is the first major reference work to provide description history analysis and information on more than 1100 subjects related to television in its international context For a full list of entries contributors and more visit the Encyclopedia of Television 2nd edition website **In All His Glory** Sally Bedell Smith, 2012-02-29 He is to American broadcasting as Carnegie was to steel Ford to automobiles Luce to publishing and Ruth to baseball wrote The New York Times of William S Paley the man who built CBS the Tiffany Network Sally Bedell Smith's *In All His Glory* takes a hard look at Paley and the perfect world he created for himself revealing the extraordinary complexity of the man who let nothing get in the way of his vast ambitions Tracing his life from Chicago where Paley was born to a family of cigar makers to the glamorous haunts of Manhattan Smith shows us the shrewd demanding egoist the hedonist pursuing every form of pleasure the corporate strongman famous for his energy and ruthlessness Drawing on highly placed CBS sources and hundreds of interviews and with a supporting cast of such glittering figures as Truman Capote Slim Keith Jock Whitney Ted Turner David Sarnoff Brooke Astor and a parade of Paley's humiliated heirs *In All His Glory* is a richly textured story of business power and social ambition Praise for *In All His Glory* A sweeping study of the emergence of broadcasting the American immigrant experience and the ravenous personal and professional tastes of Paley as he charmed and clawed his

way to the top of society Los Angeles Times Riveting packed with revelations rich in radio and TV lore sprinkled with intrigues glitz and wheeling and dealing at the highest levels of media and government Publishers Weekly An impressive meticulously researched work of broadcast history as well as a piquant glimpse inside CBS's corporate culture Time

Perspectives on American Music, 1900-1950 Michael Saffle, 2000 First Published in 2000 Routledge is an imprint of Taylor Francis an informa company Supreme City Donald L. Miller, 2015-05-19 An award winning historian surveys the astonishing cast of characters who helped turn Manhattan into the world capital of commerce communication and entertainment When Television was Young Paul Rutherford, 1990-01-01 A decade after the first Canadian telecasts in September 1952 TV had conquered the country Why was the little screen so enthusiastically welcomed by Canadians Was television in its early years more innovative less commercial and more Canadian than current offerings In this study of what is often called the golden age of television Paul Rutherford has set out to dispel some cherished myths and to resurrect the memory of a noble experiment in the making of Canadian culture He focuses on three key aspects of the story The first is the development of the national service including the critical acclaim won by Radio Canada the struggles of the CBC's English service to provide mass entertainment that could compete with the Hollywood product and the effective challenge of private television to the whole dream of public broadcasting The second deals with the wealth of made in Canada programming available to please and inform viewers even commercials receive close attention Altogether Rutherford argues Canadian programming reflected as well as enhanced the prevailing values and assumptions of the mainstream The final focus is on McLuhan's Question What happens to society when a new medium of communications enters the picture Rutherford's findings cast doubt upon the common presumptions about the awesome power of television Television in Canada Rutherford concludes amounts to a failed revolution It never realized the ambitions of its masters or the fears of its critics Its course was shaped not only by the will of the government the power of commerce and the empire of Hollywood but also by the desires and habits of the viewers **Why the Jews?** Robert Cherry, 2021-04-15 At the beginning of the twentieth century Jewish immigrants upended Protestant control of vaudeville and the silent film industry This book rejects the commonly held explanations for this shift Jewish commercial acumen and their desire to assimilate Instead this book argues that the pleasure principle a positive view of bodily pleasures and sexuality that Jewish immigrants held gave rise to the role of Jewish influence on popular culture an influence still felt today After discussing the pivotal ascendancy of Jews in vaudeville and silent films Cherry explores the important role that Jewish performers and middlemen played in the evolution of popular culture throughout the century from stage and the big screen to radio television and the music industry He concludes with a broader discussion of Jewish values that helps explain the continued outsized role that Jews continue to play in American popular culture **Dark Victory** Dan E. Moldea, 2017-04-18 A smoldering indictment of the corrupt influences that rescued Ronald Reagan's career made him millions and shaped his presidency Library Journal Founded in

1924 the Music Corporation of America got its start booking acts into speakeasies run by such notorious Chicago mobsters as Al Capone. How then in only a few decades did MCA become the driving force behind music publishing, radio recording artists, Hollywood, and the burgeoning television industry? Enter Ronald Reagan. By the late 1950s Reagan was a pass movie actor. As president of the Screen Actors Guild, he was also MCA's key client. With Reagan's help, MCA would become the most powerful entertainment conglomerate in the world. And with MCA's help, Reagan would secure a fortune resulting in a federal grand jury hearing be marketed to the public as a viable politician and ascend to the presidency of the United States. But according to reporter Dan E. Moldea, there had always been another catalyst behind MCA's ties to organized crime that reached back to the company's inception and through Reagan's Teamster-backed candidacy had never been severed. From the author of *The Hoffa Wars*, this is an epic and serpentine investigation into the insidious links among Hollywood, the Mob, and politics. Based on research of six thousand pages of previously classified documents including the entirety of Reagan's grand jury testimony, Moldea has through sheer tenacity amassed an avalanche of ominous and unnerving facts. *Dark Victory* is a book about power, ego, and the American way. Moldea has shown us what we don't want to see. Los Angeles Times

Forbidden Bookshelf Presents Dan E. Moldea Dan E. Moldea, 2018-10-23 Three exposés of corruption behind the NFL, the Teamsters, and Jimmy Hoffa and Ronald Reagan from an investigative reporter who never relents. *The Washington Post*: Interference. A shocking exposé of widespread corruption and mob influence throughout the National Football League on the field, in the owners' boxes, and in the corporate suites. A true and terrifying picture of a business whose movers and shakers seem to have more connections to gambling and the mob than to touchdowns and Super Bowls. Keith Olbermann: *The Hoffa Wars*. The definitive portrait of the powerful, corruption-ridden Teamsters union and its legendary president Jimmy Hoffa, organizer, gangster, convict, and conspirator whose disappearance in 1975 remains one of the great unsolved mysteries. Mr. Moldea's view of the Hoffa wars, which reached its greatest intensity when Robert Kennedy was Attorney General, may explain not only Mr. Hoffa's disappearance but the assassination of John Kennedy as well. *The Wall Street Journal*: *Dark Victory*. A smoldering indictment of the corrupt influences that rescued Ronald Reagan's acting career, made him millions, resulting in a federal grand jury hearing backed his political career and shaped his presidency. *Library Journal*: Moldea has through sheer tenacity amassed an avalanche of ominous and unnerving facts. *Dark Victory* is a book about power, ego, and the American way. The Only Constant Is Change Ben Epstein, 2018-04-02 Over the course of American political history, political elites and organizations have often updated their political communications strategies in order to achieve longstanding political communication goals in more efficient or effective ways. But why do successful innovations occur when they do, and what motivates political actors to make choices about how to innovate their communication tactics? Covering over 300 years of political communication innovations, Ben Epstein shows how this process of change happens and why. To do this, Epstein, following an interdisciplinary approach, proposes a new model called the political communication cycle that accounts for the

technological behavioral and political factors that lead to revolutionary political communication changes over time These changes at least the successful ones have been far from gradual as long periods of relatively stable political communication activities have been disrupted by brief periods of dramatic and permanent transformation These transformations are driven by political actors and organizations and tend to follow predictable patterns Epstein moves beyond the technological determinism that characterizes communication history scholarship and the medium specific focus of much political communication work The book identifies the political communication revolutions that have in the United States led to four relatively stable political communication orders over history the elite mass broadcast and the current information orders It identifies and tests three phases of each revolutionary cycle ultimately sketching possible paths for the future The Only Constant is Change offers readers and scholars a model and vocabulary to compare political communication changes across time and between different types of political organizations This provides greater understanding of where we are currently in the recurring political communication cycle and where we might be headed

A Word from Our Sponsor Cynthia B. Meyers, 2013-12-01 During the golden age of radio from roughly the late 1920s until the late 1940s advertising agencies were arguably the most important sources of radio entertainment Most nationally broadcast programs on network radio were created produced written and or managed by advertising agencies for example J Walter Thompson produced Kraft Music Hall for Kraft Benton and Young agency records of BBDO Benton contemporaneous trade publications and the voluminous correspondence between NBC and agency executives in the NBC Records at the Wisconsin Historical Society Mediating between audiences desire for entertainment and advertisers desire for sales admen combined showmanship with salesmanship to produce a uniquely American form of commercial culture In recounting the history of this form Meyers enriches and corrects our understanding not only of broadcasting history but also of advertising history business history and American cultural history from the 1920s to the 1940s

Century of the Leisured Masses David

George Surdam, 2015-01-02 American living standards improved rapidly during the twentieth century The rise of leisure both in terms of time allotted and in terms of consumption of leisure goods and services was astounding When social critic Thorstein Veblen penned Theory of the Leisured Class Americans were just beginning to enjoy more and better leisure In Century of the Leisured Masses David George Surdam explores the growing role played by leisure in the daily lives of Americans and what factors contributed to this change NASA 50th Anniversary Proceedings: NASA's First 50 Years: Historical Perspectives Steven J. Dick, National Aeronautics and Space Administration, 2010-07-07 On 29 July 1958 President Dwight D Eisenhower signed the National Aeronautics and Space Act creating the National Aeronautics and Space Administration NASA which became operational on 1 October of that year Over the next 50 years NASA achieved a set of spectacular feats ranging from advancing the well established field of aeronautics to pioneering the new fields of Earth and space science and human spaceflight In the midst of the geopolitical context of the Cold War 12 Americans walked on the Moon arriving in peace for all mankind Humans saw their home planet from a new perspective with unforgettable Apollo images of Earthrise and the Blue Marble as well as the pale blue dot from the edge of the solar system A flotilla of spacecraft has studied Earth while other spacecraft have probed the depths of the solar system and the universe beyond In the 1980s the evolution of aeronautics gave us the first winged human spacecraft the Space Shuttle and the International Space Station stands as a symbol of human cooperation in space as well as a possible way station to the stars With the Apollo fire and two Space Shuttle accidents NASA has also seen the depths of tragedy In this volume a wide array of scholars turn a critical eye toward NASA's first 50 years probing an institution widely seen as the premier agency for exploration in the world carrying on a long tradition of exploration by the United States and the human species in general Fifty years after its founding NASA finds itself at a crossroads that historical perspectives can only help to illuminate **The Politics of Transnational**

Television Austin Ogunsuyi, 2004-05-29 The central focus of this study is to provide an improved basis for articulating the politics of transnational television and its potentials for improving relations among nations In this context the politics of transnational television means the decision making process that determines the degree of freedom of the press tolerated by individual governments and how that could affect broadcasting mode and attitudes toward other nations The motivation for this research stems from a conviction that the cultural imperialism perspective on the nature and modes of transnational television are erroneous and therefore susceptible to a wide and often misleading theoretical assumption with wide ranged implications In reevaluating the concept of cultural imperialism some fundamental questions are raised to determine to what extent its arguments are true Using the elite theory of power in various societies aided by Johan Galtung's model of a global communication in four worlds we see a pattern of global television that suggests a similar motivation underlying media ownership in all societies We acknowledge with the support of a literature review and other data sources the existence of a global systemic order where technology rich nations dominate technology over poor nations But there is also substantial

evidence to prove some of the poorer nations exercise some degree of autonomy This makes it more difficult to explain cultural imperialism simply as a relationship where developed and developing nations are arranged in dominant subordinate or top down order Through a strategy of original intent we are able to show the elite in various societies acquire television mainly to satisfy their political economic or social interest Media attitudes therefore are largely the ideological expression of local elite who determines foreign policy From Mainframes to Smartphones Martin Campbell-Kelly, Daniel D. Garcia-Swartz, 2015-06-08 This compact history traces the computer industry from 1950s mainframes through establishment of standards beginning in 1965 to personal computing in the 1980s and the Internet s explosive growth since 1995 Martin Campbell Kelly and Daniel Garcia Swartz describe a steady trend toward miniaturization and explain its consequences

Hollywood in the Age of Television Tino Balio, 2013-12-17 This collection of papers examines the evolving relationship between the motion picture industry and television from the 1940s onwards The institutional and technological histories of the film and TV industries are looked at concluding that Hollywood and television had a symbiotic relationship from the start Aspects covered include the movement of audiences the rise of the independent producer the introduction of colour and the emergence of network structure cable TV and video recorders Originally published in 1990 **Loss of Innocence** Melvin E. Matthews Jr., 2019-05-01 America was certainly the big winner of World War II being the last major country intact Euphoria hubris and a naive self confidence became hallmarks of the people This hubris was dented a bit in the 1950s when scandals erupted around the TV quiz shows that made everyoe feel so smart and the U 2 spy incident of 1960 that revealed Americans were being lied to by the government The book argues that these two events began the credibility gap that engulfed the nation later in the 1960s and continues to haunt us to this day When the War ended the United States still had its economy infrastructure and industry intact Taking up where the British Empire left off the powerful new America expanded its influence around the globe Suddenly light years ahead of any competitor Americans abandoned themselves to a haze of consumerism and entertainment trusting that they were safe and could not be harmed The contestants on the big money quiz shows turned out to be fakes and the respected TV executives were also revealed to be liars and cheats Far worse was yet to come The United States government was caught in a lie regarding the CIA s U 2 reconnaissance planes overflying the Soviet Union On the eve of a crucial summit meeting in 1960 the USSR knocked Gary Powers out of the sky along with plenty of incriminating hardware and data Moscow delayed revealing what it knew and Washington spent ten days denying it was a spy plane then denying that President Eisenhower was aware of it The world was turning into a very scary place and soon American schoolchildren were being taught to duck under their desks if a bomb should strike Fear began to percolate into the heart of the nation
