Misemer,2010 Many critical shifts in concepts of time and society's consciousness of modernity were derived from the railway and World Standard Time in the nineteenth century These innovations restructured the way people viewed the world and dealt with public and private time The forward projectile motion along a linear track mimicked the passage of public chronological time Conversely the train also invoked a private nostalgic view of time as the traveler was yanked from his/her traditional view of the space-time continuum via the train's velocity Travelers observed the landscape disappear in their backward glance from the window although the landscape and interior compartment's space remained stagnant This optical illusion caused passengers to perceive the world in new ways Thus the train unveils a conflictive blend of nostalgia and progress in the River Plate as these countries move forward but look back

The Christena Disaster Forty-Two Years Later--Looking Backward, Looking Forward Whitman T. Browne,2013-04 On a sunny afternoon in August of 1970 the Eastern Caribbean was without warning confronted with a terrible and tragic event The Christena a well used ferry that regularly crossed the eleven mile expanse between the twin islands of St Kitts and Nevis sank The two British colonial societies were suddenly thrown into turmoil finding themselves unprepared to deal with such sudden tragedy The ferry was registered to carry 155 passengers but it was severely overloaded While ninety nine people survived that afternoon nearly 250 other passengers perished disaster As if their struggle to heal after the tragedy was not taxing enough the islands had yet more adversity to conquer However both societies were determined to overcome that terrible event even as they fought to achieve greater political independence Told from the perspective of Whitman T Browne PhD a native of Nevis who lived on the island at the time of the tragedy The Christena Disaster Forty Two Years Later is a moving firsthand account of how these sister communities banded together not only to win their political autonomy but also to overcome their emotional suffering as a result of greater tragedy

Walking Forward, Looking Back Dinah Latham,2014-10-28 The book tells the story of a retired district nurse and midwife reflecting on her life whilst walking with her close companion Harriet the dog It is a touchingly honest work written straight from the heart The reader will both laugh and cry as the author recounts many moving stories of patients cared for in 1960s London The writings so patently contrast care in the community then and now that it becomes impossible not to regret the passing of a time when nursing was seen as a vocation when nurses were proud to serve Divorce and single parenthood accompany her career journey while living alone escorts her into retirement It is then that fortune takes a hand or rather a paw and brings Harriet the dog into her life This may just have been the coming together of chance and good timing but destiny or happy accident it was certainly a blessing It was her need to be taken on daily walks that finds our author evoking memories randomly flicking through a lifetime of unwritten diaries Together they share their walks taking the reader through the changing seasons of the Chiltern countryside while also travelling a new pathway one with an unfamiliar landscape a one way journey into growing old This is a voyage of discovery one that promises many unexpected new experiences not the least of which is their most recent pastime sheepherding

Looking Back to Look Forward Niels De Nutte,Bert Gasenbeek,2019-11-13 The number of secular people has increased substantially over the past several decades and research on secularism and non religion has been on the rise these past years Yet until today no publication had examined the evolution of organised freethought and subsequent secular humanism as it emerged in different Western countries in a comparative perspective In this book a team of historians brings together the histories of secular humanism in some pioneer countries They examine how organised freethought evolved in the Netherlands Belgium Great Britain and the United States in the aftermath of World War II As secular humanist organisations in these countries are some of the cofounders and long lasting members of Humanists International formerly International Humanist and Ethical Union this book reveals how Western humanism developed in different circumstances *In Pursuit of Foresight* Mike Lauder,2016-05-23 Many inquiry reports blame management for their failures of foresight These reports are based on the premise that with a little more thought these oversights and so the crisis would have been avoided Is it really that simple The important question is whether without hindsight it would have even been possible to identify the actual factors that lead to the failure This book explores this issue as a practical problem The book takes Barry Turner s Disaster Incubation Theory as its central theme The first chapter explores the way Turner structured his theory and the way it has been used before re imagining it as a way to fostering foresight The next three chapters examine key issues in detail They explain why Turner s model was chosen outline the issues that need to be considered when seeking to prevent such failures and how to use the proposed frameworks Chapter 5 examines the lessons learnt from this study and in particular looks at the mental approach required when seeking such foresight Finally Chapter 6 provides a fully worked example It uses work by Frank Stech who has applied Turner s theory to a past case Crises occur everywhere and we continue to struggle to avoid them In this book Mike Lauder provides executives with thinking tools to help them avoid missing the warning signs of their next crisis

Ollie Fobbs,2013-08-07 Gaining power with God was a thought process that would not go away no matter how much I wanted it to it just got bigger and bigger finally I began to write I thought I lost the book when my computer died but I was amazed to find it on my external hard drive *Debating Race, Ethnicity, and Latino Identity* Iván Jaksic,2015-07-07 The philosopher Jorge J E Gracia engages fifteen prominent scholars on race ethnicity nationality and Hispanic Latino identity in the United States Their discussion joins two distinct traditions the philosophy of race begun by African Americans in the nineteenth century and the search for an understanding of identity initiated by Latin American philosophers in the sixteenth century Participants include Linda M Alcoff K Anthony Appiah

Richard J Bernstein Lawrence Blum Robert Gooding Williams Eduardo Mendieta and Lucius T Outlaw Jr and their dialogue reflects the analytic Aristotelian Continental literary Marxist and pragmatic schools of thought These intellectuals start with the philosophy of Hispanics Latinos in the United States and then move to the philosophy of African Americans and Anglo Americans in the United States and the philosophy of Latin Americans in Latin America Gracia and his interlocutors debate the nature of race and ethnicity and their relation to nationality linguistic rights matters of identity and Affirmative Action binding the concepts of race and ethnicity together in ways that open new paths of inquiry Gracia s Familial Historical View of ethnic and Hispanic Latino identity operates at the center of each of these discussions providing vivid access to the philosopher s provocative arguments while adding unique depth to issues that each of us struggles to understand

Two-World Literature Rebecca Suter, 2020-05-31 In this study Rebecca Suter aims to complicate our understanding of world literature by examining the creative and critical deployment of cultural stereotypes in the early novels of Kazuo Ishiguro World literature has come under increasing scrutiny in recent years Aamir Mufti called it the result of one world thinking the legacy of an imperial system of cultural mapping from a unified perspective Suter views Ishiguro s fiction as an important alternative to this paradigm Born in Japan raised in the United Kingdom and translated into a broad range of languages Ishiguro has throughout his career consciously used his multiple cultural positioning to produce texts that look at broad human concerns in a significantly different way Through a close

reading of his early narrative strategies Suter explains how Ishiguro has been able to create a two world literature that addresses universal human concerns and avoids the pitfalls of the single Western centric perspective of one world vision Setting his first two novels *A Pale View of Hills* 1982 and *An Artist of the Floating World* 1986 in a Japan explicitly used as a metaphor enabled Ishiguro to parody and subvert Western stereotypes about Japan and by extension challenge the universality of Western values This subversion was amplified in his third novel *The Remains of the Day* 1989 which is perfectly legible through both English and Japanese cultural paradigms Building on this subversion of stereotypes Ishiguro's early work investigates the complex relationship between social conditioning and agency showing how characters behavior is related to their cultural heritage but cannot be reduced to it This approach lies at the core of the author's compelling portrayal of human experience in more recent works such as *Never Let Me Go* 2005 and *The Buried Giant* 2015 which earned Ishiguro a global audience and a Nobel Prize Deprived of the easy explanations of one world thinking readers of Ishiguro's two world literature are forced to appreciate the complexity of the interrelation of individual and collective identity personal and historical memory and influence and agency to gain a more nuanced two world appreciation of human experience
