Looking West Three Essays On Swedish American Life:

Looking West, 1963 **Looking West** Jules Mauritzson, 1994 This book contains three essays on Swedish and Swedish American topics **The Creation of an Ethnic Identity** Blanck, Dag, 2006 In his book Dag Blanck analyzes how Swedish American identity was constructed maintained and changed in the Augustana Synod from 1860 to 1917 The author poses three fundamental questions How did an ethnic identity develop in the Augustana synod Of what did that ethnic identity consist Why did that ethnic identity come into being summary Provided by publisher **Pole Raising and Speech Making** Jennifer Eastman Attebery, 2015-11-01 In Pole Raising and Speech Making author Jennifer Eastman Attebery focuses on the beginnings of the traditional Scandinavian Midsummer celebration and the surrounding spring to summer seasonal festivities in the Rocky Mountain West during the height of Swedish immigration to the area 1880 1917 Combining research in folkloristics and history Attebery explores various ways that immigrants blended traditional Swedish Midsummer related celebrations with local civic celebrations of American Independence Day on July 4 and the Mormons Pioneer Day on July 24 Functioning as multimodal observances with multiple meanings these holidays represent and reconsider ethnicity and panethnicity sacred and secular relationships and the rural and the urban demonstrating how flexible and complex traditional celebrations can be Providing a wealth of detail and information surrounding little studied celebrations and valuable archival and published primary sources diaries letters speeches newspaper reports and images Pole Raising and Speech Making is proof that non English immigrant culture must be included when discussing American culture It will be of interest to scholars and graduate students in ethnic studies folklore ritual and festival studies and Scandinavian American cultural history **Swedish-American Historical Quarterly**, 1998 *The Swedish-American Historical Quarterly*, 1998 Becoming Swedish-American Dag Blanck, 1997 **Aspects of Augustana and Swedish America** Raymond Jarvi, 1995 *New Books in the Reference Library of the Swedish Information Service*, 1994 *American National Biography*, 1999 *Publication*, 1994 *Books in Print*, 1991 **A Saloonkeeper's Daughter** Drude Krog Janson, 2002-03 With this edition of A Saloonkeeper's Daughter an important and prescient work of American fiction is finally available in English *Suecana extranea*, 1994 **"A" Critical Dictionary of English Literature and British and American Authors, Living and Deceased, from the Earliest Accounts to the Latter Half of the Nineteenth Century** S. Austin Allibone, 1891 *Books In Print* 2004-2005 Ed Bowker Staff, Staff Bowker, Ed, 2004 **The Evolution**, 1877 *Commercial West*, 1907 Beyond Imagined Uniqueness William Glass, 2010-08-11 Beyond Imagined Uniqueness Nationalisms in Comparative Perspectives is a collection of essays from a variety of disciplines and theoretical perspectives that explore the contentious issue of nationalism in historical and contemporary settings They adopt an interdisciplinary approach to the topic of nationalism and its permutations and modes of expression The unspoken context of these essays is the trends subsumed under the processes of globalization Though the world may be becoming more integrated economically

these essays suggest social cultural and political forces historically rooted keep the nation and national identity alive and well. The comparative perspectives offered by the essays appear in two ways: one set is the explicit comparisons of nations made by several authors within their essays and between the essays themselves when the authors focus on developments within a single nation. A second and indeed more thought provoking set of comparisons come from the way the essays address nationalism in disparate scholarly approaches that include visual culture, history, sociology, and literature. Moreover, while traditional themes in the study of nationalism are not ignored, these essays expand the discussion with case studies of nationalism in Turkey, Asia, and Eastern Europe. Even when nationalism is considered in those areas that have been the central focus of nationalism studies, Western Europe and the USA, the authors bring unique voices to the conversation, as in the use of portraiture as a vehicle of nationalism in Cold War America or children's literature shaping a Swedish American identity or in the idea of a covenant as a source of Dutch nationalism or the role of minority languages in West European societies. Section One of this volume contains essays that examine the terrain of the national imaginary through language, monuments, and visual culture. Several of the essays in this traverse the cultural sites of representation and commemoration of the nation, looking carefully at the politics of memory in places, material objects, and texts. Section Two provides more individual case studies of nations, though many of these essays engage significant regional and international tensions, especially in a post Cold War world that has often influenced the internal dynamics of nation building. Section Three moves the focus away from the nation to immigrant communities, especially those in the United States, Canada, and the Caribbean. Diasporas throughout the world have challenged many theories about the nation as crossing borders becomes the norm rather than the exception. **Spectator [Philadelphia]. An American Review of Insurance**, 1907
