Pragmatics across Languages and Cultures Anna Trosborg, 2010-08-31 This handbook provides a comprehensive overview as well as breaking new ground in a versatile and fast growing field It contains four sections Contrastive Cross cultural and Intercultural Pragmatics Interlanguage Pragmatics Teaching and Testing of Second Foreign Language Pragmatics and Pragmatics in Corporate Culture Communication covering a wide range of topics from speech acts and politeness issues to Lingua Franca and Corporate Crises Communication The approach is theoretical methodological as well as applied with a focus on authentic interactional data All articles are written by renowned leading specialists who provide in depth up to date overviews and view new directions and visions for future research Handbook of Research on Effective Marketing in Contemporary Globalism Christiansen, Bryan, Yıldız, Salih, Yıldız, Emel, 2014-06-30 The 21st century has brought about many changes in the economic realm due to acceleration of globalization The competitive landscape in numerous areas must always be reinvented to account for these changes therefore making different marketing efforts a requirement for long term success The Handbook of Research on Effective Marketing in Contemporary Globalism provides readers with an understanding of the importance of marketing products and services across different cultures and languages in an era of high global competition Intensified globalization shifting demographics and rapid innovations in technology and productivity solidify this publication's importance to scholar practitioners business executives and undergraduate graduate students Media Consumption and Everyday Life in Asia Youna Kim, 2008-06-30 This book explores people's everyday experience of the media in Asian countries in confrontation with huge social change and transition and the need to understand this phenomenon as it intersects with the media It argues for the centrality of the media to Asian transformations in the era of globalization The profusion of the media today with new imaginations new

choices and contradictions generates a critical condition for reflexivity engaging everyday people to have a resource for the learning of self culture and society in a new light Media culture is creating new connections new desires and threats and the identities of people are being reworked at individual national regional and global levels Within historically specific social conditions and contexts of the everyday the chapters seek to provide a diversity of experiences and understandings of the place of the media in different Asian locations This book considers the emerging consequences of media consumption in people s everyday life at a time when the political socio economic and cultural forces by which the media operate are rapidly globalizing in Asia

Understanding Global Cultures Martin J. Gannon, 2004 Understanding Global Cultures Third Edition presents the cultural metaphor as a method for understanding the cultural mindsets of a nation a cluster of nations and even of a continent This method involves identifying some phenomenon activity or institution of a culture that all or most of its members consider important and with which they identify closely Metaphors are not stereotypes rather they rely upon the features of one critical phenomenon of a culture to describe the entire culture The characteristics of the metaphor then become the basis for describing and understanding the essential features of the culture For example the Italians invented the opera and love it passionately Five key characteristics of the opera are the overture spectacle and pageantry voice externalization and the interaction between the lead singers and the chorus These features are used to describe Italy and its cultural mindset Thus the metaphor is a guide or map that helps such outsiders as students travelers and managers on short term and long term assignments understand quickly what members of a culture consider important

professional literature and more Resources and suggestions are given for all three types of libraries public school and academic making this book valuable for all librarians The demographics of each Asian culture numbers and distribution plus history of immigration and international student enrollment is also featured As a bonus each chapter spotlights a US public school and academic library providing model outreach to Asian library users Additionally this book provides a detailed description and analysis of libraries in each of the 24 Asian countries The history development facilities conditions technology classification systems and more of public school and academic libraries are all discussed with detailed documentation Country conditions influencing libraries and library use are also described literacy levels reading cultures languages and writing systems educational systems and more Based on the author s 15 years of research and travels to Asia this work is a must have for all librarians 21st Century Communication: A Reference Handbook William F.

Eadie,2009-05-15 Highlights the most important topics issues questions and debates affecting the field of communication in the 21st Century Second Language Acquisition as a Mode-Switching Process Sooho Song,2017-08-31 This book analyses processes of mode switching in second language acquisition as they relate to Korean learners of English In this empirical study the author examines how native language influences and shapes usage of second language particularly when the two are so dramatically different both in terms of grammar and the cultures in which they are anchored Learning to speak English she argues entails switching from the formulaic to the strategic mode so that varying speaking norms and linguistic values are fully understood This results in a mode switch towards the target culture This intriguing book will be of interest to students and scholars of applied linguistics sociolinguistics and English language education Subcultures, Bodies and Spaces Samantha Holland,Karl Spracklen,2018-09-28 This edited collection provides sociological and cultural research that expands our understanding of the alternative liminal or transgressive theorizing the status of the alternative in contemporary culture and society **Computational Psychiatry** Rodrick Wallace,2017-04-20 This book explores mental disorders from a uniquely evolutionary perspective Although there have been many attempts to mathematically model neural processes and to some extent their dysfunction there is very little literature that models mental function within a sociocultural socioeconomic and environmental context Addressing this gap in the extant literature this book explores essential aspects of mental disorders recognizing the ubiquitous role played by the exaptation of crosstalk between cognitive modules at many different scales and levels of organization the missing heritability of complex diseases and cultural epigenetics Further it introduces readers to valuable control theory tools that permit the exploration of the environmental induction of neurodevelopmental disorders as well as the study of the synergism between culture psychopathology and sleep disorders offering a distinctively unique resource The Motives of Self-Sacrifice in Korean American Culture, Family, and Marriage Chul Woo

Son,2014-01-24 The concept of self sacrifice is highly important to Korean Americans With hierarchy of age social status and gender defined roles taking primacy over equality and justice self sacrifice becomes instrumental in maintaining family and

social relationships Unfortunately in family relationships sacrifice has more to do with submission and endurance than it does with sacrificial service that is redemptive and mutually beneficial When self sacrifice carries hidden motives coercive responsibility obligation shame guilt or one's reputation that self sacrifice is not self giving neither serving nor being of mutual benefit In this context it is important to explore the attitudes and motives of self sacrifice in Korean American families In unlocking and exploring the dynamics of the theology and practice of self sacrifice for Korean Americans this book explores cultural virtues marital relationships gender inequality domestic violence and their theological implications The author introduces a new approach and model with a proposal for a healthier and a more judicious understanding of self sacrifice for Korean American family relationships The element of equal regard as pertaining to self sacrifice offers Korean Americans a refreshing hope in the perspective of familial relationships and a liberating casting off of culturally and religiously imposed burdens The Korean American family ought to be grounded on a love ethic of equal regard and place its value on mutuality self sacrifice and individual fulfillment When this is done sacrificial love can be understood as justly appropriated for both husbands and wives males and females and parents and children Thus Christian teaching and theology may deliver a more transparent message of true agape and its liberating effects for the marginalized especially women and children
