Copyright Office,1976 **Liang Shuming and the Populist Alternative in China** Catherine Lynch,2018-05-01 In Liang Shuming and the Populist Alternative in China Catherine Lynch offers an alternative understanding of Liang Shuming s work While the current work on Liang suggests a connection to other Asian philosophical traditions like Confucianism and Buddhism this new work argues that Liang s work is an important part of the evolution of

the modern Chinese thought and examines the role of populist ideas in the development of Liang's thinking. In addition to Liang's writings, this reading of Liang relies on lengthy interviews the author completed with Liang as well as with people associated with Liang. This book adds a new perspective based on access the author had to Liang while he was still alive.

For the Glory of God Richard H. Jones, 2012-06-07 *For the Glory of God* addresses key questions regarding the connection between religion and science. Richard H. Jones investigates whether ideas from the Bible and Christian theology have played a significant role in the development of modern scientific theories. If so, has the role always been positive or negative? In this regard, does religion have the epistemic right to control science or to offer an alternative Christian science to mainstream science? Is creationism or intelligent design a science on the same footing with neo-Darwinism? Is the integrity of science today in danger of religious control? In this volume, Jones provides an illuminating history of the role of Christian ideas in the physical and biological sciences from the Middle Ages to today. He reveals the failure of the popular war and harmony models for the relation of religion and science and shows that a control model does work to explain the complex history of religion and science.

The Jewish-Chinese Nexus M. Avrum Ehrlich, 2008-06-26 This book is concerned with the areas where Jews and Chinese Judaism and Chinese religions and ideologies are converging or interrelate to each other. It includes chapters on Confucianism, the Kaifeng Jewish Descendants, business, and Chinese-Israeli relations.

A Daoist Theory of Chinese Thought Chad Hansen, 2000-08-17 This ambitious book presents a new interpretation of Chinese thought guided both by a philosopher's sense of mystery and by a sound philosophical theory of meaning. That dual goal, Hansen argues, requires a unified translation theory. It must provide a single coherent account of the issues that motivated both the recently untangled Chinese linguistic analysis and the familiar moral-political disputes. Hansen's unified approach uncovers a philosophical sophistication in Daoism that traditional accounts have overlooked.

Modern Chinese Theologies Chloë Starr, 2024 The third volume in the series *Modern Chinese Theologies* expands the scope of China and Chinese theology. It addresses two distinct groups: scholarship by mainland Chinese academics and the writings of Chinese-speaking theologians beyond China, including the diasporic Sinophone worlds of East and Southeast Asia.

Postcolonial Resistance and Asian Theology Simon Kwan, 2013-11-07 Presenting a fundamental rethinking of Asian theology, this book focuses on theological indigenization in Asia in light of the postcolonial theory of resistance advanced by Homi K. Bhabha, among others. Two types of anti-colonialist resistance within Asian theologies are identified and interrogated. The first is nationalistic in kind, operating from a theological language that is binaristic and oppositional. The second is illustrated by that which was mounted by the three Chinese Christian thinkers whose indigenous theologies are analysed in this book as case studies. This second kind, postcolonial in its character, is characterized by collaboration rather than antagonistic binarism. In spite of much dissimilarity between these two kinds of resistance, the book argues that they are similarly anti-colonialist and both can be equally valid in resisting colonial forces. Given that the binarism and antagonism imbedded in the Asian theological movement are historically

contingent and that the sole reliance on this resistance has made the movement self ensnaring the book suggests that the Asian theological movement widen its choice of colonial resistant strategies Drawing attention to the otherwise subtle politics of the Asian theological indigenization discourse this book addresses the relationship between postcolonialism and Asia contextual theology and is of interest to students and scholars of Asian Religion and Philosophy

Civilization and the Chinese Body Politic Yongnian Zheng,2022-11-22 In this important and hugely ambitious book one of the world s leading political scientists working on China demonstrates how Western views of China are flawed because the long tradition of Western scholarship studying China views China from the Western philosophical and intellectual perspective rather than viewing China on its own terms through the lens of China s own long established and reputable philosophical and intellectual tradition Providing a deep analysis of Western scholarship on China including work from Leibniz to Marx to Weber and then to Wittfogel and a thorough account of the evolution of China s own thinking about governance as expressed in the practices of successive Chinese dynasties the book goes on to examine how the current Chinese body politic fits with and is the natural outcome of China s own long well thought through and well practiced intellectual consideration of what the nature of civilized governance should be By focusing on philosophical and intellectual approaches rather than on theoretical or methodological ones the book shows how the huge and increasing disconnect between non Chinese views of China and Chinese ones has come about

Chinese Spirit-Medium Cults in Singapore Alan Elliott,2020-08-19 The concentration of this monograph on Chinese spirit mediumship in Singapore is chiefly a device for focussing attention upon the most typical although rather extreme manifestation of the major religious orientation of the overseas Chinese The accounts given here may chiefly be of value as a detailed record of religious rites but it is hoped that the rites shown in their institutional context can also throw some light upon the wider ramifications of culture and society among the Chinese

Current Religious Thought ,1902 *Christianity and Imperial Culture* Xiaochao Wang,1998 This book studies the writings of the seventeenth century Chinese Christian apologist Xu Guangqi comparing them with those of early Latin Christian apologists in Europe to explore problems within the historical inculturation of Christianity in China

The East-West Dimension David Krus, **The Quest of the Historical Jesus** Albert Schweitzer,2001-01-01 This groundbreaking work which established the reputation of Albert Schweitzer as a theologian traces the search for the historical figure of Jesus apart from the Christ of faith and establishes the author s own views
