Human dignity and welfare systems Chan, Chak Kwan, Bowpitt, Graham, 2005-10-19. Pro workfare governments justify their policies by claiming workfare helps enhance self-esteem and promote the dignity of unemployed recipients. On the other hand, welfare activists argue that workfare suppresses the dignity of unemployed persons. This book examines the concept of human dignity in this context and attempts to clarify its meaning. For the first time, it formulates a framework for evaluating the dignity of welfare recipients, uses this framework to explore the dignity of unemployed persons in four different welfare systems: UK, Sweden, China, and Hong Kong, and compares the conditions of human dignity in each case and identifies factors which enhance or suppress it. *Human dignity and welfare systems* is important reading for students and academics in the fields of social policy, social work, philosophy, and politics. It is also a useful reference text for politicians, welfare administrators, and activists.

A Daoist Theory of Chinese Thought Chad Hansen, 2000-08-17. This ambitious book presents a new interpretation of Chinese thought, guided both by a philosopher's sense of mystery and by a sound philosophical theory of meaning. That dual goal, Hansen argues, requires a unified translation theory. It must provide a single coherent account of the issues that motivated both the recently untangled Chinese linguistic analysis and the familiar moral-political disputes. Hansen's unified approach uncovers a philosophical sophistication in Daoism that traditional accounts have overlooked.
