Orientalism And History:

Orientalism John MacKenzie,1995-07-15 The Orientalism debate inspired by the work of Edward Said has been a major source of cross disciplinary controversy in recent years John MacKenzie offers a comprehensive re evaluation of this vast literature of Orientalism and brings to the subject highly original historical perspectives This study provides the first major discussion of Orientalism by a historian of imperialism Setting the analysis within the context of conflicting scholarly interpretations John MacKenzie then carries the discussion into wholly new areas testing the notion that the western arts received genuine inspiration from the East by examining the visual arts architecture design music and theatre

Orientalism Edward W. Said,2014-10-01 A groundbreaking critique of the West s historical cultural and political perceptions of the East that is decades after its first publication one of the most important books written about our divided world Intellectual history on a high order and very exciting The New York Times In this wide ranging intellectually vigorous study Said traces the origins of orientalism to the centuries long period during which Europe dominated the Middle and Near East and from its position of power defined the orient simply as other than the occident This entrenched view continues to dominate western ideas and because it does not allow the East to represent itself prevents true understanding

Genealogies of Orientalism Edmund Burke,David Prochaska,2008-07-01 Orientalism as explored by Edward Said in 1978 was a far more complex phenomenon than many suspected being homogenous along the lines of neither culture nor time Instead it is deeply embedded in the collective reimaginings that were and are nationalism The dozen essays in Genealogies of Orientalism argue that the critique of orientalism far from being exhausted must develop further To do so however a historical turn must be made and the ways in which modernity itself is theorized and historicized must be rethought According to Joan W Scott author of The Politics of the Veil the essays in this collection develop a remarkable perspective on Edward Said s Orientalism placing it in a long historical context of critiques of colonial representations and deepening our understanding of the very meaning of modernity Looking beyond the usual geography of colonial theory this work broadens the focus from the Middle East and India to other Asian societies By exploring orientalism in literary and artistic representations of colonial subjects the authors illuminate the multifaceted ways in which modern cultures have drawn on orientalist images and indigenous self representations It is in this complex cross cultural collision that the overlapping of orientalism and nationalism can be found

Orientalism & History Denis Sinor,1970 *Orientalism* Alexander Lyon Macfie,2014-06-11 At a crucial moment in the history of relations of East and West Orient and Occident Christianity and Islam Orientalism provides a timely account of the subject and the debate In the 1960s and 1970s a powerful assault was launched on orientalism led by Edward Said The debate ranged far beyond the traditional limits of dry as dust orientalism involving questions concerning the nature of identity the nature of imperialism Islamophobia myth Arabism racialism intercultural relations and feminism Charting the history of the vigorous debate about the nature of orientalism this

timely account revisits the arguments and surveys the case studies inspired by that debate **Orientalism and History**

Denis Sinor,1954 **Orientalism** John M. MacKenzie,1995 *Contending Visions of the Middle East* Zachary Lockman,2004-08-16 An accessible and broad ranging survey of Western perceptions of Islam and the Middle East **Edges of Empire** Jocelyn Hackforth-Jones,Mary Roberts,2008-04-15 *Edges of Empire* is a timely reassessment of the history and legacy of Orientalist art and visual culture through its focus on the intersection between modernization modernism and Orientalism Covers indigenous art and agency contemporary practices of collection and display and a survey of key Orientalist tropes Contains original essays on new perspectives for scholars and students of art history architecture museum studies and cultural and postcolonial studies Highlights contested identities and new definitions of self through topics such as 19th century monuments to Empire cultural cross dressing performance and display at the international exhibitions and contemporary museological practice **Scholarly Personae in the History of Orientalism, 1870-1930** ,2019-06-17 This volume examines how the history of the humanities might be written through the prism of scholarly personae understood as time and place specific models of being a scholar Focusing on the field of study known as Orientalism in the decades around 1900 this volume examines how Semitists Sinologists and Japanologists among others conceived of their scholarly tasks what sort of demands these job descriptions made on the scholar in terms of habits virtues and skills and how models of being an orientalist changed over time under influence of new research methods cross cultural encounters and political transformations Contributors are Tim Barrett Christiaan Engberts Holger Gzella Hans Martin Kr mer Arie L Molendijk Herman Paul Pascale Rabault Feuerhahn and Henning Tr per **A Guide to Spatial History** Konrad Lawson,Riccardo Bavaj,Bernhard Struck,2022-01-07 This guide provides an overview of the thematic areas analytical aspects and avenues of research which together form a broader conversation around doing spatial history Spatial history is not a field with clearly delineated boundaries For the most part it lacks a distinct unambiguous scholarly identity It can only be thought of in relation to other typically more established fields Indeed one of the most valuable utilities of spatial history is its capacity to facilitate conversations across those fields Consequently it must be discussed in relation to a variety of historiographical contexts Each of these have their own intellectual genealogies institutional settings and conceptual path dependencies With this in mind this guide surveys the following areas territoriality infrastructure and borders nature environment and landscape city and home social space and political protest spaces of knowledge spatial imaginaries cartographic representations and historical GIS research **Explaining the History of American Foreign Relations** Michael J. A Global History of Modern Historiography Georg G Iggers, Q. Edward Wang, Supriya Mukherjee, 2013-09-13 So far histories of historiography have concentrated almost exclusively on the West This is the first book to offer a history of modern historiography from a global perspective Tracing the transformation of historical writings over the past two and half centuries the book portrays the transformation of historical writings under the effect of professionalization which served as a model not only for Western but also for much of non Western historical studies At the same time it critically examines the reactions in post modern and post colonial thought to established conceptions of scientific historiography A main theme of the book is how historians in the non Western world not only adopted or adapted Western ideas but also explored different approaches rooted in their own cultures
