Allen, 2019-09-25 Reproduction of the original The Evolution of the Idea of God by Grant Allen [The Evolution of the Idea of God, An Inquiry Into the Origins of Religions](#) Grant Allen, 2021-07-03 Originally published in 1897 The Evolution of the Idea of God is a study of humans belief in God from primitive tribal religions to what Allen considered the more advanced Christian view The main question explored here is How did we arrive at our knowledge of God Rather than trying to prove or disprove any claims about the divine Allen s method simply traces the psychological processes that led humans to religious belief and further from a belief in polytheism to monotheism Students of religion mythology and human psychology will find this an intriguing work Goodreads **The Origin of God** Laurence Gardner, 2010 Belief in the One male God of Judaism Christianity and Isl m can be traced back for something over 2 500 years to the time when the Hebrew scripture of Genesis was compiled in the 6th century BC The narrative content of Genesis was clearly derived from older traditions but on the face of it we have no documentary evidence from any other source of a monotheistic culture in respect of this particular God from before that date In The Origin of God written but not published before his untimely death in August 2010 Laurence Gardner author of the international bestsellers Bloodline of the Holy Grail Genesis of the Grail Kings and Lost Secrets of the Sacred Ark undertakes a biographical exploration of the deiform character variously known as Yahweh All h or simply The Lord He seeks to uncover and evaluate His original identity as against His eventual religiously motivated portrayals Beginning with documents that pre date the Bible Laurence Gardner s final quest was to discover from all available sources what evidence there is if any to support the long standing and widespread notion of God s existence posing the question If the Bible had never been written would we know about God from any more original source *The History and Origin of God* Lynn Toseland, 2018-08-13 This is a real life accurate documentary about interacting with God and what the outcome is It is the true history and origin of God coming from God himself If you ever had a doubt or wanted to really know what God is and what he does in how he interacts with the world and the universe this is a book for you If you ever wanted to know what happened to Moses God this is the continuing story This is the Bible in real events of the present day [Forbidden Theology](#) Miles Augustus Navarr, 2012 Over 75% of the people who live on this planet are followers of one of the three major monotheistic religions They all consider Abraham as the father of their race and religion They all believe in one singular all

powerful all knowing benevolent god The Hebrew call him Yahweh the Christians refer to him as Father or Lord and Muslims call him Allah and yet millions and millions of people have been murdered maimed and tortured by the followers of this single entity to prove that their version of this single god is better than the other two versions Sounds ridiculous and yet sadly enough more people have died in the name of religion than any other cause in the history of humanity Each and every one of us at one time or another has asked or thought about such fundamental questions as Is there a God Where did humans come from Why out of millions of species on earth only humans reached this level of sophistication Is there a life after death Is there a purpose to life Why are we here Are the scriptures truly the words of god More importantly is there any way we could find answers to such questions The fact is the answer to most of these questions and many more that we thought unanswerable have been written down on clay tablets by our ancient ancestors who lived in Mesopotamia over 7000 years ago These records are readily available to those who are willing to step outside the dogmatic belief system of the establishment and are prepared mentally and spiritually to tolerate a totally different rendering of the oldest written historical records about mankind s origin purpose and the truth about god our maker The subject matter of this book is an attempt to investigate the circumstances under which Mankind was made and to trace the beginning and development of such concerns as the emergence of the concept of god and the formation of what later became known as religion This is done primarily by relying on our scriptural texts particularly the Old Testament as well as other ancient manuscripts such as Sumerian Akkadian and Babylonian Creation and Genesis epics The first chapter begins by examining the behaviour commands and instructions given by Yahweh to his chosen people These commands and instructions are then evaluated and compared with basic accepted human rights standards practised and observed by almost all communities and societies past and present The question is then asked How could an entity powerful enough to have created the entire universe issue such cruel and sadistic commands against some of his own creations Furthermore Yahweh s behaviour is decidedly pro Hebrew and shows no regards or thought about non Hebrew masses How could the universal god show such bias towards a tiny fraction of his creatures with total disregard for the rest Finally the characteristics and personalities of Yahweh is analysed by scrutinising his behaviour actions and directives as stated in the Old Testament before examining the god of Christianity In investigating the role and characteristics of God in Christianity the first thing that immediately becomes apparent is the absence of a prominent role for God the Father as we had witnessed in Judaism The Christians or more specifically Saint Paul who was the founder and designer of Christianity as we know it today in order to distance his creation from the Hebrews and religion of Yahweh invented a new Godhead and named him Jesus Christ Ancient Greek I sous Born of a virgin with powers to heal the sick give sight to the blind and even raise the dead who was crucified but resurrected three days later These were all characteristics borrowed from various religions and cults prevalent at the time in the Levant from Mithraism to the cult of Apoll
