Research Center in Anthropology, Folklore, and Linguistics,1966 **Spirit Wars** Ronald Niezen,2000-08-28 Spirit Wars is an exploration of the ways in which the destruction of spiritual practices and beliefs of native peoples in North America has led to conditions of collective suffering a process sometimes referred to as cultural genocide Ronald Niezen approaches this topic through wide ranging case studies involving different colonial powers and state governments the seventeenth century Spanish occupation of the Southwest the colonization of the Northeast by the French and British nineteenth century westward expansion and nationalism in the swelling United States and Canada and twentieth century struggles for native people s spiritual integrity and freedom Each chapter deals with a specific dimension of the relationship between native peoples and non native institutions and together these topics yield a new understanding of the forces directed against the underpinnings of native cultures **The Languages of Native North America** Marianne Mithun,2001-06-07 This book provides an authoritative survey of the several hundred languages indigenous to North America These languages show tremendous genetic and typological diversity and offer numerous challenges to current linguistic theory Part I of the book provides an overview of structural features of particular interest concentrating on those that are cross linguistically unusual or unusually well developed These include syllable structure vowel and consonant harmony tone and sound symbolism polysynthesis the nature of roots and affixes incorporation and morpheme order case grammatical distinctions of number gender shape control location means manner time empathy and evidence and distinctions between nouns and verbs predicates and arguments and simple and complex sentences and special speech styles Part II catalogues the languages by family listing the location of each language its genetic affiliation number of speakers major published literature and structural highlights Finally there is a catalogue of languages that have evolved in contact situations **A Story as Sharp as a Knife** Robert Bringhurst,2011 A seminal collection of Haida myths and legends now in a gorgeous new package The linguist and ethnographer John Swanton took dictation from the last great Haida speaking storytellers poets and historians from the fall of 1900 through the summer of 1901 Together they created a great treasury of Haida oral literature in written form Having worked for many years with these century old manuscripts linguist and poet Robert Bringhurst brings both rigorous scholarship and a literary voice to the English translation of John Swanton s careful work He sets the stories in a rich context that reaches out to dozens of native oral literatures and to myth telling traditions around the globe Attractively redesigned this collection of First Nations oral literature is an important cultural record for future generations of Haida scholars and other interested readers It won the Edward Sapir Prize awarded by the Society for Linguistic Anthropology and it was chosen as the Literary Editor s Book of the Year by the Times of London Bringhurst brings these works to life in the English language and sets them in a context just as rich as the stories themselves one that reaches out to dozens of Native American oral literatures and to mythtelling

traditions around the world An Archaeology of the Soul Robert L. Hall, 1997 The richness and the range of Native American spirituality has long been noted but it has never been examined so thoroughly nor with such an eye for the amazing interconnectedness of Indian tribal ceremonies and practices as in An Archaeology of the Soul In this monumental work destined to become a classic in its field Robert Hall traces the genetic and historical relationships of the tribes of the Midwest and Plains including roots that extend back as far as 3 000 years Looking beyond regional barriers An Archaeology of the Soul offers new depths of insight into American Indian ethnography Hall uncovers the lineage and kinship shared by Native North Americans through the perspectives of history archaeology archaeoastronomy biological anthropology linguistics and mythology The wholeness and panoramic complexity of American Indian belief has never been so fully explored or more deeply understood **Indiana University Publications in Anthropology and Linguistics** , 1969

Culture & Rhetoric Ivo A. Strecker, Stephen A. Tyler, 2009 While some scholars have said that there is no such thing as culture and have urged to abandon the concept altogether the contributors to this volume overcome this impasse by understanding cultures and their representations for what they ultimately are rhetorical constructs These senior international scholars explore the complex relationships between culture and rhetoric arguing that just as rhetoric is founded in culture culture is founded in rhetoric This intersection constitutes the central theme of the first part of the book while the second is dedicated to the study of figuration as a common ground of rhetoric and anthropology The book offers a compelling range of theoretical reflections historical vistas and empirical investigations which aim to show how people talk themselves and others into particular modalities of thought and action and how rhetoric and culture in this way are co emergent It thus turns a new page in the history of academic discourse by bringing two disciplines anthropology and rhetoric together in a way that has never been done before Publisher's website **Native Languages of the Americas** Thomas

Sebeok, 2013-11-11 Thirteen of the chapters that comprise the contents of this first volume of Native Languages of the Americas were originally commissioned by the undersigned in his capacity as Editor of the fourteen volume series 1963-1976 Current Trends in Linguistics All appeared in 1973 under Part Three of the quadripartite Vol 10 subtitled Linguistics in North America Two additional chapters are being held over for the volume to follow shortly devoted to Central and South American languages and linguistics where they more appropriately belong A fourteenth chapter on the Historiography of native North American linguistics was written similarly by invitation for Vol 13 subtitled Historiography of Linguistics published in 1975 Both Volumes 10 and 13 were jointly financed by the United States National Science Foundation and National Endowment for the Humanities with an enhancing contribution to the former by the Canada Council The generosity of these funding agencies was of course previously acknowledged in my respective Editor's Introductions to the two books mentioned but cannot be repeated too often without their welcome and timely assistance the global project could scarcely have been realized on so comprehensive a scale The Current Trends in Linguistics series was a long term venture of Mouton Publishers

of The Hague under the imaginative in house direction of Peter de Rid der Various spin offs were foreseen and some of them happily realized *Journal of American Folk-lore* ,1888 **Structural Drill and the Language Laboratory** Francis West Gravit,Albert Valdman,1963 **Publication ... of the Indiana University Research Center in Anthropology, Folklore, and Linguistics** ,1966
