**Origins and Development of Applied Chemistry** James Riddick Partington, 1935      Origins and Development of Applied Chemistry James Riddick Partington, 1975      **The Quest for Aqua Vitae** Seth C. Rasmussen, 2014-04-23 Ethyl alcohol or ethanol is one of the most ubiquitous chemical compounds in the history of the chemical sciences The generation of alcohol via fermentation is also one of the oldest forms of chemical technology with the production of fermented beverages such as mead beer and wine predating the smelting of metals By the 12th century the ability to isolate alcohol from wine had moved this chemical species from a simple component of alcoholic beverages to both a new medicine and a powerful new solvent Of course this also began the long tradition of production of liqueurs and strong spirits for consumption The use of alcohol as a fuel however did not occur until significantly later periods This volume presents a general overview of the early history and chemistry of alcohol production and isolation as well as a discussion of its early uses in both the chemical arts and medicine      **Science and Technology in World History, Volume 4** David Deming, 2016-04-05 The history of science is a story of human discovery intertwined with religion philosophy economics and technology The fourth in a series this book covers the beginnings of the modern world when 16th century Europeans began to realize that their scientific achievements surpassed those of the Greeks and Romans Western Civilization organized itself around the idea that human technological and moral progress was achievable and desirable Science emerged in 17th century Europe as scholars subordinated reason to empiricism Inspired by the example of physics men like Robert Boyle began the process of changing alchemy into the exact science of chemistry During the 18th century European society became more secular and tolerant Philosophers and economists developed many of the ideas underpinning modern social theories and economic policies As the Industrial Revolution fundamentally transformed the world by increasing productivity people became more affluent better educated and urbanized and the world entered an era of unprecedented prosperity and progress      **A History of Geochemistry and Cosmochemistry, from Prehistory to the End of the Classical Period** Robert W. Boyle, 2024-05-01 Since Mendeleev outlined the modern periodic table in 1869 many new uses have been found for the 92 naturally occurring elements This book travels back in time to describe the utilization of materials familiar gold copper iron and arcane arsenic boron red ochre and their practical history mining metallurgy and crafts with evidence from archaeology and geology Together with the technological developments author Robert Boyle portrays the advances in our understanding of materials science which led to modern geological and environmental sciences It is a source book valuable to students of history and archaeology mining and metallurgy as well as to geologists mineralogists and geochemists everywhere      **A History of Greek Fire and Gunpowder** James Riddick Partington, 1999 For nearly 600 years from battles of the early 14th century to the dropping of the atomic bomb at Hiroshima firearms derived from gunpowder and other chemicals defined the frightful extent of war In this classic work first published in 1960 distinguished historian James Riddick Partington provides a worldwide survey of the

evolution of incendiary devices Greek fire and gunpowder 21 illustrations      **History of Technology Volume 3** A. Rupert Hall, Norman Smith, 2016-09-30 The annual collections in the History of Technology series look at the history of technological discovery and change exploring the relationship of technology to other aspects of life and showing how technological development is affected by the society in which it occurred      *The History of Science from Augustine to Galileo* Alistair Cameron Crombie, 1995-01-01 Rich illuminating study of the Western scientific tradition from the collapse of the Roman Empire to the Scientific Revolution in the 17th century Over 60 illus Bibliography      History of Technology Stuart J. Fleming, Helen R. Schenck, 1989-01-29 The papers in this volume underscore the role that analytical techniques can play in the investigation of artifacts and debris by providing information about the technology of metallurgy in antiquity They include contributions on copper production in Transjordan bronze casting in classical Greece a historical account of the Turm Rosenhof silver mine in Germany analytical studies of Etruscan bronze mirrors lead and bronze artifacts from Carthage prehistoric and early historic artifacts of the Inuit people of the Canadian Arctic and a variety of artifacts from colonial Pennsylvania MASCA Vol 6      Science in History J. D. Bernal, 2012-10-04 J D Bernal s monumental work Science in History was the first full attempt to analyse the reciprocal relations of science and society throughout history from the perfection of the flint hand axe to the hydrogen bomb In this remarkable study he illustrates the impetus given to and the limitations placed upon discovery and invention by pastoral agricultural feudal capitalist and socialist systems and conversely the ways in which science has altered economic social and political beliefs and practices In this first volume Bernal discusses the nature and method of science before describing its emergence in the Stone Age its full formation by the Greeks and its continuing growth probably influenced from China under Christendom and Islam in the Middle Ages Andrew Brown Bernal s biographer with a nice sense of paradox has said of him he was steeped in history in part because he was always thinking about the future He goes on to say Science in History is an encyclopaedic yet individual and colourful account of the emergence of science from pre historic times There is detailed coverage of the scientific revolution of the Enlightenment the Industrial Age and the first two thirds of the twentieth century The writing flows and is devoid of the tortured idioms that mar so many academic histories of science After reading it it is easy to agree with C P Snow s orotund observation that Bernal was the last man to know science Faber Finds are reissuing the illustrated four volume edition first published by Penguin in 1969 The four volumes are Volume 1 The Emergence of Science Volume 2 The Scientific and Industrial Revolutions Volume 3 The Natural Sciences in Our Time Volume 4 The Social Sciences Conclusion This stupendous work is a magnificent synoptic view of the rise of science and its impact on society which leaves the reader awe struck by Professor Bernal s encyclopaedic knowledge and historical sweep Times Literary Supplement      *the cambridge economic history of europe* Edwin Ernest Rich, 1967      Compound Remedies Paula S. DeVos, 2020-12-22 Compound Remedies examines the equipment books and remedies of colonial Mexico City s Herrera pharmacy natural substances with known healing powers

that formed part of the basis for modern day healing traditions and home remedies in Mexico Paula S De Vos traces the evolution of the Galenic pharmaceutical tradition from its foundations in ancient Greece to the physician philosophers of medieval Islamic empires and the Latin West and eventually through the Spanish Empire to Mexico offering a global history of the transmission of these materials knowledges and techniques Her detailed inventory of the Herrera pharmacy reveals the many layers of this tradition and how it developed over centuries providing new perspectives and insight into the development of Western science and medicine its varied origins its engagement with and inclusion of multiple knowledge traditions the ways in which these traditions moved and circulated in relation to imperialism and its long term continuities and dramatic transformations De Vos ultimately reveals the great significance of pharmacy and of artisanal pursuits more generally as a cornerstone of ancient medieval and early modern epistemologies and philosophies of nature **History & development**
