Origins Of English Feudalism

Sir Sidney Low

Origins Of English Feudalism:

Origins of English Feudalism R. Allen Brown, 2019-06-26 Originally published in 1973 *Origins of English Feudalism* suggests that English feudalism has for a long time been the most controversial and thereby the most highly technical aspect of English medieval history The book contains relevant sources that will be of use to readers and will allow them to study documentary literary and archaeological sources from the medieval period The debate over the establishment of feudalism in pre Conquest England involves not only the question of the presence or absence of fief but also of knights and cavalry castles and vassal commendation This book will be of interest to academics and the ease of use and careful division of sources will be of interest to students

Origins of English Feudalism Reginald Allen Brown, 1973 **Studies in the History of the English Feudal Barony** Sidney Painter, 2020-02-03 Originally published in 1943 Sidney Painter explores the Angevin and Plantagenet baronage by surveying the methods that barons used to increase their prestige *Studies in the History of the English Feudal Barony* challenges the traditional view of the Hundred Years War as pivotal to the transition from twelfth century lords and vassals to the nobility of the fifteenth century from Painter's perspective the feudal structure of the military had dissipated by the thirteenth century

Re-Thinking Kinship and Feudalism in Early Medieval Europe Stephen D. White, 2023-07-07 This is the second collection of studies by Stephen D White to be published by Variorum the first being *Feuding and Peace Making in Eleventh Century France* The essays in this volume look principally at France and England from Merovingian and Anglo Saxon times up to the 12th century They analyze Latin and Old French discourses that medieval nobles used to construct their relationships with kin lords men and friends and investigate the political dimensions of such relationships with particular reference to patronage clientage the use of land as an item of exchange and feuding In so doing the essays call into question the conventional practice of studying kinship and feudalism as independent systems of legal institutions and propose new strategies for studying them

The Origins of the English Novel, 1600-1740 Michael McKeon, 2021-04-27 This may well be the most important study of the development of prose fiction in England since Ian Watt's classic *Rise of the Novel* on which it builds *Library Journal* The *Origins of the English Novel 1600-1740* combines historical analysis and readings of extraordinarily diverse texts to reconceive the foundations of the dominant genre of the modern era Now on the fifteenth anniversary of its initial publication *The Origins of the English Novel* stands as essential reading The anniversary edition features a new introduction in which the author reflects on the considerable response and commentary the book has attracted since its publication by describing dialectical method and by applying it to early modern notions of gender Challenging prevailing theories that tie the origins of the novel to the ascendancy of realism and the middle class McKeon argues that this new genre arose in response to the profound instability of literary and social categories Between 1600 and 1740 momentous changes took place in European attitudes toward truth in narrative and toward virtue in the individual and the social order The novel emerged McKeon contends as a cultural instrument designed to engage the

epistemological and social crises of the age This book is a formidable attempt to articulate issues of almost imponderable centrality for modern life and literature McKeon proposes with quite breathtaking ambition and considerable intellectual flourish to redefine the novel's key role in those immense cultural transformations that produce the modern world Studies in the Novel A magisterial work of history and analysis Arts and Letters A powerful and solid work that will dominate discussion of its subject for a long time to come The New York Review of Books

An Introduction to English Legal History John Hamilton Baker, 2019 This is a comprehensively revised and updated fifth edition of the definitive history of the development of the common law in England
