Origins And Early Development Of Shia Islam:

Origins and Early Development of Shi'a Islam Husain M. Jafri, 1979 *Origins and Early Development of Shi'a Islam* Husain M. Jafri, 1978 **Origins and Early Development of Shi'a Islam** Husain M. Jafri, 1979 **The Origins and Early Development of Shi'a Islam** Husain M. Jafri, S. H. Jafri, 2007-03 Being such an undeniably relevant topic at the moment this book provides an unbiased and academic study of the development of Shi'a Islam. In this way it would be well received by anyone wanting an in-depth academic study of the topic from keen enthusiasts to academics **The Origins and Early Development of Shi'a Islam** Syed Husain M. Jafri, 1976 **The History of al-Ṭabarī Vol. 19**, 2015-06-18 This volume deals with the caliphate of Yazīd. Yazīd was not accepted as a legitimate caliph by many of the leading Muslims of the time and therefore al-Ṭabarī has concentrated his account of Yazīd's caliphate almost entirely on the opposition to him. This opposition had its leadership in two of the leading Islamic figures of the time: al-Usayn, the son of the caliph Al and Ibn al-Zubayr, a leading Muslim who felt that he had some claims to the caliphate himself. The first revolt was led by al-Usayn. This revolt, although ineffectual in military terms, is very important for the history of Islam as al-Usayn came to be regarded by Shi'ite Muslims as the martyred imam; his martyrdom is still commemorated every year by them. In his account al-Ṭabarī has preserved for us some of the earliest historical writing on the subject. The amount of space he devotes to this event shows the importance it had already assumed by his own time. The second revolt, that of Ibn al-Zubayr, was much more serious in immediate terms. The revolt or civil war can be divided into two stages. This volume covers the first stage, ending with the timely death of Yazīd, which saved Ibn al-Zubayr from defeat **Twelver Shiism** Andrew J. Newman, 2013-11-20 Charts the history and development of Twelver Shiism. As many as 40 different Shi'i groups existed in the 9th and 10th centuries, only 3 forms remain. Why is Twelver Shiism one of them? As the established faith in modern Iran, the majority faith in Iraq and areas in the Gulf, and with its adherents forming sizeable minorities elsewhere in the region, it is arguably the most successful branch of Shiism. Andrew Newman charts the history of Twelver Shiism, uncovering the development of the key distinctive doctrines and practices which ensured its survival in the face of repeated challenges. He argues that the key to the faith's endurance has been its ability to institutionalise responses to the changing, often localised circumstances in which the community has found itself, thereby remaining remarkably resilient in the face of both internal disagreements and external opposition **The History of al-Ṭabarī Vol. 20**, 2015-06-18 This volume covers the vital early years of the second Muslim civil war, when the Umayyad caliphate seemed on the point of extinction. That it survived had much to do with the vigor of the Umayyad Marwān ibn al-Hakam, whose initial restoration of Umayyad authority is described here in some detail by al-Ṭabarī's sources. In the chaos and confusion of the civil war, however, developments took place that were to prove significant for the future of the Umayyad caliphate, indeed for the early history of Islam in general. Among them, the first manifestations of large-scale tribal divisions among the Arabs, together with the development of support for the descendants of the Prophet as the

only legitimate rulers were particularly important and receive special attention For this period al Tabari s History is a fundamental source The material collected by al abar frequently makes lively and colorful reading and the annotations that accompany this translation attempt to clarify and make more explicit the sometimes allusive and compressed information provided by al abar and his sources Since the standard edition of the text was made at the end of the nineteenth century a significant number of other sources have been published which often make possible a more exact reading of al abar s text For these reasons it is hoped that this translation will appeal to those interested in the period but who have little or no Arabic and will also prove useful to students and scholars who are capable of reading the Arabic but will appreciate the suggested textual amendments and improvements and the elucidatory comments

The History of al-Ṭabarī Vol. 18 Abū Ja'far Muḥammad ibn Jarīr al-Ṭabarī, 1987-01-01

This volume presents for the first time in English al-Bār's complete account of the twenty year long reign of the fifth caliph Mu'awiyah 661-680. The importance of this account lies partly in al-Bār's quotation of major portions of the work of earlier authors such as Abu Mikhnaf and other eighth century compilers. It is also significant because al-Bār's selection of themes has had a decisive influence on modern interpretations of this period particularly on the identification of what the important issues were in the works of Henri Lammens and Julius Wellhausen. Here one can read the exciting account of the Kharijī revolt of Mustawrid ibn Ullifah, the impressive but controversial record of the governorship of Ziyād ibn Abīhi, the entertaining escapades of the poet Farazdaq in his youth and the tragic story of Ujair ibn al-Adabār's presentation of different points of view about these and other events makes his account an indispensable source for early Islamic history.

The Wiley Blackwell History of Islam Armando Salvatore, Roberto Tottoli, Babak Rahimi, 2018-05-04 A theoretically rich nuanced history of Islam and Islamic civilization with a unique sociological component. This major new reference work offers a complete historical and theoretically informed view of Islam as both a religion and a sociocultural force. Uniquely comprehensive it surveys and discusses the transformation of Muslim societies in different eras and various regions providing a broad narrative of the historical development of Islamic civilization. This text explores the complex and varied history of the religion and its traditions. It provides an in depth study of the diverse ways through which the religious dimension at the core of Islamic traditions has led to a distinctive type of civilizational process in history. The book illuminates the ways in which various historical forces have converged and crystallized in institutional forms at a variety of levels embracing social, religious, legal, political, cultural and civic dimensions. Together the team of internationally renowned scholars move from the genesis of a new social order in 7th century Arabia right up to the rise of revolutionary Islamist currents in the 20th century and the varied ways in which Islam has grown and continues to pervade daily life in the Middle East and beyond. This book is essential reading for students and academics in a wide range of fields including sociology, history, law and political science. It will also appeal to general readers with an interest in the history of one of the world's great religions.

The Alchemy of Happiness Abu Hamid Muhammad al-Ghazzali, Elton D. Daniel, Claud Field, 2015-03-04 Abu Hamid Muhammad al-Ghazzali 1058-1111 is one of the most important religious figures in Islamic history. He is particularly noted for his brilliant synthesis of mysticism and traditional Sunni Islam. Ghazzali's *The Alchemy of Happiness* written toward the end of his life provides a succinct introduction to both the theory and practice of Sufism, Islamic mysticism. It thus offers many insights into traditional Muslim society. This translation is fully annotated for readers unfamiliar with Ghazzali and includes an introduction to his life and historical milieu.

The First Dynasty of Islam Gerald R. Hawting, 2000 The standard work on this complex period in Arab history is available once again with the addition of a new introduction by the author which examines recent significant contributions to scholarship in the field.
