## Introductory Reading & Inquiry Based Project

### Basic Facts

Christianity developed after the crucifixion of Christ by the Romans.  
 Definition: Religion following the life and birth of Jesus Christ.  
 Dates: Circa 0 - 360 C.E.

Christianity developed in the Middle East during the reign of the Roman Empire, starting with the birth and then crucifixion, of Jesus Christ. According to the New Testament of the Bible, Jesus, the son of God, was born in Bethlehem. John the Baptist, identified him as the messiah for the Jews. Jesus was very knowledgeable about and preached love and mercy throughout Galilee. When Passover came, he led his disciples and followers to Jerusalem. The Roman governor for Judea, saw Jesus as a threat and ordered him executed. The Gospels then detail his resurrection and how those that believed became Christians. Christians continued to be persecuted by the Romans until Emperor Constantine saw the cross on a hill going into battle. He declared Christianity the religion of the Roman Empire in 313. C.E.

## Origins Texts For An Inquiry:

Origins Timothy C. Alderman, 1996      **Egypt's Place in Universal History: an Historical Investigation in Five Books** Christian C. J. Bunsen ,1848      Proceedings of Navy Court of Inquiry United States. Congress. Joint Committee on the Investigation of the Pearl Harbor Attack, 1946      **Proceedings of Navy court of inquiry. 2 v** United States. Congress. Joint Committee on the Investigation of the Pearl Harbor Attack, 1946      **Egypt's Place in Universal History: an Historical Investigation, in Five Books** Christian Carl Josias von Bunsen, 1859      **An Historico-critical Inquiry Into the Origin and Composition of the Hexateuch (Pentateuch and Book of Joshua)** Abraham Kuenen, Philip Henry Wicksteed, 1886      **Inquiry Into the Origin of Humanity** Tsung-mi, 1995-10-01 A superb book one clearly designed for practical use Buddhist Studies Review 14 1997 Gregory s work serves as a model for future scholars wishing to present translations of key East Asian Buddhist texts to a broader audience Philosophy East and West 48 1998 Ein wertvoller Beitrag als vollstndige bersetzung als Erkenntnisquelle ber den chinesischen Buddhismus fr Interessierte und als Lehrmaterial fr diejenigen die ihn lehren mssen Monumenta Serica 45 1997 Peter Gregory s is a name that I as a layman vis a vis academia am always happy to see attached to a text as I feel confident that the work will be of genuine interest and that my understanding will be limited only by my knowledge rather than by my ability to penetrate a forest of jargon obscure theorizing and convoluted writing Buddhism Now November 1996 Gregory s translation is a truly remarkable accomplishment reflecting his superb command of literary Chinese and his thorough familiarity with the relevant scholarly literature on Chinese thought in Western languages Stanley Weinstein professor of Buddhist Studies Yale University

Origin Stories in Political Thought Joanne Harriet Wright, 2004-01-01 Origin stories are a recurring motif in the history of political thought Presented as narratives that describe the beginnings of politics and power these stories are among the most provocative and politically contentious means by which Western society organizes and represents its experience Indeed as scripts of citizenship origin stories seek to manufacture consent to a preconceived and hierarchical political vision Joanne H Wright s Origin Stories in Political Thought examines Plato s Timaeus Hobbes s story of the state of nature and the social contract and early Second Wave feminist stories about the beginnings of patriarchal social relations Using a historically sensitive feminist methodology Wright documents and deconstructs the tradition of telling origin stories in the larger history of political thought Although individual tales have been assessed in current scholarship the motif of the origin story itself has until now escaped systematic analysis With meticulous research and convincing conclusions Origin Stories in Political Thought makes a groundbreaking and valuable contribution to both feminist and political studies      A Philosophical Enquiry Into the Origin of Our Ideas of the Sublime and Beautiful Edmund Burke, 2015 In his Enquiry Edmund Burke overturned the Platonic tradition in aesthetics and replaced metaphysics with psychology His revolutions in method and sensibility influenced later philosophers and literary and artistic movements from the Gothic novel to Romanticism and beyond This new

edition guides the reader through Burke's arguments      *Egypt's Place in Universal History: An historical Investigation*  
 Christian C. J. Bunsen, 2021-11-04 Reprint of the original first published in 1867      *The Origins of Midrash: From Teaching to Text* Paul D. Mandel, 2017-05-22 In *The Origins of Midrash From Teaching to Text* Paul Mandel presents a comprehensive study of the words *darash* and *midrash* from the Bible until the early rabbinic periods 3rd century CE In contrast to current understandings in which the words are identified with modes of analysis of the biblical text Mandel claims that they refer to instruction in law and not to an interpretation of text Mandel traces the use of these words as they are associated with the scribe *sofer* the *doresh ha torah* in the Dead Sea scrolls the exegetes of the laws in the writings of Josephus and the rabbinic sage *akham* showing the development of the uses of *midrash* as a form of instruction throughout these periods      An Enquiry Into the Cause and Origin of Moral Evil John Clarke, 1721      Malevolent Legalities Kevin S. Jobe, 2024-10-29  
*Malevolent Legalities* draws upon archival research conducted at the Scalia Papers at the Harvard Law School Historical and Special Collections to examine the influence of Justice Antonin Scalia's judicial philosophy of textualist originalism on the US Supreme Court's antidiscrimination jurisprudence The book focuses on six US Supreme Court cases organized into two parts The main argument of the book grounded in archival and legal materials is that textualist originalism makes it lawful for discrimination to be performed through the text and explicitly seeks to prevent progress by enacting a regime of static law In *Shelby County v Holder* 2013 Justice Ginsburg remarked that discrimination today behaves like the Hydra the many headed serpent in Ancient Greek mythology which regenerates each time its head is severed The analysis of archival and legal materials is therefore prefaced by the development of a unique methodology for studying discrimination called *discriminatology* understood as a framework for analyzing how discrimination persists through time is performed through the text and is a product of the manipulation of legal speech In this way *Malevolent Legalities* approaches the study of textualist originalism as itself a vehicle for discrimination performed *mala fide* or in bad faith      **Amplifying the Curriculum** Aída Walqui, George C. Bunch, Peggy Mueller, 2025 Expanded and revised to include four entirely new chapters this thoroughly updated edition presents a model for how educators can design high quality challenging and supportive learning opportunities for multilingual learners Starting with the premise that conceptual analytic and language practices develop simultaneously as students engage in disciplinary learning the authors argue for instruction that amplifies rather than simplifies expectations concepts texts and learning tasks They offer clear guidance for designing well supported lessons with examples that demonstrate the approach in elementary and secondary classrooms across various subject areas math science language arts and social studies and contexts including newcomer classrooms and a new chapter written in Spanish on instruction in students home languages This popular resource guides teachers through the coherent design of tasks lessons and units that invite all students to engage in productive meaningful dialogic and intellectually engaging activity The book concludes with a discussion of where teachers might begin and how teacher educators professional development providers

and educational leaders can support them in these efforts Book Features Provides discipline specific examples that are fully unpacked to guide teachers in creating ambitious and supportive learning tasks lessons and units of study Supports teachers in their own instructional design by providing guiding tenets a framework for designing lessons and multiple examples in different subject areas Offers a compelling argument supported with examples and guidelines that highlights the centrality of interactions in the development of student academic autonomy Provides practical guidance grounded in sociocultural ecological theory applied linguistics and theories about effective learning of disciplinary practices Includes real life lessons that have been successfully implemented in classrooms with multilingual learners at all levels of language proficiency The second edition of this fantastic resource for teachers of ELL classified students and other multilingual learners extends the authors original framework of effective ways to amplify highly engaging academic instruction across grade levels content areas and home languages Wayne E Wright associate dean for research graduate programs and faculty development Purdue University College of Education
