which tune into that acoustic quality at once present in Woolf's time in her texts and in the readings which here echo those very listening techniques. Indeed, the listening mind as a reading surface for the receptivity and reconstruction of sound waves embodies a shift which informs the thinking of many chapters in this volume. In their attention to listeners in the text and to those who make up the work of reception in both English and French, these readings consider Woolf's oeuvre as an echo chamber reverberating with intertextual echoes in a multi-layered representational network. They form a constellation of answers to the call of the Age of Listening.

The ultimate literary bucket list. THE WASHINGTON POST Celebrate the pleasure of reading and the thrill of discovering new titles in an extraordinary book that's as compulsively readable, entertaining, surprising, and enlightening as the 1,000 plus titles it recommends. Covering fiction, poetry, science, and science fiction, memoir, travel, writing, biography, children's books, history, and more, 1,000 Books to Read Before You Die ranges across cultures and through time to offer an eclectic collection of works that each deserve to come with the recommendation: You have to read this. But it's not a proscriptive list of the great works; rather, it's a celebration of the glorious mosaic that is our literary heritage. Flip it open to any page and be transfixed by a fresh take on a very favorite book. Or come across a title you always meant to read and never got around to. Or, like browsing in the best kind of bookshop, stumble on a completely unknown author and work and feel that tingle of discovery. There are classics, of course, and unexpected treasures, too. Lists to help pick and choose like *Offbeat Escapes* or *A Long Climb but What a View*. And its alphabetical arrangement by author assures that surprises await on almost every turn of the page, with Cormac McCarthy and *The Road* next to Robert McCloskey and *Make Way for Ducklings*, Alice Walker next to Isaac Walton. There are nuts and bolts, too: best editions to read, other books by the author if you like this, you'll like that, recommendations, and an interesting endnote of adaptations where appropriate. Add it all up, and in fact there are more than six thousand titles by nearly four thousand authors mentioned. A life-changing list for a lifetime of reading. 948 pages later, you still want more. THE WASHINGTON POST
