**Orphans of Islam** Jamila Bargach, 2002-02-26 Orphans of Islam portrays the abject lives and excluded body of abandoned and bastard children in contemporary Morocco while critiquing the concept and practice of adoption which too often is considered a panacea Through a close and historically grounded reading of legal social and cultural mechanisms of one predominantly Islamic country Jamila Bargach shows how the surplus bastard body is created by mainstream society Written in part from the perspectives of the children and single mothers intermittently from the view of adopting families and employing bastardy as a haunting and empowering motif with a potentially subversive edge this ethnography is composed as an intricate open ended and arabesque like evocation of Moroccan society and its state institutions It equally challenges received sociological and anthropological tropes and understandings of the Arab world *Ethics in Islam* Behruz Rafiee, 2004

This expansive four volume encyclopedia presents a broad introduction to Islam that enables learning about the fundamental role of Islam in world history and promotes greater respect for cultural diversity. One of the most popular and widespread religions in the world, Islam has attracted a great deal of attention in recent times, particularly in the Western world. With the ongoing tensions in the Middle East and a pervasive sense of hostility toward Arab Americans, there is an ever increasing need to examine and understand Islam as a religion and historical force. *Islam: A Worldwide Encyclopedia* provides some 700 entries on Islam, written by expert contributors that cover the religion from the birth of Islam to the present time. The set also includes 16 pages of color images per volume that serve to illustrate the diverse expressions of this important religious tradition. Each entry begins with a basic introduction followed by a general discussion of the subject and a conclusion. Each entry also features a further readings list for readers. In addition to supplying a comprehensive authoritative overview of Islam, this work also specifically addresses many controversial related issues including jihad, violence in Islam, polygamy and apostasy. **The Position of Women in Islam** Mohammad Ali Syed, 2012-02-01. Challenging the conservative framers of Islamic law who accorded a lesser status to women, Mohammad Ali Syed argues that the Quran and the Hadith, the two primary sources of Islamic law, actually place Muslim women on the same level as Muslim men. Syed provides an overview of both sources and explores their respective roles in Islamic law, emphasizing the Quran's role as the supreme authority and questioning the authenticity of some of the alleged sayings of the Prophet Muhammad (pbuh). From these texts, he elaborates women's rights in a variety of areas including treatment by God, marriage, divorce, financial provisions and custody of children, coming out of seclusion (purdah) and taking part in social, economic, legal and political activities. Rather than presenting what is practiced today, the book covers the theoretical position of Muslim women as sanctioned by the Quran and the authentic Hadith and offers a glimpse of the exalted position of honor and dignity enjoyed by Muslim women in the early days of Islam. This well researched book is made more distinctive by the author's personal experience. Raised in Bengal, India, Syed was inspired by his family who valued men and women equally. As he grew up, Syed realized that most Muslim women lived very differently than the women of his family. According to the author, his family was egalitarian because his father and male relatives were not only devout Muslims but also very knowledgeable about Islam. This book is a culmination of his lifelong concern for women's rights under Islam. *Islam* Syed Farouq M. Al-Huseini, 2014-02. Islam and
