Orpheus Suzi Harvey, 2000-01-01 Metaphor and Imaginal Psychology Marc Slavin, 2017-08-04 Metaphor and Imaginal Psychology A Hermetic Reflection provides the first full length exploration of the significance of metaphor in post Jungian psychology Its portrayal of the mythological figure of Hermes as a personification of metaphor marks an original contribution to the field of metaphor studies After a 2 500 year exile from philosophy and related areas of study beginning with Plato s ejection of the poets from the ideal city state metaphor is today experiencing a season of renewal Among the fields where its significance as a way of seeing thinking and feeling has been especially prominent is archetypal psychology perhaps the most philosophically attuned of psychological disciplines Approaching the work of James Hillman and other key archetypal psychologists from a poststructuralist perspective Metaphor and Imaginal Psychology draws insightful comparisons between archetypal psychology and the deconstructive philosophy of Jacques Derrida a principle theorist of metaphor s philosophical resurgence By linking two disciplines that might at first appear as strange bedfellows Metaphor and Imaginal Psychology underscores the influence of metaphor in reason and emotion and makes a compelling case for the Mercurial ethos of our postmodern world Aside from representing essential reading for therapists and theorists working in post Jungian studies the book will appeal to readers students and scholars of literary criticism psychology philosophy and mythology

Jupiter Meets Uranus Anne Whitaker, 2009-04 Jupiter and Uranus meet every 14 years When they do revolution and innovation join forces with restless exploration and the quest for knowledge The result is always exciting educational and unpredictable Or is it Anne Whitaker never one to take anything at its face value decided late in 1996 that she would observe the effects of this approaching planetary event and investigate whether it lived up to its reputation according to the textbooks Her method was straightforward watch world events around the time of the conjunction and during the rest of 1997 find some volunteers with the 5 Aquarius 55 Hot Spot highlighted by in their natal horoscope collect their stories during the year of the conjunction and determine whether the Jupiter Uranus effect could be detected in their lives As Ken Gillman writes in the foreword This is a study of real life astrology Nine of the original 17 volunteers stayed with the study throughout Their disrupted exciting turbulent life stories form the core of this vivid exploration of the interface between planetary activity and human life during a period in which the startling announcement of the birth of Dolly the Sheep in February 1997 indicated that advances in cloning and genetic engineering were taking us on a voyage never before undertaken by humanity This highly original book written in a pacy and accessible style will be of particular interest to research minded students It will also appeal to astrologers looking for specific evidence that the personal and collective lives of humankind respond in the same core way to the great music of the spheres played throughout space and time by the planets in their cycles

Orpheus with His Lute Elisabeth Henry, 1992 The legend of Orpheus has exerted a powerful influence on the work of poets and artists through the ages from the poetry of Virgil and Ovid and the Ovidian romances of

the Middle Ages to the new mythologies of Blake and Rilke Orpheus was believed to have aroused responses from inanimate nature as well as from living creatures bringing about a peaceful order and even in some cases restoring the dead to life This challenging new study analyses the changing images of Orpheus in the poetry sculpture and vase painting of the ancient world The author shows how later versions diverge from the early story of the divinely inspired poet musician and reflect conflicting ideas about the nature of poetic creativity its sources and powers Orpheus with His Lute is essential reading for all those interested in literature and the psychology of aesthetic experience It will also be of value to students of philosophy and the history of religion
