Anna-Teresa Tymieniecka, 2014-11-14 Phenomenology is the philosophy of our times Through the entire twentieth century this philosophy unfolded and flourished following stepwise the intrinsic logic and dynamism of its original project as proposed by its founder Edmund Husserl Now its seminal ideas have been handed over to a new era The worldwide contributors to this volume make it manifest that phenomenological inspiration knows no cultural barriers It penetrates and invigorates not only philosophical disciplines but also most of the sectors of knowledge transforming our way of seeing the world our actions toward others and our lives Phenomenology s universal spread has however oftentimes diluted its original sense even beyond recognition and led to a weakening of its dynamics There is at present an urgent need to retrieve the original understanding of phenomenology to awaken its dormant forces and redirect them This is the aim of the present book resourcement and reinvigoration It is meant to be not only a reference work but also a guide for research and study To restore the authentic vision of phenomenology we propose returning to its foundational source in Husserl s project of a universal science unpacking all its creative capacities In the three parts of this work there are traced the stages of this philosophy s progressive uncovering of the grounding levels of reality ideal structures constitutive consciousness the intersubjective lifeworld and beyond The key concepts and phases of Husserl s thought are here exfoliated Then the thought of the movement s classical figures and of representative thinkers in succeeding generations is elucidated Phenomenology s geographic spread is reviewed We then proceed to the culminating work of this philosophy to the phenomenological life engagements so vigorously advocated by Husserl to the life significant issues phenomenology addresses and to how it has enriched the human sciences Lastly the phenomenological project s new horizons on the plane of life are limned horizons with so powerful a draw that they may be said not to beckon but to summon Here is the movement s vanguard This collection has 71 entries Each entry is followed by a relevant bibliography There is a helpful Glossary of Terms and an Index of Names

Giro axiológico y crítica regeneracionista en el novecentismo español Alejandro Martínez, 2025-07-18 El

novecentismo puede considerarse como un movimiento inaugural del siglo XX A caballo entre el 98 y el 27 el movimiento sent las bases de lo que constituye la poca contemporánea española Una generación muy influenciada por las nuevas corrientes literarias que se desarrollaban por toda Europa Las obras de los autores de la generación del 14 estaban dirigidas a grupos cultos pero influyeron en todas las capas sociales Centrados en Europa dejan de ver a España como el centro del mundo atienden a lo universal y se niegan a encerrarse en lo nacional Si bien el problema español sigue vigente este se analiza de una forma más rigurosa y no tan sentimental Resisten el pesimismo y buscan soluciones a los problemas

D'Ors y Ortega frente a frente Martínez Carrasco, Alejandro, 2014-08-13. Eugenio d'Ors 1881-1954 y José Ortega y Gasset 1883-1955 son sin duda dos de las más destacadas personalidades de la generación que alcanza la madurez intelectual a lo largo de las primeras décadas del siglo XX, protagonista de la llamada Edad de Plata y una de las generaciones más brillantes y decisivas de la cultura española. De enorme protagonismo y relevancia pública ambos pensadores fueron además los principales configuradores e inspiradores de buena parte de las ideas compartidas por esa generación. Coetáneos y con intereses compartidos, las vidas de d'Ors y de Ortega se entrecruzaron a menudo en empresas comunes políticas y encuentros y desencuentros, una relación más intensa y viva de lo que a menudo se afirma. También sus respectivos planteamientos filosóficos están marcados por una gran cercanía, muchos son los problemas y motivaciones compartidos por los dos, aunque también importantes sus diferencias. Este libro aborda las relaciones entre estos dos filósofos desde dos perspectivas complementarias: en primer lugar desde la perspectiva biográfica mostrando el gran paralelismo de ambas trayectorias vitales y sus significativas relaciones directas; y en segundo lugar desde la perspectiva estrictamente filosófica dibujando sintéticamente una fuerte unidad de fondo entre sus respectivos sistemas filosóficos y a la vez dando razón de sus diferencias. Este estudio novedoso en la bibliografía existente permite además de una mayor comprensión de cada uno de estos dos pensadores desde un ángulo poco habitual en estudios interpretativos, un acercamiento iluminador al panorama de la cultura española y al contexto filosófico europeo de la primera mitad del siglo XX. Alejandro Martínez Carrasco es actualmente profesor del Departamento de Filosofía de la Universidad de Navarra. Doctorado en el año 2009 con una tesis sobre Eugenio d'Ors y Ortega y Gasset, su investigación se centra en la filosofía del siglo XX, especialmente en el ámbito español en la primera mitad de siglo. Autor de diversos artículos sobre este tema, ha publicado las monografías *Españolización y forma. El pensamiento filosófico de Eugenio d'Ors* y *Nufragos hacia sí mismos. La filosofía de Ortega y Gasset*. **EL DIARIO EL SOL EN SU ÉPOCA (1917-1939)** Aubert, Paul, 2022-12-01. El Sol marca un salto cualitativo y cuantitativo dentro de la historia de la prensa española inaugurando una nueva práctica periodística con la intención de formar una opinión favorable a la democratización del régimen de la Restauración. El estudio del itinerario económico, político e ideológico del diario obliga a revisar la historia de la España del primer tercio del siglo XX sin menoscabar la obra intelectual de José Ortega y Gasset ni la empresarial de Nicolás María de Urgoiti. Permite evaluar el peso de las ideas de los sucesos que hacen el diario y de los

cambios que suscita o las esperanzas que encauza Después de la Primera Guerra Mundial que provoca la crisis del papel y la transformación de la prensa en industria los creadores de El Sol están convencidos de que pueden preparar la nación para una vida colectiva y llevar hasta su término la revolución liberal Forjan una nueva cultura desde los progresos técnicos de la economía hasta la aparición de una nueva sensibilidad artística y afianzan la ideología liberal en un país que está modernizándose

Otra filosofía cristiana Enrique González Fernández, 2020-02-24 Enrique González apuesta por una nueva forma de comprender el Evangelio partiendo de lo y no de una tradición filosófica anterior que perturbe y dificulte su mensaje El título del presente libro invita a hacer una nueva filosofía cristiana distinta de la vieja esta en lugar de partir del Evangelio para comprenderlo con conceptos filosóficos apropiados a lo fuerza a adaptarse a unas categorías previas y ajenas que perturban el mensaje revelado porque cosifican al hombre y por tanto a Dios Ello ha perjudicado notablemente a la propia teología que siempre demanda a la filosofía nuevos y más aptos conceptos Pero al no ser propuestos sigue utilizando inercialmente los viejos y hasta parece afirmar resignada que como no hay otros debe seguir edificándose sobre la Escolástica considerada como la única filosofía cristiana porque no conoce otra Hoy se nos pide realizar la tarea inversa intentar comprender el Evangelio con categorías más apropiadas partiendo de lo y no de una tradición filosófica anterior que ha gravitado excesivamente sobre el mismo Esta empresa urgente pide la renovación de nuestros viejos conceptos obsoletos o inadecuados en el mundo moderno
