Orthodoxy In Conversation:

Orthodoxy in Conversation Emmanuel Clapsis, 2000 Here is a coherent creative set of essays by a well established Orthodox theologian who dares to address many of the critical and controversial issues of the day The author is an Orthodox ecumenist who has taken seriously the ecumenical commitment of his church and attempts to do theology in conversation with other Christian traditions and theologies in the context of the ongoing theological deliberations of the World Council of Churches and more specifically of the Faith and Order commission He deals with a wide range of issues including the Orthodox church and the ecumenical movement naming God papal primacy politics and the Christian faith population consumption and the environment violence what the Spirit says to the churches the challenge of contextual theologies and the eucharist as missionary event *Orthodoxy in Conversation* Emmanuel Clapsis, 2000 **Theology, Science and Life**

Carmody Grey, 2023-01-26 Offering a bold intervention in the ongoing debate about the relationship between theology and science *Theology Science and Life* proposes that the strong demarcation between the two spheres is unsustainable theology occurs within and not outside what we call science and science occurs within and not outside theology The book applies this in a penetrating way to the most topical contentious and philosophically charged science of late modernity biology Rejecting the easy dualism of expressions such as theology and science theology or science modern biology is examined so as to illuminate the nature of both In making this argument the book achieves two further things It is the first major English language reception and application of the thought of philosopher Hans Jonas in theology and it makes a decisive contribution to the unfolding reception of Radical Orthodoxy one of the most influential schools in contemporary Anglophone theology

Why Study Talmud in the Twenty-First Century? Paul Socken, 2009-10-29 The Talmud is the repository of thousands of years of Jewish wisdom It is a conglomerate of law legend and philosophy a blend of unique logic and shrewd pragmatism of history and science of anecdotes and humor Unfortunately its sometimes complex subject matter often seems irrelevant in today's world In this edited volume sixteen eminent North American and Israeli scholars from several schools of Jewish thought grapple with the text and tradition of Talmud talking personally about their own reasons for studying it Each of these scholars and teachers believes that Talmud is indispensable to any serious study of modern Judaism and so each essay challenges the reader to engage in his or her own individual journey of discovery The diverse feminist rabbinic educational and philosophical approaches in this collection are as varied as the contributors' experiences Their essays are accessible personal accounts of their individual discovery of the Talmud reflecting the vitality and profundity of modern religious thought and experience Natural Law & the Secular Mythos Gregory Morgan, 2025-02-20 This book argues that natural law when construed as an epistemological and trans-cultural lingua franca adjudged capable of legitimating the rational intelligibility and universal applicability of specific Christian moral principles within contemporary secular discourse has failed Through a detailed analysis of the contributions of three prominent natural law theorists who are located within a

shared philosophical theological tradition namely John Finnis Jean Porter and John Milbank the text illuminates the extent to which this failure is as much intramural as it is extramural Morgan explores how new horizons open up for natural law if the theological unsaid s are allowed to surface and the disremembering power of the secular mythos is overcome The final chapter s of the book addresses one such horizon that the theoretical fulcrum of the natural law lies not in its perceptual self evidence or in its immanent secularity but rather in its subtle provision of an immanent eschatology The Christ who Embraces Jacob Joseph,2024-10-28 Jacob Joseph s book *The Christ who Embraces An Orthodox Theology of Margins* explores the intersection of Orthodox Christian mission and caste dynamics among St Thomas Syrian Orthodox Christians in India It defines a liturgical touch or embrace in the context of untouchability where people identify as equal without discrimination reflecting the inseparable unity of Christ s transcendental divine and immanent human nature **Rethinking the Space for Religion** Catharina Raudvere,Krzysztof Stala,Trine Stauning Willert,2015-01-01 A broad discussion about how history and religion contribute to identity politics in contemporary Europe this book provides case studies exemplifying how public intellectuals and academics have taken an active part in the construction of recent and traditional pasts Instead of repeating the simplistic explanation as a return of religion this volume focuses on public platforms and agents and their use of religion as a political and cultural argument Filled with previously unpublished data gathered from texts interviews field observations artifacts and material culture this record challenges stereotypical images of East and Southeast Europe *The Post-Evangelical* Dave Tomlinson,2014-07-17 Ground breaking and hugely controversial on first publication in 1995 this classic text pre empted the emerging church movement questioning whether the certainties of evangelical orthodoxy could survive in a postmodern world *Speaking of Economics* Arjo Klammer,2007-01-25 Making sense of economists and their world Arjo Klammer shows that economics is as much about how people interact as it is about the models the mathematics the econometrics the theories and the ideas emerging from the literature **To Change the World** James Davison Hunter,2010-04-14 The call to make the world a better place is inherent in the Christian belief and practice But why have efforts to change the world by Christians so often failed or gone tragically awry And how might Christians in the 21st century live in ways that have integrity with their traditions and are more truly transformative In *To Change the World* James Davison Hunter offers persuasive and provocative answers to these questions Hunter begins with a penetrating appraisal of the most popular models of world changing among Christians today highlighting the ways they are inherently flawed and therefore incapable of generating the change to which they aspire Because change implies power all Christian eventually embrace strategies of political engagement Hunter offers a trenchant critique of the political theologies of the Christian Right and Left and the Neo Anabaptists taking on many respected leaders from Charles Colson to Jim Wallis and Stanley Hauerwas Hunter argues that all too often these political theologies worsen the very problems they are designed to solve What is really needed is a different paradigm of Christian engagement with the world one that Hunter calls faithful presence an ideal of Christian

practice that is not only individual but institutional a model that plays out not only in all relationships but in our work and all spheres of social life He offers real life examples large and small of what can be accomplished through the practice of faithful presence Such practices will be more fruitful Hunter argues more exemplary and more deeply transfiguring than any more overtly ambitious attempts can ever be Written with keen insight deep faith and profound historical grasp To Change the World will forever change the way Christians view and talk about their role in the modern world *Oliver Wendell Holmes and the Culture of Conversation* Peter Gibian,2001-08-16 Peter Gibian explores the key role played by Oliver Wendell Holmes in what was known as America s Age of Conversation He was both a model and an analyst of the dynamic conversational form which became central to many areas of mid nineteenth century life Holmes multivoiced writings can serve as a key to open up the closed interiors of Victorian America whether in saloons or salons parlours or clubs hotels or boarding houses schoolrooms or doctors offices Combining social intellectual medical legal and literary history with close textual analysis and setting Holmes in dialogue with Emerson Hawthorne Melville Fuller Alcott and finally with his son Justice Oliver Wendell Holmes Junior Gibian radically redefines the context for our understanding of the major literary works of the American Renaissance

Conversations John Apocalypse,2014-02-10 Nine polemic conversations on varying topics The aim of this work is to provoke thought to entice and challenge the reader to question themselves and their beliefs Each conversation was carefully written to demonstrate both arguments clearly and fairly in hopes of leading the reader to make their own conclusion Conversation nine is written by Mark Ramzy on the subject of the schism which occurred between the Eastern Orthodox and Oriental Orthodox Christians This book is not for the faint of heart as neither writer pulls any punches in demonstrating truth in this uniquely socratic method
