friends The pilot learns that the little prince comes from a small planet that the little prince calls Asteroid 325 but that people on Earth call Asteroid B 612 The little prince took great care of this planet preventing any bad seeds from growing and making sure it was never overrun by baobab trees One day a mysterious rose sprouted on the planet and the little prince fell in love with it But when he caught the rose in a lie one day he decided that he could not trust her anymore He grew lonely and decided to leave Despite a last minute reconciliation with the rose the prince set out to explore other planets and cure his loneliness
