Return to Tibet Heinrich Harrer, 2003

Tibet's Fate Warren W. Smith Jr., 2023-03-15 *Tibet's Fate* examines the issue of the political fate of Tibet It is told by Tibetans themselves as well as by the author from his own experiences The title is not meant to imply that the current fate of Tibet is an ultimate destiny or even that Tibet's fate is already decided It is only meant in the sense that if Tibet's fate is now determined it has been determined not by the Tibetan people but by those of China If it is to be determined by China then Tibet's fate is indeed to be an integral part of China However if Tibet's fate were to be decided by the Tibetan people if they were allowed their right to national self determination then it would definitely be different Given all the criteria for independent statehood territory culture language religion and government Tibet surely should be an independent state Tibetan territory defined by altitude was the very nearly exclusively habitation of people who identified themselves as Tibetans Those people share a distinct culture language and religion They had a central government that directly administered the territory of Central Tibet and indirectly that of Kham and Amdo Had Tibetans been allowed to determine for themselves their political status that is if they had the right to self determination as specified in the most fundamental documents of international law there is no doubt that they would have chosen independence Whatever the flaws of the Tibetan social and political systems Tibet should have had the right to determine its own fate and could have done so until deprived of that right by China The book also examines the sensitive question of the nature of the Tibetan political system and its role in the fate that has befallen Tibet The author concludes that the Tibetan political system of Chosi Shungdrel or the unity of religion and politics is implicated in the failure of Tibet to maintain its independence

State Making in Asia Richard Boyd,Tak-Wing Ngo,2012-09-10 Including contributions from an international team of leading experts this volume examines state making from a uniquely Asian perspective and reveals some of the misunderstandings that arise when states and state making are judged solely on the basis of Western history The contributors argue that if we are to understand states in Asia then we must first recognize the particular combination of institution and ideologies embedded in Asian state making and their distinctiveness from the Western experience Presenting new empirical and conceptual material based on original research the book provides a unique theoretical reflection of the state through a thorough comparison of East Asian nations and as such will be a valuable resource to scholars of Asian politics and international relations

Chasing the Chinese Dream William N. Brown,2021-06-01 This open access book explores the historical cultural and philosophical contexts that have made anti poverty the core of Chinese society since Liberation in 1949 and why poverty alleviation measures evolved from the simplistic aid of the 1950s to Xi Jinping s precision poverty alleviation and its goal of eliminating absolute poverty by 2020 The book also addresses the implications of China s experience for other developing nations tackling not only poverty but such issues as pandemics rampant urbanization and desertification exacerbated by global warming The first of three parts draws upon interviews of rural and urban Chinese from diverse backgrounds and local and national leaders These interviews conducted in even the remotest areas of the country offer candid insights into the challenges that have forced China to continually evolve its programs to resolve even the most intractable cases of poverty The second part explores the historic cultural and philosophical roots of old China s meritocratic government and how its ancient Chinese ethics have led to modern Chinese socialism s stance that poverty amidst plenty is immoral Dr Huang Chengwei one of China s foremost anti poverty experts explains the challenges faced at each stage as China s anti poverty measures evolved over 70 years to emphasize enablement over aid and to foster bottom up initiative and entrepreneurialism culminating in Xi Jinping s precision poverty alleviation The book also addresses why national economic development alone cannot reduce poverty poverty alleviation programs must be people centered with measurable and accountable practices that reach even to household level which China has done with its First Secretary program The third part explores the potential for adopting China s practices in other nations including the

potential for replicating China's successes in developing countries through such measures as the Belt and Road Initiative. This book also addresses prevalent misperceptions about China's growing global presence and why other developing nations must address historic systemic causes of poverty and inequity before they can undertake sustainable poverty alleviation measures of their own.

A History of Modern Tibet, Volume 4 Melvyn C. Goldstein, 2019-10-22 It is not possible to understand contemporary politics between China and the Dalai Lama without understanding what happened in the 1950s especially the events that occurred in 1957-59. The fourth volume of Melvyn C. Goldstein's History of Modern Tibet series *In the Eye of the Storm* provides new perspectives on Sino-Tibetan history during the period leading to the Tibetan Uprising of 1959. The volume also reassesses issues that have been widely misunderstood as well as stereotypes and misrepresentations in the popular realm and in academic literature such as in Mao's policies on Tibet. Volume 4 draws on important new Chinese government documents published and unpublished memoirs, new biographies, and a large corpus of in-depth specially collected political interviews to reexamine the events that produced the March 10th uprising and the demise of Tibet's famous Buddhist civilization. The result is a heavily documented analysis that presents a nuanced and balanced account of the principal players and their policies during the critical final two years of Sino-Tibetan relations under the Seventeen Point Agreement of 1951.

Reincarnation in Tibetan Buddhism Ruth Gamble, 2018-07-09 Reincarnation in Tibetan Buddhism examines how the third Karmapa, Rangjung Dorje (1284-1339), transformed reincarnation from a belief into a lasting Tibetan institution. Born the son of an itinerant low-caste potter, Rangjung Dorje went on to become a foundational figure in Tibetan Buddhism and a teacher of the last Mongolian emperor. He became renowned for his contributions to Buddhist philosophy, literature, astrology, medicine, architecture, sacred geography, and manuscript production. But as Ruth Gamble demonstrates, his most important legacy was the transformation of the Karmapa reincarnation lineage to ensure that after his death, subsequent Karmapas were able to assume power in the religious institutions he had led. The inheritance model of reincarnation instituted by Rangjung Dorje changed the Tibetan Plateau's power relations, which until that time had been based on family associations and created a precedent for later reincarnate institutions, including that of the Dalai Lamas. Drawing on Rangjung Dorje's hitherto untranslated autobiographies and autobiographical songs, this book shows that his reinvention of reincarnation was a self-conscious and multi-faceted project made possible by Rangjung Dorje's cultural, social, and political standing and specific historical and geographical circumstances. Exploring this combination of agency and historical coincidence, this is the first full-length study of the development of the reincarnation institution.

Tibetans in Nepal Ann Frechette, 2004-10-01 Based on eighteen months of field research conducted in exile carpet factories, settlement camps, monasteries, and schools in the Kathmandu Valley of Nepal, as well as in Dharamsala, India, and Lhasa, Tibet, this book offers an important contribution to the debate on the impact of international assistance on migrant communities. The author explores the ways in which Tibetan exiles in Nepal negotiate their norms and values as they interact with the many

international organizations that assist them and comes to the conclusion that as beneficial as aid agency assistance often is it also complicates the Tibetans efforts to define themselves as a community
