The Heart of Power David Blumenthal,James Morone,2010-09-21 Explores how modern presidents have wrestled with their own mortality and how they have taken this most human experience to heart as they faced the difficult politics of health care The Heart of His Mystery Waterfield John Waterfield,John Waterfield,2009-10 Shakespeare has traditionally been viewed as Queen Elizabeth's poet laureate and as the official mouthpiece of the Elizabethan age But the Elizabethan world was torn apart by the religious divisions initiated by the Reformation and vitiated by the government's merciless persecution of Catholics As it was the victors who wrote the history the English Reformation has been portrayed as a peaceful transition enjoying majority support when in fact it was nothing of the kind Elizabeth's regime was a police state which sanctioned the use of torture where Catholic priests and those who harboured them were liable to summary and bloody execution The persecution of Catholics was continued by James I evoking the violent response of the Gunpowder Plot The Heart of His Mystery examines Shakespeare's life and work against this background There is strong biographical evidence that he was himself a Catholic and a detailed survey of his plays and poems shows that his imagination was intimately bound up with his religious faith When we realise that his human compassion grew from his membership in a persecuted community we can glimpse the mystery he has encrypted in his works and we come closer to understanding the hidden heart of Shakespeare the man

THE HEART TRANSPLANT OF MY GIRLFRIEND Ajay Sharma,2019-10-21 It was 9th of February 2014 in Maa Kalka's temple when Zindagi asked me to write our story in the form of a novel I was utterly astounded to see such a wish coming from her but such was my love for her that it didn't take me even seconds to say a yes When I wanted to prove my love to her by writing this novel nowhere in my mind had I thought that my love story would take such a tragic turn The Heart Transplant of my Girlfriend is just a small attempt to fulfil the promise that I made to the most beautiful girl of my life Sometimes promises are also kept in people's absence *Mapping the Terrain of the Heart* Stephen Goldbart,David Wallin,1997-03-01 If you have read other books about love that have fallen short read this book Mapping the Terrain of the Heart is an eloquent guide through love's diverse landscapes that provides a whole new way to think about love relationships Both descriptive and prescriptive it is a book for anyone looking to experience a committed relationship full of passion and tenderness In the labyrinth of love every one of us has his or her own inner map Psychologists Goldbart and Wallin lead us along the metaphorical superhighways on the map of love by charting

six easily grasped skills the six capacities of love that are all necessary to a long term stable love relationship the capacities for erotic involvement for merging for idealization for integration for refining and for self transcendence The authors demonstrate in a very practical hands on way how individuals and couples can use these capacities to work on breaking down their usual defenses and grow toward a deeper understanding and connection In defending ourselves against disappointment in love we frequently and often unknowingly throw up obstacles create roadblocks and take detours around these six capacities We think such detours will take us where we want to go in a relationship but too often they do not Goldbart and Wallin s sophisticated but accessible approach using case studies and practical pointers throughout based on solid psycho analytic theory while creating a completely new model for love relationships that also makes intuitive sense Mapping the Terrain of the Heart offers a comprehensive psychology of love that maps out the paths to a successful relationship and shows how both individuals and couples can progress toward that ever elusive goal of lasting and passionate love

BYWAYS TO BLESSEDNESS + OUT FROM THE HEART +THROUGH THE GATES OF GOOD James Allen,2020-12-23

THE genius of the present age in matters spiritual is towards simplicity and the hunger of the human heart is for Truth naked and uninvolved That hunger wil eventual y bring about is already bringing about its own satisfaction and here and there are men and women who passing through the Gateway of Self conquest are entering into possession of the Transcendent Righteousness The closing years of the nineteenth century witnessed the culmination of Formalism and the spiritual reaction is now firmly established Already the end of old faiths and beginning of the new is discernible to al who have removed from their mental vision somewhat of the textual dust of dying creeds and have penetrated however faintly that sublime region of Truth which is discoverable only by practice and which is made manifest by pure thoughts and holy deeds The universal decay of effete religious systems which the world is witnessing today is matter for rejoicing it is the death which precedes Life it is the passing away of the false in order that the True may be more ful y revealed The True can at worst but remain hidden It endures It remains forever Its invincibility cannot be qualified and he who has but one momentary glimpse of the True can never again be anxious for its safety That about which men are anxious is the false which they mistake for the True and this in spite of al their anxiety must fade away at last In the lives of al the Great Teachers we see a manifestation of that Universal Truth the majesty and splendor of which is as yet but dimly comprehended by mankind but which must during the gradual transformation and transmutation which the accumulating ages shal effect at last become the possession of al That Truth as manifested by the Teachers was written by them as it only can be written in thoughts and deeds of the loftiest moral excel ence which have been permanently impressed upon the mind of mankind by their embodiment in preceptial form It is to the sweet lives and 2 inspiring words of these mighty Teachers that the eyes of a hungering and thirsty world are again being turned and the Light of Life is being lighted up the world over in hearts that are ready to attune themselves to the Eternal Song of Love and Peace What religions have failed to do Religion wil accomplish what the Priest has obscured the Spirit of

Truth in the heart of man will make plain and the world is now finding spiritual healing and refreshment in turning away from traditional and historic accretions and going back to the pure Fountain of Truth as revealed to them so simply clearly and beautifully by their blameless Teachers and which had its inexhaustive spring within themselves To aid men and women more particularly those in Christian countries more speedily to find this abiding Truth these articles setting forth the life and precepts of Jesus were written Formalism and self were heavy burdens to carry and in directing the minds of men to blamelessness of conduct and purity of heart I know I can leave the result with the Supreme Law and that there are those who will read and having read will pass from the burdensome complexities of ignorance and formalism to the joyful simplicity of Enlightenment and Truth James Allen Diamond Heart: Being and the Meaning of Life A. H. Almaas, 2000-09-05 The founder of the Diamond Approach guides readers through the difficult process of understanding and accepting our true identity We live in a world of mystery wonder and beauty But most of us seldom participate in this real world being focused rather on the part that is mostly strife suffering or meaninglessness This situation is basically due to our not realizing and living our full human potential This potential can be actualized by the realization and development of the human essence The human essence is the part of us that is innate and real and which can participate in the real world In this third installment of the Diamond Heart series A H Almaas guides and orients individuals who are engaged in doing the difficult work of realization It is a transcription of talks given by the author in both California and Colorado Encountering Cruelty: The Fracture of the Human Heart Michael R. Trice, 2011-04-21 Interest in recent years in reconciliation and conflict transformation has witnessed a great deal of attention to building a future through forgiveness and preventative measures in order to impede egregious wrongdoing This effort for a reconciled future is absent reflection on the nature of cruelty Cruelty has always been apparent in massive acts of wrongdoing and yet is repeatedly concealed in our assessment of the acts themselves This book is a theologically honest and deep structure exploration of cruelty in its personal communal and institutional encounters in human life Drawing on Nietzsche's challenge of cruelty to the western tradition the work offers a comprehensive study of how cruelty undermines care trust respect and justice all those elements of human reciprocity that mark our lives as interdependent beings The work concludes with a tightly written Epilogue on interpreting the theological meaning and accessibility of reconciliation today Interpreting Aristotle's Posterior Analytics in Late Antiquity and Beyond F.A.J. de Haas, Mariska Leunissen, Marije Martijn, 2011-03-21 This collection of essays highlights Ancient Byzantine and Medieval developments in the discussion of scientific method and argument in the commentary on Aristotle's Posterior Analytics and related methodological passages in the Aristotelian corpus Despite the importance of these discussions the larger part of the commentary tradition on the Posterior Analytics still remains uncharted The contributors to this volume identify and explore three important strands of interpretation viz 1 the reception of Aristotle's logic of inquiry and theory of concept formation in Posterior Analytics II 19 2 the influence of the Posterior Analytics on the evaluation of metaphysics as a

science and 3 the reception of Aristotle's theory of demonstration definition and causation in Posterior Analytics book II

Philoponus: On Aristotle Posterior Analytics 2 Philoponus, 2014-04-22 The Posterior Analytics contains Aristotle's philosophy of science. In Book 2 Aristotle asks how the scientist discovers what sort of loss of light constitutes lunar eclipse. The scientist has to discover that the moon's darkening is due to the earth's shadow. Once that defining explanation is known the scientist possesses the full scientific concept of lunar eclipse and can use it to explain other necessary features of the phenomenon. The present commentary arguably ascribed to Philoponus incorrectly offers some interpretations of Aristotle that are unfamiliar nowadays. For example the scientific concept of a human is acquired from observing particular humans and repeatedly receiving impressions in the sense image or percept and later in the imagination. The impressions received are not only of particular distinctive characteristics like paleness but also of universal human characteristics like rationality. Perception can thus in a sense apprehend universal qualities in the individual as well as particular ones. This volume contains an English translation of the commentary accompanied by extensive commentary notes, an introduction and a bibliography.
