Reading Contingency David Wylot, 2019-11-25 In *Reading Contingency: The Accident in Contemporary Fiction*, David Wylot constructs an innovative study of the relationship between plotted accidents in twenty-first century British and American fiction, the phenomenology of reading and a contemporary experience of time that is increasingly understood to be contingent and accidental. A synthesis of literary and cultural analysis, narratology, critical theories of time and the philosophy of contingency, the book explores the accident's imagination of contemporary time and the relationship between reading and living in novels by writers including A. M. Homes, Nicola Barker, Noah Hawley, J. M. Coetzee, J. G. Ballard, Jesmyn Ward, Jennifer Egan and Tom McCarthy.

Reverse Logistics Rommert Dekker, Moritz Fleischmann, Karl Inderfurth, Luk N. van Wassenhove, 2013-06-05 Reverse logistics concerns the integration of used and obsolete products back into the supply chain as valuable resources. Martin Amis Nicola Barker Julian Barnes Jonathan Coe Howard Jacobson Magnus Mills and Zadie Smith this book suggests not only that much of the most interesting contemporary writing is funny and that there is a comic tendency in contemporary fiction but also that this humour this comic licence allows writers of contemporary fiction to do peculiar and interesting things things that are funny in the sense of odd or strange and that may in turn inspire a funny turn in readers Marsh offers a series of original critical and theoretical frameworks for discussing questions of literary genre style affect and politics demonstrating that comedy is an often neglected mode that plays a generative role in much of the most interesting contemporary writing creating sites of rich political stylistic cognitive and ethical contestation whose analysis offers a new perspective on the present
