entered into force on 1 January 1988. The current number of 62 contracting States representing two thirds of the world trade shows the relevance of this Convention. Moreover the International Chamber of Commerce (ICC) has published a model for an international sales contract that presupposes the application of the Convention. Since no supranational court exists to safeguard a uniform interpretation of its provisions the case law from different states on the basis of the CISG needs to be compared. One of the main obligations for the seller under the Convention is to deliver goods which are in conformity with the contract art 35 CISG. With respect to this particular obligation a number of questions have arisen. For example do the goods delivered need to comply with any public law requirements in the country where the goods will be used? When and how does a buyer have to give notice to the seller of any lack of conformity? Is any fault on the part of the seller required for a buyer to be able to rely on this provision? Who bears the burden of proof? Can a buyer rely on any concurrent claims based on national law alongside his claim based on lack of conformity? This book contains an analysis of the case law that has been established on the basis of the CISG concerning the aforementioned questions. Special attention has been paid to court decisions in Austria, Belgium, France, Germany, the Netherlands and Switzerland as well as to arbitral awards by the ICC Court of Arbitration. In this respect the role of the UNIDROIT Principles of International Commercial Contracts in the interpretation of the CISG has also been analysed. The book provides a unique combination because it contains both an analysis of the issue of non conformity as such and an overview of the recent case law on this topic as well as recommendations for international commercial practice. Therefore this book will be of interest to both academics and legal practitioners.

The introductory section of the book addresses theoretical and practical issues of the appropriate interpretive methodology as mandated in CISG Article 7 and it is followed by individual analyses of the Convention's provisions.

Franco Ferrari, 2021-08-16 Watch the interview with Franco Ferrari on Forum Shopping Despite Unification of Law According to some commentators forum shopping is an evil that must be eradicated It has been suggested that the unification of substantive law through international conventions constitutes one way to achieve this outcome This book shows that the drafting of uniform substantive law convention cannot prevent forum shopping The reasons are classified into two main categories convention extrinsic and convention intrinsic reasons The former category comprises those reasons upon which uniform substantive law conventions do not have an impact at all These reasons range from the costs of access to justice to the bias of potential adjudicators to the enforceability of judgments The convention intrinsic reasons on the other hand are reasons that relate to the nature and design of uniform substantive law conventions and include their limited substantive and international spheres of application as well as their limited scope of application the need to provide for reservations etc This book also focuses on another reason why forum shopping cannot be overcome the impossibility of ensuring uniform applications and interpretations of the various uniform substantive law conventions *The CISG and its Impact on National Legal Systems* Franco Ferrari, 2009-04-27 In force in 70 countries around the world and covering more than two thirds of world trade the 1980 United Nations Convention on Contracts for the International Sale of Goods CISG is considered to be the most successful convention promoting international trade According to many commentators this success is due among others to the fact that the Convention does not directly impact on the domestic law of the various legal systems as it applies only to international as opposed to purely domestic contracts The Convention in other words does not impose changes in the domestic law which makes it easier for States to adopt the Convention This does not mean however that the Convention does not have any impact on the domestic law at all This book analyzes through 24 country reports as well as a general report submitted to the 1st Intermediate Congress of the International Academy of Comparative Law held in November 2008 in Mexico City to what extent the Convention de facto influences domestic legal systems In particular the book examines the Convention's impact on the practice of law the style of court decisions as well as the domestic legislation in the area of contract law [The Buyer's Remedies for Non-conforming Goods](#) Hanna Sivesand, 2005 This study analyses the buyer's remedies for non conforming goods under a sales contract under English German French and Scandinavian law Moreover the EC Consumer Sales Directive the 1980 UN Convention on Contracts for the International Sale of Goods CISG and the Principles of European Contract Law PECL are included The study examines the most controversial issues and problems involved in the establishment of an effective and fair remedial regime for non conforming goods Should there be a certain hierarchy of remedies where some prevail over others Who should be able to choose between the remedies the buyer or the seller and should there be a right for the seller to impose cure upon the buyer Should certain remedies be restricted where the lack of conformity is not sufficiently serious Another controversial issue is the question of whether and if so how the buyer should be obliged to notify the seller and within which time limits he should be obliged to bring forward his claim

*Fundamental Breach Considering Non-conformity of the Goods* Benjamin K. Leisinger, 2007 In the important field of international commodity trade it is inevitable that some of the sales contracts and deliveries of goods lead to disputes over non conformity of the goods *Fundamental Breach Considering Non Conformity of the Goods* analyzes existing case law and legal doctrine as well as the legal and economic principles underlying these articles In doing this the author establishes tools which help classify the fundamentality of the seller s breach This book will be indispensable for all those who have any dealings in the vital field of international purchase and distribution law

**Good Faith in Long-Term Relational Supply Contracts in the Context of Hardship from A Comparative Perspective** Peng Guo, 2021-11-09 This book provides fair and acceptable solutions to hardship issues in long term relational supply contracts This book uses an approach to strike a balance between the traditional approach underlying classical contract law which emphasises the almost absolute prevalence of the principle of pacta sunt servanda and a flexible approach that is based on the principle of clausula rebus sic stantibus This book argues for an emerging principle of pacta sunt servanda bona fide on the basis of the relational contract theory Additionally this book demonstrates how good faith can serve as a foundation for imposing a duty to renegotiate on the parties The aim of this book is rather to propose how relational contract theory can be applied to the analysis of specific legal rules in general Lastly this book highlights how the duty to renegotiate and the power to adapt a contract can be further developed upon the occurrence of hardship based on good faith and the relational nature and characteristics of a long term relational supply contract This book explores and enriches the existing research on relational contract theory concentrates primarily on its application in domestic contract laws particularly in the regulation of long term contracts in American contract law As an outcome this book provides a more feasible and satisfactory approach for courts or arbitral tribunals to undertake when facing hardship issues in international contract disputes Overall hardship themes long term relational supply contracts and good faith are examined extensively
