Review Research Nursing Education:

Review of Research in Nursing Education, 1991

Research into Nurse Education Bryn D. Davis, 2025-09-17

Originally published in 1983 this book provides a revealing and comprehensive perspective on nurse education in the 20th Century The opening chapters look at the students themselves the sort of people who come into nursing and it examines why the drop out rate is high and how reality differs from expectations The following section examines teaching on the wards and the final part is concerned with the education and support of those involved in nurse teaching It includes a discussion of the nature of teaching and of ways of studying the teaching process as well as analysis of developments in the provision of library and information services to nurse educators nurse administrators and clinical nursing staff

Educating the Deliberate Professional Franziska Trede, Celina McEwen, 2016-06-21 This book takes a fresh look at professional practice and professional education In times of increased managerialism of academic teaching and a focus on graduate learning outcomes it discusses possibilities to teach and learn otherwise A deliberate professional is someone who consciously thoughtfully and courageously makes choices about how to act and be in the practice world A pedagogy of deliberateness is introduced that focuses on developing the following four characteristics of professionals 1 deliberating on the complexity of practice and workplace cultures and environments 2 understanding what is probable possible and impossible in relation to existing and changing practices 3 taking a deliberate stance in positioning oneself in practice as well as in making technical decisions and 4 being aware of and responsible for the consequences of actions taken or actions not taken in relation to the doing saying knowing and relating in practice Educating the deliberate professional is a comprehensive volume that carves out and explores a framework for a

pedagogy of deliberateness that goes beyond educating reflective and deliberative practitioners As a whole this book argues for the importance of educating deliberate professionals because in the current higher education climate there is a need to reconcile critique thinking participation doing and moral responsibility relating to others in professional practice and professional education **Publication Catalog of the U.S. Department of Health, Education, and Welfare** United States.
